

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Resolved, That the Standing Rules adopted at the last session be, and they are hereby, declared the rules by which the present House will be governed, until otherwise ordered, and that a select committee of five be appointed by the Chair, to draft and report a code of rules for the government of the House, and that such committee act with the committee of the Senate upon joint rules.

The Chair appointed Messrs. DeLong, Moore of Nevada, Stratton, Ellis, and Shepard, such committee.

Mr. Shepard voted for Mr. Caine.

Mr. Stratton having received a majority of all the votes taken, on motion of Mr. Thomas, a committee, consisting of Messrs. Thomas and Street, was appointed to inform Mr. Stratton of his election as Speaker.

The oath of office having been administered to Mr. Stratton, he proceeded to address the Assembly as follows:

"For the distinguished honor you have been pleased to confer upon me, in the election of a presiding officer, I most sincerely thank you. In entering upon the discharge of the duties connected with the position, I do not flatter myself that my action will at all times meet with your approval, but I shall certainly endeavor to preserve the order and dignity which should always characterize the proceedings of a legislative body. My highest, and only authority, will be the rules adopted for our governance, from which I shall not consider myself at liberty to depart, as the regularity of our proceedings, as well as justice to the minority, demand their strict observance.

"Gentlemen: we have assembled as the representatives of the free people of a great State: a State unsurpassed for natural advantages. Its favorable climate, productive soil, and untold millions of mineral wealth, are invitations too flattering to be rejected by the intelligent and the enterprising, and they are coming, and will come, by thousands, to de-

velope the resources that destine this to become the wealthiest, the most populous, and powerful State of the Union.

"This position, which Nature appears to have assigned California, can not be attained without wise and just legislation.

"The prosperity of a State or nation depends not only upon its natural advantages and form of government, but also upon the wisdom and integrity of those who make and those who execute the laws. It is only necessary to consider this important fact, and the many interests peculiar to California, to realize the responsibilities resting upon her legislators.

"As we are the servants of the whole people of the State, it is expected that our legislation will be for California, and California alone, regardless of the political aspirations of individuals, or the discussions of party creeds. These can have nothing to do with that economy and reform in legislation, so long, and so often—I may almost say vainly—promised by all parties, and now positively demanded by the people.

"Gentlemen: to win the personal regard of my fellow-members, I would do much; but to know that I had contributed in any considerable degree to necessary legislation, and towards making a very short and economical session, would be the proudest memento I could possibly bear away from this Assembly Hall.

"Trusting—believing—gentlemen, that I shall have your co-operation and assistance towards securing these ends, again permit me to return you my grateful acknowledgments."

The following message was received from the Senate :

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor :

EXECUTIVE DEPARTMENT,
Sacramento, Jan. 5th, 1859. }

Senators and Assemblymen :

Having been officially informed that both branches of the Legislature have organized, I proceed to discharge the duty imposed upon me by the tenth section of the Constitution.

It affords me sincere pleasure to say that our finances are in a much more prosperous condition than at any other period since the organization of the State. The interest upon the public debt is being promptly paid, and our Bonds rank as high in the market as those of our sister States. The ratification by the people of the unconstitutional debt, created by their reckless and extravagant agents, has done much, both at home and abroad, to inspire confidence in our integrity. Although much of our property has been shamefully squandered, we have still ample means to liquidate this debt before it becomes due. Let these means be carefully husbanded, and provision made for the prompt payment of the interest, and the prejudices hitherto entertained against us in some quarters will soon be removed. Economy and integrity in the management of public affairs are indispensable ; and I trust, you, gentlemen of the Senate and Assembly, who have been invested with the power of legislation by the people, will prove, before you close your labors, that these virtues govern and control your actions. The day has at last come, when the people have found time to watch the actions of their public agents ; and the unfaithful officer can not expect to escape the condemnation of a betrayed constituency. As much more care is now taken than formerly in the selection of legislators, it is not doubted that all of you come here with a high and laudable ambition to do everything in your power to advance the interests of the State, and promote the prosperity of the people.

Special legislation has hitherto done much to injure the State. Acts have sometimes found their way upon the statute-book, which were only intended to aggrandize individuals ; and outside agents have frequently controlled legislation. Here, I deem it my duty to direct your attention to one of the evils which has existed in California, as well as elsewhere, since the foundation of the State Government—I refer to the influence exercised over legislation by those who are usually called “Lobby Members.” Gentlemen of influence and position are frequently found at the Seat of Government, during the session of the Legislature, selling out their services to secure the passage of laws. Caring but little for the

merits of the measure, they are ready, for a consideration, to undertake its passage. If, as it is said is generally the case, the fee is contingent, their energies and ingenuity are constantly taxed, and means are used which sometimes throw suspicion upon the integrity of the legislator himself. It need not be said that when legislation is transferred from the Chamber and Hall to the "Lobby," the public treasury will soon be plundered. When the Legislature is used for the purpose of passing bills concocted by speculators, public confidence must soon be destroyed, and the legislative power brought into contempt.

FINANCE.

TREASURER'S REPORT.—The report of this officer will show that on the 15th ult., there was a balance of \$522,170 26-100 in the Treasury. Our indebtedness may be thus stated :

Bonds issued under the Act of 28th April, 1857, ratified by the people,.....	\$3,900,000 00
Bonds and Controller's Warrants outstanding, for the payment of which no provision has yet been made.....	143,485 63
Making, in the aggregate.....	<u>\$4,043,485 63</u>

The annual interest upon the debt, as ratified by the people, \$273,000.

It is quite probable that there are other demands of a just and equitable character against the State, which will swell the amount of actual indebtedness to \$4,150,000. This will leave a debt of some \$250,000, for which no provision has been made. That portion of the debt which accrued prior to the first day of January, 1857, under the view which I take of the question, will require a vote of the people before it can be paid. In this statement, the Bonds issued on account of Indian hostilities, are not included, because they show upon their face that they are to be no charge on the State Treasury. It is hoped, however, that the Legislature will urge upon our Senators and Representatives in Congress, the necessity of securing, if possible, at the present session, the payment of these just demands of our citizens, amounting, in the aggregate, to \$245,874 00.

It will also be seen, from the report, that a fraud was practiced on the Treasury to the amount of \$22,251 00. It was the custom of the Treasurer, when Bonds or Warrants were presented for funding, to examine his books carefully, and ascertain whether they had been properly registered and issued. The Fund Commissioners would then meet, from time to time, at his office, pass upon their genuineness, and see that they were correctly endorsed and canceled. All the claims presented, of every character and description, were closely examined by the Board before they were funded. Some weeks after new Bonds had been issued upon the stolen Warrants, a list of those for the payment of which Mr. McMeans, the former Treasurer, had received a credit, was placed in our hands. Steps were immediately taken by the Treasurer to secure the State, if possible, against loss. The question is now before the Courts, and will shortly be disposed of. The outstanding Warrants which have never been presented, and which must have been stolen from the Treasury, amount to \$13,623 20, making, in the aggregate, \$35,874 20. These Warrants were all properly registered, and there was no evidence or mark whatever upon them that they had ever been paid. The thir-

teenth section of the Act of July 31st, 1850, prescribing the mode of receiving, keeping, and paying out the public funds, thus specifies the duty of the Treasurer: "on the payment of any Warrant drawn by the Controller on him, *he shall take the receipt of the person to whom the money is paid, on the back of the Warrant, and carefully file away and preserve the same, endorsing thereon the number thereof.*"

If the Treasurer had complied with the law, a fraud of this character could never have been practiced. Again, on the 2d of February, 1856, a Joint Committee was appointed by the Legislature, under the following resolution, (Senate Journal, page 208:)

Resolved, by the Assembly, the Senate concurring, That a Joint Committee, composed of three members of the Assembly and two members of the Senate, be appointed to examine and report upon the financial transactions of the Treasury Department of this State, during the term of office of the late State Treasurer, and that said Committee be fully authorized and empowered to cancel all uncanceled vouchers pertaining to the same, and to send for persons and papers, if necessary.

If the Committee had exercised the power given them by the Legislature, of course these Warrants could never have gotten into circulation. I do not doubt that they were stolen from the Treasury soon after they were examined by the Joint Committee. Until judicially decided, the Treasurer will not, of course, recognize the Bonds issued upon these Warrants as a legal demand against the State.

CONTROLLER'S REPORT.—An examination of this communication will show that the assessed value of property, for the year 1858, falls two millions of dollars short of the assessment of 1857, and more than sixteen millions below the estimate of my predecessor. The discovery of gold in the British Possessions, north of us, and the excitement consequent thereupon, drew off a very large number of our citizens, and a general depreciation in the value of property immediately ensued. Other causes, of which it is not deemed necessary to speak, contributed to this result. The reduction in one county alone (San Francisco) is nearly nine millions of dollars. The value of the taxable property for the present year, is stated by the Controller, in round numbers, to be one hundred and twenty-four millions. The estimate made by the late Governor was one hundred and forty millions, and upon this calculation the Legislature proceeded to reduce the taxes on property from seventy to sixty cents on a hundred dollars. Whilst I am not disposed to increase the rate of taxation, the safety of the public credit, in my opinion, demands that the Act of April 17, 1858, giving the ninth and tenth classes of Licenses, and the Liquor Licenses, to the counties, should be repealed.

It is proper to remark, that this Act was approved by me with very great reluctance. Indeed, it was only after considerable hesitation and delay that I yielded to the judgment of your predecessors, as I did not feel disposed to set up my own against the expressed will of the representatives of the people, especially as I had just come into office, and was unacquainted with the revenue system of the State. The aggregate debt of the counties amounts to some three millions of dollars, and it was desirable to relieve them from embarrassment, if it could be done without producing a deficiency in the State Treasury. It will be seen, however, that whilst the Act has embarrassed the State, it has proved of very little benefit to the counties. The receipts from these licenses have fallen off during the six months preceding the fifteenth ult., (as compared with the corresponding term of the year 1857,) forty-two thousand four hundred and twelve dollars and twenty-four cents. It is safe to assume that, at the end of the year, the loss will amount, in round numbers, to eighty

thousand dollars, thus leaving to the counties the meagre sum of say thirty thousand dollars. Now, it seems to me that a bare statement of these facts should be sufficient to secure the repeal of the law.

The interest due upon our Bonds the first instant, amounting to one hundred and forty-seven thousand one hundred and thirty-eight dollars and fifteen cents, could not have been paid if authority had not been given to draw on the General Fund in case of a deficiency. The amount in the Interest Fund proper, was only eighty-five thousand five hundred and fifty dollars and twenty-two cents, instead of a surplus, as was anticipated by the late Executive. We have now the alternative, to restore the revenue derived from these licenses, in future, to the State Treasury, or devise some plan by which poll-taxes can be collected. The delinquent-list, in almost every county, is unusually heavy this year.

That our tax-laws operate unequally, and in some respects unjustly, cannot be controverted. Some of these inequalities can not be corrected without a change in the Constitution. Every one who enjoys the protection of the Government ought to contribute towards its support, and yet nearly the whole burden falls upon less than one-third of the citizens. Take, if you please, the poll-tax. Whilst we have a voting population of some one hundred and twenty thousand, only forty-eight thousand one hundred and thirty-five dollars were received from this source last year, the tax being three dollars per capita, and the State's share sixty per cent. In nearly one-third of the counties no poll-tax was collected, as will be seen by reference to the report. In 1857, none whatever was collected in San Francisco, and during the past year only nine hundred and ninety-one dollars and seventy cents. There can not be less than thirty thousand males over the age of twenty-one years, in that city and county, and if collections had been made, the State would have received some fifty thousand dollars, instead of less than one thousand dollars. In the meanwhile, El Dorado, with a voting population of little more than one-half that of San Francisco, paid this year eight thousand four hundred and sixty-four dollars and fifty cents. It will also be found that more than two-thirds of the whole amount received from this source was paid by eight counties, to wit: El Dorado, Sacramento, Calaveras, Nevada, Placer, Siskiyou, Sierra, and Tuolumne. Whilst San Francisco has a larger population than any other county in the State, no less than fourteen counties paid a larger poll-tax. It is but justice, however, to this county, to say that of other taxes it pays one-fourth of the whole amount received into the Treasury. If the law was properly enforced throughout the State, a sufficient revenue could be collected to pay the annual interest accruing on the public debt. By devolving the duty on the Collector, instead of Assessor, the amount will certainly be increased, and therefore it is recommended.

It will be observed that only twenty-five counties have reported the assessment of property in accordance with law. The twenty-ninth section of the Revenue Act of 1853 declares that County Auditors "shall make out and cause to be transmitted, by mail or otherwise, to the Controller of State, on or before the first day of November of each year, a complete abstract of the property listed in his county, the valuation thereof, the number of polls, the amount of each kind of tax, and the aggregate thereof in the county; as, also, the rate of each kind of tax assessed." It is difficult to find any reason why these County Auditors should be allowed to disregard the plain requirements of the law, and it is recommended that a penalty be imposed upon those who may hereafter

neglect to perform this duty. Perhaps the simple provision prohibiting them from receiving any compensation for services rendered under the Revenue Laws, until the receipt of the State Controller for the assessment-roll is produced, might answer the purpose.

In estimating the probable receipt into the Treasury for the next fiscal year, it will be noticed that the Controller includes the proceeds of the School lands, (\$65,000,) but this can not be used for the ordinary expenses of the Government. By the tenth section of the Act of last year "to provide for the location and sale of the unsold portion of the 500,000 acres of land donated to this State for School purposes, and the seventy-two sections donated to this State for the use of a Seminary of Learning," as soon as \$57,600 of any money belonging to the School Fund is received, the Board of Examiners is required to use the same for purchasing outstanding Civil Bonds. The amount received thus far, under the Act, is a fraction less than \$10,000.

I have caused a tabular statement to be prepared at the Controller's office, showing the cost of collecting the revenue, during the past year, in the different counties, and your earnest attention is called to it. In one of the counties, the cost was a fraction over forty-two per cent.; in another, thirty-eight; and in several, over twenty per cent. Take counties lying contiguous to each other, having about the same character of population, and presenting about the same difficulties in collecting, and see the vast difference in the expense. In Amador, the per cent. is a fraction over eight, whilst in Calaveras it is twenty-three and a fraction. In Nevada, a fraction over three per cent., whilst in the adjoining counties—Placer, on the south, it is eight and a fraction, and in Sierra, on the north, thirty-four and a fraction. In Trinity, six per cent., whilst in Shasta, twenty-three and a fraction. In Santa Clara, five and a fraction, whilst in Alameda, twelve and a fraction. It is true, that the per centage can not be equalized, as in many counties the Assessor goes with the Collector, and his expenses are audited by the Board of Supervisors, and in some localities the cost of collection is greater than in others, yet this gross inequality shows that there is something wrong in the system. The aggregate cost of collecting a revenue of \$1,254,335 46 is \$108,370 65.

The law fixing the fees of Tax-Collector, was passed several years since, when the expenses of traveling and of living were much higher than now. With the improvements of roads, the increase in the facilities for traveling, and a general reduction in the cost of the necessities of life, there ought to be a corresponding reduction in the fees of revenue officers, and it is, therefore, recommended.

I concur with the Controller, in the opinion that the whole revenue system needs revision, as there are many radical errors in it. Indeed, it is claimed that some of our laws are unconstitutional.

A criminal prosecution was instituted at San Francisco, against one Capt. Almy, for a violation of the first section of the Act to provide revenue for the support of government, from a tax to be levied and collected from foreign and inland bills, as amended by the Act of twenty-sixth of April, 1858. The party having been convicted, sued out a writ of error from the Supreme Court of the United States, and the case is now pending at Washington. The object of the defendant is to test the constitutionality of the law. Deeming this a matter of great financial importance, Mr. Benjamin, of the United States Senate, and Gen. Volney E. Howard, of California, were retained to represent the State. It is probable that the case will be disposed of during the present term of the Court.

REPORTS OF OFFICERS.

SECRETARY OF STATE.—The report of this officer will show that we have for years past been publishing a much larger number of Journals and Laws than the necessities of the State demanded. Indeed, an uncharitable person might suppose that the principal object had been to enrich the printer. It will be seen that there are now on hand, of the Journals of the Legislature, *four thousand nine hundred and eighty* copies. Of the Seventh Session (1856) alone, he has *thirteen hundred and twenty-three* copies. Of the preceding Session, seven hundred and ninety-two; and of the last Session, seven hundred and thirty-five. By examining the Appendix to the Journals of the Senate and Assembly, it will be found that hitherto the reports of the State Officers and Public Institutions were printed in each, thus making one volume of unnecessary binding. The report of the Treasurer is published in three different volumes.

These evils should be corrected, and your attention is invoked to them. The expenses of "printing, paper, and official advertisements," for the present fiscal year, (judging by the amount charged to this account during the past twelve months,) will not exceed \$40,000—being \$10,000 less than the sum appropriated by the last Legislature for this object. This is the first time that the expense of printing for the State has been kept within the appropriation made by the Legislature. And yet even this amount can be reduced \$10,000, without changing the tariff of prices fixed by statute.

ATTORNEY-GENERAL.—The report of this officer will show that there has been an unusual amount of litigation in which the State was directly interested, during the past year. In some few cases it was deemed necessary to employ assistant counsel, but, by the Attorney-General giving his unremitting attention to the public business, the large expenditure heretofore made in this department has been very much reduced.

I concur with this officer in recommending a modification of the Act for the better observance of the Sabbath, which has been declared unconstitutional by the Supreme Court. In all civilized countries, laws of this character have been deemed necessary—necessary, not only in a moral but in a physical point of view. The experience of ages has demonstrated that man requires the seventh day as a day of rest, and it can not be doubted that by striking out some unnecessary restrictions imposed by that Act, its constitutionality will be maintained by the Court.

In connection with the changes which the Attorney-General proposes in the statutes, it is suggested whether it would not be politic to reduce the number of Grand Jurors, and thus avoid very great expense. The Grand Jury, as an institution, has very little to commend it, except its antiquity, and if the Constitution did not prevent it, I would recommend its abolishment. The expenses of our Criminal Courts, under the present system, are enormous, and whenever a reduction can safely be made, it ought to be done.

It is also suggested that it might be proper (if upon examination it shall be found constitutional) to amend the Practice Act in civil cases, so as to allow the judgment of two-thirds or three-fourths to stand as the verdict of the jury. Parties are very frequently subjected to great expense, in consequence of a unanimous verdict being required. Indeed, I am not sure that in criminal cases it would not be expedient to increase the number of trial-jurors to fifteen, and require the concurrence

of twelve to render a verdict. The guilty very often escape under the present system. Our Criminal Code requires thorough revision, and it is hoped that the subject will receive your early attention.

STATE REGISTRAR.—It will be observed, by reference to the report of this officer, that it has been found impossible to execute the Act of the 26th of April, 1858, providing for the registration of marriages, births, divorces, and deaths.

That much good would result from a statistical bureau, at the Seat of Government, can scarcely be doubted. Postmasters and other public officers are constantly annoyed with letters, inquiring after persons who have died here, and what disposition was made of their property, if any was left.

The Act of last session contained some provisions which, it was easy to foresee, could not be executed. A modification of the law, or an entire repeal, is now demanded. The report of births and deaths should be left to the voluntary action of the friends of the parties. The record of marriages and divorces can be obtained from the Courts in which the marriage was celebrated or the divorce granted.

It should be the duty of the Probate Judge to report to the Registrar the deaths of all persons upon whose estates letters of administration were granted, the name of the administrator, and the amount of the estate. It should be the duty of the Coroner, in the respective counties, to report all violent deaths to him. In addition to these, let the Assessors, in the respective counties, report their statistics to the Registrar, instead of the Surveyor-General. With these modifications, the office might be made one of public utility.

MISCELLANEOUS.

ESTILL AND MCCAULEY.—The Act of the 26th of April last, organized the Board, consisting of the Governor, the Comptroller, and Secretary of State, "to examine, audit, and allow, any and all claims, legal or equitable, of James M. Estill and John F. McCauley, or either of them, against the State of California, arising out of any matter connected with the State-Prison." There is a proviso in the Act, excluding the claim of J. F. McCauley for supplies furnished during the months of January and February of last year, thus leaving that portion of his demand to the consideration of the present Legislature. Shortly after the passage of that Act, the Board gave notice, through the public prints, that a meeting would be held at the State-Prison, San Quentin, on the 17th day of May, and that all claims referred to in that law would then be received and considered. Accordingly, all the members repaired to San Quentin at the time designated. No claim, of any character whatever, being presented by either of these parties, the Board, after being in session two days, adjourned to meet again on the call of the Governor. Subsequently, it was ascertained that both these gentlemen declined presenting their claims, chiefly upon the ground that the decision of the Board would be final and conclusive.

In September, McCauley brought an action against the State-Prison Directors, as private citizens, to recover possession of the Prison, and damages for unlawful entry and detainer. The case was submitted to a jury, and a verdict was rendered in favor of defendants. An appeal was taken by the plaintiff to the County Court, and here a jury acquitted two of the defendants, (the Lieutenant-Governor and Secretary of

State,) and gave judgment against the other for \$4,150 00, which being trebled, according to our statute, amounts to \$12,450 00. An appeal, of course, was taken to the Supreme Court, where, it is understood, a decision will be rendered in a few days. To perfect this appeal, I was compelled to execute bonds in the sum of \$70,000. Whatever the result may be, the Legislature ought never to allow the Prison to pass beyond the control of the State.

On the fourteenth day of the last month, Mr. McCauley instituted a suit, in the District Court in Marin County, against the Governor, Lieutenant-Governor, and Secretary of State, in their private capacity, and several other individuals who accompanied the Governor when he took possession of the Prison, under the direction of the Legislature. This suit is brought to recover certain property at the Prison, which, it is alleged, was taken by the defendants when possession of the Prison was obtained, and damages on account of his ouster from the Prison—amounting, in the aggregate, to \$100,000. I am not advised as to the time when a trial will be had.

SURETIES OF BATES.—The Act of April 26, 1858, created the Governor, Controller, and Treasurer, a Board of Commissioners, to settle and adjust a judgment recovered by the State against Samuel Norris, P. L. Edwards, G. O. Perry, Gilbert Griswold, and J. M. Rhodes, the sureties of Henry Bates, formerly Treasurer of State, for the sum of \$100,000. The Board was authorized "to make a settlement with the sureties in said judgment, and to grant them a full release from the operation of the same, upon their paying into the State Treasury such sum as the Board, or any two members thereof, shall have determined was just and proper, and, under all the circumstances, most advantageous to the State."

We informed these gentlemen, soon after the adjournment of the Legislature, that we were ready to receive any statement or proposition which they might be disposed to make in reference to settlement. An offer was made by one of the sureties (Col. Edwards) to transfer certain property, but it was so incumbered with mortgages and liens, that the State, in all probability, would not have been able to make anything whatever out of it. Indeed, we became satisfied that no considerable portion of the judgment could be recovered, and hence abandoned all hope of effecting a settlement. After diligent inquiry into their pecuniary circumstances, we were forced to the conclusion that they were insolvent.

No State officers, in my opinion, ought ever to be invested with the power conferred by this Act. It authorizes a majority of the Commissioners to give a final discharge to the sureties against this judgment, upon whatever terms they deem proper. The payment of one dollar would have satisfied the law. The Legislature alone should prescribe the terms upon which public debtors should be released.

WATER-LOTS.—The Act of April 26, 1858, authorizes the Governor to enter upon and take possession of certain tracts or pieces of land in the City and County of San Francisco, lying within certain boundaries therein described. He was required to divide and lay out into lots and streets, etc.,—to employ an auctioneer, and proceed to sell, as soon as possible, all the right, title, and interest of the State therein. The terms of the sale were to be cash, or the Civil Bonds of the State. It also required the Governor to advertise for at least twenty days, in three newspapers—to pay all the expenses out of the proceeds.

Ascertaining that parties were in possession of this property, claiming

to be the owners, a communication was addressed to the Attorney-General, requesting him to institute legal proceedings to eject them. It is claimed by that officer that the purchasers under the sale made on the 26th of December, 1853, took no title whatever, and that the State is the absolute owner of this property. This is a judicial question, and, until it was finally determined, I was unwilling to order a sale which would have brought nothing into the Treasury, but, on the contrary, would have given some parties, in all probability, equitable claims against the State, to a considerable amount. This Act contains the following proviso:

Provided, That any person who has made payment, or payments, in cash, or in State indebtedness receivable for public dues by the State, of twenty-five per cent. of the price which he bid, for any of the lots hereinbefore mentioned, at a sale thereof, made on the twenty-sixth day of December, one thousand eight hundred and fifty-three, by the City of San Francisco, or by the then Mayor, and a Committee composed of persons who are members of the Common Council of said City, shall have a credit to the extent of said twenty-five per cent. upon the purchase by him, at the sale authorized and directed by this Act, of the same lot or lots, or upon which he has paid said twenty-five per cent.

It is a notorious fact that this property has so much depreciated in value since the sale that the credit of twenty-five per cent. would absorb the whole. If it is intended to relinquish the title to the purchasers under the sale of 1853, without any consideration whatever, it certainly can be done without subjecting the State to any expense. It is hardly worth while to employ surveyors to run off lots and streets, printers to advertise, and auctioneers to sell, in order to give away public property.

SAN FRANCISCO HARBOR.—As it is probable that you will be called upon to pass some Act for the preservation of the harbor of San Francisco, it is deemed proper to make a few general remarks on this subject. It seems to be admitted, by all, that the front of the harbor is fast filling up, which must, before long, seriously affect its usefulness and value. Some remedy for this is certainly desirable.

The whole State is directly interested in keeping this harbor what it now is, one of the finest in the world—as our commercial prosperity depends upon it. Looking at it, then, as a State question, it becomes important to us all to abstain from adopting any plan until we are satisfied that it will accomplish the end in view—the preservation of the harbor. A bad plan or a good one, in the hands of unskillful engineers, so far from preserving, might ruin it. The experience of our own country will show that artificial constructions, costing immense sums, have been placed in our harbors and rivers, which have turned out injurious to the channels, and in the end had to be removed. This has occurred in some cases where the Federal Government attempted to improve harbors, but they are more apt to occur where private rights have been allowed to interfere in the work.

The City of Portland, in Maine, found it necessary, some three years since, to organize a commission “for the purpose of obtaining a plan for regulating permanently the line of construction of Portland harbor, and for the general preservation and improvement of the channels and harbor accommodations.” Three eminent engineers, distinguished for their science and experience, (Messrs. Totten, Bache, and Davis, of the Coast Survey,) were placed on that Board, and, after a careful examination, they made an elaborate report, and the plan which they recommended was adopted, as I am informed. In New York and Massachusetts, Commissioners have been appointed by the State, to adopt plans and watch over the interests of their harbors.

The front line of the city ought not to be extended beyond its present limits, unless it is found indispensable to the preservation of the harbor, and I can not give my sanction to any plan until scientific and disinterested engineers have pronounced it the proper one to accomplish the object. Private rights, as a matter of course, must be protected, but not at the expense of the public good.

PHYSICIANS AND DRUGGISTS.—I concur with my predecessor in regard to the necessity of a law requiring the examination of Physicians and Druggists. He said: "The successful pursuit of no profession requires more thorough training and experience than the art of healing diseases and preserving the health of mankind, and none is more useful and necessary. But in proportion to the necessity and value of the science of Medicine, when properly understood and applied, are its dangerous and destructive consequences when it is perverted from its legitimate uses, and is attempted to be put in practice by those unacquainted with its precepts and principles. Instances are frequently occurring in which individuals representing themselves to the public as skilled in medical science, have, by their ignorance or carelessness, caused either the protracted suffering or untimely death of their too credulous or unsuspecting victims. There is, perhaps, no country where empiricism is so rife as in this State; and the lives and health of our people are too valuable to be placed at the indiscriminate mercy of arrogant pretenders. The Lawyer, who deals to the greatest extent with our property and pecuniary interests, is compelled to undergo a strict examination as to his qualifications for that profession, but the Physician (into whose hands are intrusted the higher and dearer interests of life and death,) and the vendor of drugs (whose proper office should be to alleviate, instead of to protract, the maladies of the body,) are permitted to pursue their separate callings, regardless of legal restraint or ascertained qualifications."

It might be added that, during the past year, at least two cases have occurred where lives were lost because of the ignorance of the Druggist. Those who perform the duties of Clerks, in drug-stores, should be rigidly examined. A Board of competent persons might be appointed by the State Medical Society, in the respective counties, to perform this duty.

His suggestions in regard to the Congressional elections have in part been carried out by the postponement of the election by the last Legislature. In regard to the propriety of districting the State, I can only say that California ought not to occupy the position of the only State in the Union which elects members by general ticket.

My predecessor called the attention of the Legislature to the necessity of running and establishing the boundary-line between this State and Utah Territory. The population in Carson Valley, and along the western line of Utah, is increasing in number very rapidly, and we can not safely postpone this work longer. The Surveyor-General, acting in conjunction with the Federal officer, could soon, without any great expense, fix this line.

He also directed attention to the necessity of amending the Homestead Act, the Law of Divorces, of Sole Traders, of Evidence in Chancery Cases, of the Insolvent Laws; and, as it is believed that all these laws are defective, the whole subject is commended to your consideration.

AMENDMENTS TO LAWS.

ATTACHMENT LAW.—Although the Practice Act upon this subject was very much improved at the last session of the Legislature, in my opinion it still requires amendment. It ought to provide for a fair distribution of the assets of the bankrupt amongst his creditors. To the policy of giving priority to the first attaching-creditor, I am opposed, as it is believed that it operates injuriously upon the business of the country. It places the debtor at the mercy of his creditors. It enables an unrelenting Shylock, (and they are found here as well as in other countries,) to crush his debtor, deprive him at once of the possession of his property, and ruin his business. It gives to one, perhaps the most greedy and unscrupulous, that which should be distributed *pro rata* amongst all the creditors of the insolvent debtor. Under this system, too, dishonest debtors find an opportunity to cover up their property and secure it from their creditors.

PRIMARY ELECTIONS.—In my Inaugural Address the attention of the Legislature was called to the necessity of adopting some additional law to preserve the purity of elections.

When political parties resort to primary elections, in selecting candidates for the various offices, it is as important that the voice of a majority should be clearly and satisfactorily ascertained at the primary, as at the general election. The primary election may be called a family meeting of the party, for the purpose of settling a question as to who shall receive the support of that family for the respective offices; and surely public policy demands that no fraud should be practiced at that gathering. Take a county where either of the political parties is decidedly in the ascendant, and party discipline enforced, the whole question is settled at the primary meeting, and the subsequent election becomes a mere matter of form.

That frauds have been, and still are, practiced at these primary elections, no one can doubt. That the will of the majority of the party is often disregarded and defeated, by tricksters, is equally certain. Whilst, perhaps, this is the best plan which can be devised, to ascertain the will of the respective parties in regard to candidates; yet, to be useful, they should be conducted fairly and honorably.

Every citizen should be left untrammelled in the exercise of the elective franchise, but the law should take care that no frauds are practiced upon the ballot-box, for that should always speak the voice of a majority of the people.

In some localities a great many respectable citizens decline attending these primary elections, because of the frauds which are practiced by professional politicians, in voting and counting; and, unless laws are passed to check this, a full and fair expression of the popular will can only occasionally be obtained.

Considering it of the greatest importance, in a Government like ours, to prevent frauds upon the elective franchise, I have deemed it proper to recommend this subject to your earnest consideration.

LIQUOR LICENSES.—Some restraints should be imposed upon those who are engaged in retailing liquors. Under the present laws, any one who can pay for a license is authorized to sell, and, as a consequence, there are many persons engaged in this business who are entirely des-

titute of character or responsibility. I would suggest the propriety of amending the law so as to require the applicant to give ten days' public notice of his intention to apply for a license. Let the application be made to the County Judge, who should be authorized to inquire into the moral character and fitness of the applicant for the occupation. If not satisfied on this subject, let the license be refused. Incorporated cities have their own government, and therefore should be excluded from this law. An Act of this character will, it is believed, have a salutary effect in lessening the number of grog-shops, and, consequently, of crime.

GEOLOGICAL SURVEY.

This subject has recently occupied a good deal of public attention, and there can not be a doubt that a survey of this State would furnish very valuable information—to the agricultural and mining interests, particularly. It is true, our territory has been pretty well explored, but the application of science would develop resources now unknown to the people. If there is any State in the Union where a geological survey is necessary, that State is ours. It is already ascertained that nearly all the minerals known to the scientific world are now found in our State. Besides, we have almost every variety of soil.

This subject was first brought to the attention of the Legislature by Hon. Jacob R. Snyder, (now Treasurer of the Mint, etc., in San Francisco,) when a Senator, in 1853. On the 26th of March of that year, he introduced a resolution in the Senate to appoint a committee to wait on Dr. Trask, (who had traversed a portion of the State, and acquired much valuable information,) and request a copy of his report. This was obtained, and 2000 copies printed. On the 6th of May, a Joint Resolution was adopted, requesting him to continue his survey, and on the succeeding day an Act was passed giving him \$2000 for his services. On the 15th of May, 1854, an appropriation of \$5000 was made to complete his survey of the Coast Range north of 35 degrees of latitude, and certain parts of the Sierra Nevada.

In March, 1855, he reports that he had spent six months and twenty-two days in the field, and sends to the Governor the result of his labors. In the general appropriation of that year, \$5000 is given to him, and for the first time he is called "State Geologist." This document occupies some ninety pages, and four thousand copies were printed—two thousand for each branch of the Legislature. It contains very valuable information, but it falls far short of a geological survey of the State.

As this communication is growing rapidly upon my hands, I must here dismiss the subject, with the expression of the opinion that if a geologist of the first rank can be obtained at a reasonable compensation, the public interest will be much advanced by the survey.

MILITIA.—The Constitution of the United States evidently contemplated that Congress should provide for the regular organization of the Militia of the States. Article I, Section 8, declares that "Congress shall have power to provide for organizing and disciplining the Militia."

Prejudices seemed to have existed on the subject, and hence Congress has not exercised the power, but left the respective States to legislate on the subject. In California we have a system which is sadly defective, and which, in time of war, or difficulty, would be found wholly impracticable.

The Governor is invested with the power of appointing Major-Generals and Brigadier-Generals, but the Adjutant-General, who is on the staff of

the Commander-in-Chief, and a part of his military family, is selected by the Legislature. The duties of Inspector-General, Quartermaster-General and Commissary-General are imposed upon him, and hence the Legislature appoints these four important staff officers for the Commander. Besides, there is no provision made for separating these offices, in time of war, and hence the checks, which every well-regulated system provides, are entirely lost.

In consequence of the absence of the Adjutant-General, (who is now on duty in the field,) no report has been made to me, and therefore the condition of the Militia, during the past year, can not be given.

EDUCATION.

If we desire to elevate the character of society, improve public morals, lessen the number of juvenile offenders, diminish the expense of our Courts and Prisons, we must make ample provision for the education of all.

The records of every prison in the civilized world will show that a very large majority of those who have been incarcerated are uneducated.

Ignorance and crime, although not inseparable, are, nevertheless, closely connected. How much better, how much cheaper, (if you take it as a question of economy,) to pay for the education of a youth, than to defray the expenses of his conviction in Court, and of supporting him for a series of years afterwards in prison.

In at least one of our sister States (Massachusetts), where a sufficient fund has been provided, laws have been enacted compelling the attendance of children in school, and the parents or guardians, or those having them in charge, subjected to a fine for not sending them.

In Austria, in Prussia, in Saxony, and some other European States, attendance upon the public schools is required by law.

If education is regarded so essential, in despotic or monarchical Governments, how much more important is it in a Government like ours, founded upon the will of the People. Our Constitutions, our Laws, our Institutions, are created by the People; and their stability depends upon the general intelligence and enlightened patriotism of the masses.

With an ignorant, debased people, our Constitutions would be ropes of sand, and our Government an idle mockery, giving security to neither person or property.

It required intelligent and educated men to found our Institutions, and it demands the same character of citizens to maintain and perpetuate them.

No one has a right to throw an ignorant uneducated youth upon the community, as the chances are that he will be vicious. I trust, that as soon as an ample fund is provided, some laws may be adopted compelling parents and guardians, having children under their charge, to send them to the schools.

Notwithstanding the difficulties which have surrounded us during our existence as a State, I have no hesitation in affirming, that we have accomplished more during the past five years, for the cause of Education, than any other State in the Union. Colleges, Seminaries, and High Schools, which would reflect honor upon older States, have been established in our cities and towns, where young men are now being educated in the most thorough manner. They are founded upon private enterprise, unaided by Government patronage.

Our Public Schools, to which we contributed, during the past year,

\$55,382 71, are doing noble work in educating the masses, and preparing them for the high responsibilities which will ere long devolve upon them.

The report of the Superintendent of Public Instruction will show that there are now 40,530 children in the State, between the ages of four and eighteen. Number under four is 23,558, making the whole number of children 64,088, and of these nearly 2,000 are orphans. The total amount paid to teachers is \$203,276, and the number of children attending the Schools, 19,822. The aggregate amount expended for school purposes during the year, \$339,914.

The noble men who are devoting their time and energies to the cause of education have already placed our Schools where they will compare favorably with those of other States.

PUBLIC INSTITUTIONS.

INSANE ASYLUM.—The Trustees have placed in my hands a full report of the operations of this institution during the past year. From this it will be seen that there are now 273 patients, being an increase of 85 over the preceding year. The very large number in this Asylum can not fail to attract public attention, for in proportion to population we have a great many more than any of our sister States. A variety of causes have contributed to this result. Thousands have come to our State with the expectation that fortunes could be readily obtained from our mines in a few months. This has proved a delusion, for here, as elsewhere, time, toil, and industry, are indispensable to the accumulation of wealth. Disappointments, blasted hopes, dissipation, and exposure, have contributed towards filling our Asylum with this unfortunate class. But another reason (and a very strong one) why the number, so far, exceeds other communities, may be found in the fact that we have here a great many patients who, in older States, are sent to the poor-house, or supported by private charity. A reference to the report will show that nearly one-fourth of the inmates are cases of mere dementia. Having no poor-houses, and these persons being without kindred or friends here to provide for them, they are thrown upon public charity, and thus crowd the Insane Asylum. Until the counties adopt some system for the support of this helpless class, we must expect an increase, and provision should be made for them.

It is a matter of regret that the Legislature should have allowed the expenses of this institution to exceed the appropriations. There are old debts, contracted prior to the first of January, 1857, amounting in the aggregate to \$5,258 18. Besides, there are debts contracted since that time, amounting to \$22,397 71. These liabilities were for necessary supplies for the support of the patients, and should have been long since paid. It is gross injustice to these claimants to postpone payment of these equitable demands. Claims which accrued prior to the first of January, 1857, will have to go with those of a similar character, and probably await the action of the people.

The policy of allowing public officers to create a debt or liability against the State ought to be abandoned. Care should be taken to appropriate a sufficient amount to cover all the necessary expenses of the Asylum, and the officers (as is the case with the State-Prison Directors) strictly prohibited from creating a debt. The Board of Examiners ought to be relieved from all connection with the institution; or else invested with the power of auditing its accounts. Under the present system, the Trustees, together with the Resident Physician, make an estimate of the anticipated

expenses, at the first of each month, and this is submitted to the Board of Examiners for their approval. As the Trustees alone pass upon the accounts, they never report to the Examiners either a surplus or a deficiency; of course they can know nothing as to the manner in which the money has been expended.

The expenses for the next fiscal year are estimated, by the Resident Physician, at seventy-two thousand dollars. Whilst economy is desirable in every department of the Government, the wants of this institution should be amply provided for. There are some appropriations asked for, which, in the present condition of our finances, would be hardly justifiable. I allude to those which are ornamental rather than useful. The necessary expenses will, in all probability, amount to the sum recommended.

Having visited this institution during the past year, and given some personal attention to it, I take great pleasure in saying that the officers are able and faithful. By their skill and unremitting attention, they have placed it where we would not suffer by a comparison with the older States.

STATE-PRISON.—As the Governor is a member of the Board of Directors having this institution in charge, who are required by law to report fully, and in detail, on the first proximo, only a few general remarks can be made in this communication.

There are now five hundred and eighty-five prisoners confined at San Quentin, and this large number can not fail to excite attention, both at home and abroad. We would suffer very much by a comparison with other States in this regard. The discovery of gold on this coast threw a large number of young men upon us, from the Atlantic States. Many of them ardent, inexperienced youths, who had been tenderly raised, under the parental roof, but finding that gold was then so easily obtained, forgot the lessons which they had been taught, and became addicted to the vices (drinking and gambling) which in the early settlement of the State prevailed to such an alarming extent, and are now paying the penalty in the Prison. As many of them are there under fictitious names, their disgrace is unknown to distant kindred and friends. But a majority of the convicts are foreigners by birth. Our proximity to the former penal colonies of Great Britain forced upon us a large number of the most desperate and hardened villains who ever disgraced human nature. The South and Central American States, and, indeed, every portion of the habitable globe, contributed their share towards swelling this immense army of ruffians. Besides, Criminal Courts, in the early years of our State, owing to the prevalence of crime, sentenced prisoners for very long terms, and, consequently, many old cases are still on hand.

The financial department will exhibit a great reduction in the expenses of the institution; whilst the physical comforts of the convicts have been very much increased. So far as this is concerned, it is apprehended that there will be no complaints from any quarter. The accommodations at San Quentin are not suitable for more than 300, or 350 at the most. It is utterly impossible to adopt any reformatory system, where fifty or sixty prisoners are oftentimes thrown promiscuously together—the young and the old, the novice and the hardened villain. Their physical wants have been properly cared for during the past year, but as to the improvement of their morals or their intellects, nothing has been done—nothing can be done until the difficulty to which I have alluded is obviated. Until additional buildings are provided, so as to separate these

convicts, and classify them, that institution must stand a disgrace to the State—a disgrace to humanity. I speak strongly, because I have devoted much of my time to this institution during the past year, and, although the accommodations have been increased, and the condition of the prisoners vastly improved, yet it falls so far short of what a prison should be, that I could not speak otherwise. The language of Sydney Smith, when speaking of the Prisons in Great Britain, in 1821, is not inapplicable to ours.

"There are," said he, "in every county in England large Public Schools—maintained at the expense of the county—for the encouragement of profligacy and vice, and for providing a proper succession of housebreakers, profligates, and thieves. They are schools, too, conducted without the smallest degree of partiality or favor, there being no man, however mean his birth or obscure his situation, who may not easily procure admission to them. The moment any young person evinces the slightest propensity for these pursuits, he is provided with food, clothing, and lodging, and put to his studies, under the most accomplished thieves and cut-throats the country can supply."

Unless something is done speedily to provide for the accommodation of this army of convicts, the Executive may be compelled to pardon some of them, with a view to their transportation beyond the State. The law of self-preservation may compel me to throw them upon other communities.

The immediate purchase of a site for a Branch Prison, and the commencement of the work, should no longer be delayed.* In my deliberate opinion, more than one-half of those now confined will return again to the prison if they remain in the State, and eight out of ten of those now being discharged will come out worse men than they were when they entered. Your attention, therefore, is most earnestly invoked to this subject.

SCHOOLS OF REFORM.—The attention of the Legislature has frequently been called to the necessity of providing some suitable place for juvenile offenders, and at the last session an Act was passed for the establishment of an "Industrial School" in the County of San Francisco. This is, however, a local institution, and only provides for that county. If it proves successful, (as, no doubt, will be the case,) arrangements should be made for extending its benefits to the other counties of the State. If the consent of the Directors could be obtained, a small appropriation from the State Treasury, annually, would effect this desirable object—at least until the finances would justify us in establishing a State institution.

As it is understood that the buildings for this school are about being erected, I would suggest the propriety of authorizing the State-Prison Directors to furnish the necessary brick and stone, to be reimbursed hereafter by the support of juvenile offenders from other counties of the State.

Although, of course, a larger number of these reckless and wayward youth are congregated in San Francisco than elsewhere within our borders, yet, unfortunately, they are to be found in almost every section of the State. Many of them are here without parents or guardians to control them, and unless some provision is made to reform them, the probability is, that as soon as they are legally liable they will be incarcerated in the State-Prison. In several of our sister States, institutions of this character have been established, and much good has been effected. Indeed, many of them have been pre-eminently successful. Seventeen Houses of

*The State-Prison Directors will explain why a site was not purchased under the Act of the last Legislature.

Reform, established between 1825 and 1856, had received 20,658 of these juvenile offenders. Of this number, 16,847 were boys, and 3,811 girls. The average of reform is set down at *seventy-five per cent.* By turning to the books of our Prison, it is found that 300 persons have been incarcerated, under the age of 21 years, since the establishment of the Prison. I have no means of ascertaining the number of this class confined in the County-Jails and City-Prisons, but there can not be a doubt that it is equal to the number sent to the State-Prison, making some six hundred. These statements ought to be sufficient to direct the serious attention of the Legislature to this subject. Of the 218 minors discharged from the State-Prison, it is exceedingly doubtful whether one-tenth of them have reformed and become useful members of society. The chances are, that they came out confirmed villains; indeed, there are many of them confined for the second (and there are cases of the third) offence.

In view of this state of things, it seems to me that no minor should be sent to the State-Prison for the first offence. He can receive more care, attention, and instruction, in the County-Jail, and be kept from an association with old offenders who would ruin him. He may be reformed in the County Jail, but in the State-Prison the chances are ten to one against him.

PARDONING POWER.

The Governor is charged with no duty more delicate, more embarrassing, or more painful, than that of deciding upon petitions for pardon. These petitions are oftentimes numerous signed by respectable citizens, and occasionally pressed by the streaming tears of broken-hearted kindred. To resist such appeals requires a strength and steadiness of nerve approximating stoicism, and a deafness to the cries of the afflicted which resembles indifference to human woe. The friends, and often relatives, of unfortunate convicts, have, during the past year, implored Executive clemency in no less than twenty cases where a sense of public duty compelled me to turn a deaf ear. If I had allowed sympathy to have controlled my actions, a great many now in prison would be at large. Applications were made to commute punishment from death to imprisonment, in four different cases. The Supreme Court having decided that this power is vested in the Governor by the Constitution, the record in each case was carefully examined, and, although it pained me much to refuse to save the life of a fellow-being, I could not obtain the consent of my judgment to grant the commutation. The law makes murder in the first degree a capital offence, and where the testimony and all the facts leave no doubt on my mind that that crime has been committed, I can not interpose. With the wisdom of the law I have nothing to do—it is simply my duty to see that it is executed.

In some cases, pardons were granted where I was induced to believe that the prisoner had been sufficiently punished, and in two instances, at least, I regret to say that I was deceived. During the early years of our State, in consequence of the increasing and alarming number of crimes being perpetrated, Courts and juries, under the very natural excitement produced by such a state of things, sentenced prisoners for very long terms—frequently, ten years for a single act of grand larceny. Sound policy, in my judgment, demands that for the first offence, in a felony of this character, five years should be the maximum punishment. If one of the leading objects of punishment be to reform the criminal, (and this should be, with all enlightened legislators,) this can not be obtained by

long sentences. Where there is any hope of a reformation, the imprisonment should never exceed the period I have suggested.

As an inducement to obey the rules of the Prison, and lead honest lives after their discharge, I have adopted the policy of restoring them to citizenship, where evidence was given of good conduct and a disposition to reform. I have the most satisfactory assurance that this has had a salutary effect, at least upon the conduct of the prisoners. In exercising the pardoning power, I have been at all times governed by what I considered the public good;—the record in each case, closely examined, and the facts, rather than the character or number of the petitioners, decided it. In discharging this duty, I have neither stopped to count the number or consult public sentiment. The approval of my own conscience is sufficient when in the discharge of a delicate duty of this character.

The list of pardons which the Constitution requires the Executive to send to the Legislature at the commencement of the session, is herewith transmitted. As this power is given to the Governor, in the most unqualified terms, the Legislature can not pass a law requiring him to assign his reasons, in each particular case, for exercising it. This course has been adopted by me, however, and will be pursued in the future. A "pardon docket" has been prepared, in which are recorded the grounds relied upon, as stated in the petition, the names of the signers who are known to the Governor, and briefly the reasons for granting or rejecting the prayer. The publication of this, will, at all events, show the people (who have morally, if not constitutionally, a right to know) the grounds upon which the power was exercised. As my predecessor omitted sending a list of pardons granted during his administration, the Secretary of State was directed to make one out from the records of his office, which is also herewith transmitted.*

In most of the States, this power, which is so liable to be abused, is guarded by constitutional provisions. In Virginia, Delaware, Maryland, Ohio, Michigan, and Wisconsin, the Governor is required to give to the Legislature his reasons for its exercise. In Maine, New Hampshire, Vermont, Massachusetts, and Connecticut, the power is vested absolutely in the Governor and Council. In New Jersey, in the Governor and the six Judges of the Court of Errors. In Indiana, it is placed in the hands of the Governor; but the General Assembly may organize a Council, in which it can be vested. In the other States, it is given in general terms to the Executive alone. In Kentucky, however, although it is given to the Governor, in cases of conviction for dueling the power is suspended until the lapse of five years after the crime was committed. There are provisions in the Constitutions of several of the States, that, in case of murder, the Governor can only reprieve until the Legislature is in session.

CIVIL FUND.

All of my predecessors have, in their Annual Messages, called the attention of the Legislature to our claims against the Federal Government, on account of revenue collected from our people, prior to admission into the Union. I refer to this subject, because silence might be construed into an abandonment of this just and meritorious demand.

The amount of this fund collected, whilst we were wholly unrepresented in the Federal Government, according to the statement of my immediate

* A list is also sent of those who were pardoned by Gov. Bigler, but omitted in his report

predecessor, amounts to \$2,968,748 40; from this, deduct amount paid out for expenses of Constitutional Convention and relief of emigrants, (\$262, 286 27,) leaving a balance of \$2,706,512 13.

Joint Resolutions have been repeatedly passed, instructing our Senators and requesting our Representatives to urge the payment; and efforts have been made, time and again, to obtain it. Thus far, we have been unsuccessful, but it is hoped that Congress will no longer delay the liquidation of so equitable a demand.

If this fund had been turned over, as it should have been, upon the organization of our State Government, and we had been more fortunate in the selection of public agents, our finances would never have been embarrassed. Instead of being compelled (as was the case in 1850) to borrow \$300,000, at 36 per cent. per annum, the machinery of our Government could have been set in motion, and all expenses promptly paid until we had ample time to digest a revenue system, and provide for the future. A failure to receive this fund, extravagance, and corruption in some public agents, have thrown upon us, at the end of eight years, a debt, as has already been shown, of more than four millions of dollars.

INDIANS.

The Act of Congress of 1852, authorizing the President to select five Military Reservations, in or near this State, upon which the Indians could be placed, met with considerable opposition amongst our citizens. Two of my predecessors, in their Annual Messages, called the attention of the Legislature to this subject, and strongly remonstrated against the policy. Having, in a different position, taken an active part in the inauguration of this system, I deem it proper to submit a few observations in regard to it.

The settled policy of the Federal Government, for many years, had been to remove the Indians from the States where they were found, to the immense region, then unoccupied, west of the Mississippi. This policy in a few years transferred most of this population beyond the white settlements, and placed them where they could follow their accustomed occupations (hunting, fishing, and fighting) unmolested. But such has been the rapid growth of our country, that territory, which little more than a quarter of a century ago was the extreme frontier of civilization, is now the centre of the Republic. The civilized man has crowded into the hunting-grounds of the Indians, demolished their wigwams, and built up cities and towns in their stead. The game was driven still further to the West, and they were compelled to follow, or be crushed by the onward march of the white man. In 1848, we acquired an immense territory on the Pacific, and the discovery of gold produced a flood of emigration to our shores, scarcely paralleled in the history of our race. Here we found (in California alone) some 75,000 Indians, scattered over the territory in every direction, and the work commenced of pushing them back towards the East. For them there was no longer a West. In the meanwhile, Kansas, Nebraska, Utah, and New Mexico, are being peopled, and between these two great armies of civilization it required no prophet to foresee that destruction was inevitable. To soften the blow, to prolong as much as possible their existence, and, as far as in our power, alleviate the sufferings brought upon them by the resistless march of civilization, were demanded by every principle of honor and humanity. In this condition of things, it was believed, by those who represented the State and the people of California, in Congress, that in a vast territory like ours,

covering 189,000 square miles, and extending ten degrees of latitude on the coast, that Reservations might be made, to which the Indians could be transferred, where, under the fostering care of the Federal Government, and the protection of a military force, they could be made comparatively comfortable and happy. It was supposed that upon these Reservations the young could be taught the art of agriculture, and their minds disabused of the opinion (common to all savage races) that labor is dishonorable. That, seeing the advantages which it secured to the white man, they would eventually abandon their wandering and predatory habits. Reservations were accordingly made, implements of agriculture obtained, large quantities of stock purchased, and extensive fields opened. It was confidently predicted, by the friends of this system, that in three or four years the labor of the Indians would be sufficient to support them. In this we have been much mistaken, although liberal appropriations have been made from time to time by the Federal Government. I do not say that no good whatever has been accomplished, so far as protecting the Indians is concerned, but the benefits are sadly disproportioned to the expenditures. For the pay of officers, employees, traveling expenses, etc., there were appropriated, in the years—

1853	\$250,000
1854	225,000
1855	358,150
1856	202,000
1857	179,000
1858	252,000
	\$1,446,150

making near a million and a half of dollars expended in six years upon them. From the most reliable information I can obtain, there are not, upon all these Reservations, more than three or four thousand Indians, and upon the one which gave greatest promise of usefulness, (Sebastian,) there are not more than two or three hundred.

Previous to the year 1853, the Federal Government had expended one hundred and eighty-one thousand seven hundred and fifty dollars, and its agents had contracted debts for the support of the Indians to the amount of some eight hundred thousand dollars. Of this debt, about two hundred and twenty-five thousand dollars have been paid. If you take our Indian War Debt, assumed and paid, (\$924,259,) and add to this our outstanding War-Bonds, amounting to \$245,874, which must be ultimately paid by the Federal Government—you have an expenditure on account of our Indians of, in round numbers, three millions of dollars.

But in this calculation I have not attempted to compute the enormous expenses incurred in keeping Federal troops in our State to protect us from them.

I fear that it will be found very difficult, if not impossible, to adopt any plan which will prolong the existence of the Indian tribes in California for any considerable period. They are fast fading away, particularly those who are located in the vicinity of our towns and settlements. The vices of the white men, which they readily adopt, will soon remove them from amongst us. The trees from which they obtained their food destroyed, the fish driven from the streams where they were once found in abundance, starvation will carry off thousands, whilst many will fall vic-

times to the barbarity of bad men of our own race. That which we complain of in savages, we too often practice ourselves. When a citizen is killed by an Indian, no matter what the provocation may have been, pursuit is at once made, and the first of his tribe who may be caught—be he high or low—is lawlessly butchered. Instead of hunting up the guilty, the innocent and harmless are thus oftentimes sacrificed.

AGRICULTURE AND MINING.

The Legislature has annually appropriated five thousand dollars (\$5000) towards defraying the expenses of the State Agricultural Society, incorporated in 1851, and the money has, as it is believed, been usefully expended. I regret, however, to say that the Recording Secretary has failed to report to me, as required by law. The whole amount expended during the year, by the Society, was \$28,131, as I am informed. This interest is increasing in importance, and vast quantities of the rich and fertile lands in our valleys are being rapidly reduced to cultivation. The difficulties which existed in consequence of the unsettled condition of land-titles, are being removed, and a large amount of public land is advertised for sale next month. In the meantime, substantial farm-houses and orchards, with the fruits of the North and South, are springing up as if by magic, in every direction. The meeting at Marysville the past year was well attended, and the exhibition of stock and agricultural products would have reflected credit upon much older States. The spirit of rivalry has been gotten up amongst the farmers, which is doing much towards the improvement of stock, and developing our immense agricultural resources.

In the cultivation of the grape and the manufacture of wine, we already stand foremost amongst our brethren. This interest has increased one hundred and fifty per cent. in two years. The number of vines in 1858 is 3,954,548—nearly 4,000,000. Of this number, one-third is found in a single county—Los Angeles. The average yield of each vine is estimated at fourteen pounds. The quantity of wine manufactured during the year is 385,000 gallons, and of brandies 10,000, making an aggregate of nearly 400,000 gallons. An examination of the Federal Census of 1850 will show that this is nearly double the amount manufactured that year in the entire Union.

The grape is now cultivated in every portion of the State—in our mountains and in our valleys—and it can scarcely be doubted that in 1860 we will manufacture 1,000,000 gallons. It will thus be perceived that the exportation of wines and brandies will soon become of great importance, and contribute much to the prosperity of the State. The products of the vine (including grapes and raisins) now imported into the United States, may safely be set down at nearly seven (adulteration to thirty-five) millions dollars in value.

The soil and climate of California have been found admirably adapted to the rearing of sheep, and a great deal of attention is being directed to this subject. Large flocks have been brought into this State during the past year, and our wool has already found its way into the Eastern market, and attracted the attention of the manufacturer. We exported, during the past year, 1,351,671 pounds, valued at \$189,634, in this market. In my opinion, the time has arrived when coarse woolens can be profitably manufactured here, and it is matter of surprise that capitalists do not engage in it. We are sending millions of dollars abroad, to purchase necessities which ought to be raised or manufactured at home. It is true, our mines yield

abundantly, but a large portion of gold is sent abroad to seek investment, or pay for our food and clothing. Besides, there are many persons here extensively engaged in business, who regularly remit their earnings to the East to support their families. How many thousands there are now in the Atlantic States, who are supported directly by the wealth which is extracted from our soil. In the early settlement of the State, this was to be expected, as we had but few of the comforts of life to induce families to come amongst us. Besides, the cost of getting here, and expenses of living, were then enormous. Now, the opening of different routes from the East, by land and water, has reduced the expenses of traveling, whilst the cost of living is much diminished. We have, too, our well-built cities and towns; our beautifully cultivated fields, orchards, and gardens; our happy homes; our churches and colleges; our seminaries and schools; our ministers and teachers; our libraries and literary associations; our magazines and newspapers, religious, scientific, agricultural, literary, and political; our railroads and telegraphs; our ships, steamboats, and stages; and there is no longer any reason why so many of our citizens should support their families and educate their children in the East. It is not an over-estimate, if we put the amount thus annually sent out of the State, at ten millions of dollars. In addition to this, a very large amount is sent abroad for investment, in consequence of the hitherto unsettled condition of land-titles. These are serious difficulties which now lay in our path to prosperity, and, until removed, we can scarcely hope to make very rapid progress.

Returning again to the agricultural interest, the statistics show that the number of sheep now in the State is not less than 650,000: being more than double the number we had in 1856. The increase in horses during that period is 43,000, and in cattle, 120,000. The exports of hides during the past year, amounted to \$516,712. The quantity of land cultivated in 1856, was 511,968 acres; in 1858, 756,734—being an increase of 244,771 acres. This is exclusive of land fenced in for grazing purposes. The crop of wheat, for the year 1858, is set down at 3,568,669 bushels; and that of barley, at 5,382,717. This is 218,798 more bushels of barley than the amount raised in the whole Union in 1850, according to the census.

The Supreme Court having pronounced the Act of March 26th, 1856, entitled "An Act for the Protection of Actual Settlers, and to quiet Land-Titles in this State," unconstitutional, it is, therefore, a dead letter. It is important that some provision should be made to protect the Settler, who has gone upon what was generally supposed to be public land, and bestowed his labor in improving it. The Surveyor-General of the United States, acting, no doubt, under instructions from Washington, in establishing the boundaries of some floating grants, has converted into private, what was heretofore regarded as public land. In some instances, Settlers, desiring to locate upon the public domain, and anxious to make improvements thereon, have gone to the grantees, and ascertained from them their boundaries. Relying upon the information thus obtained, they have opened farms, planted orchards, and made valuable improvements, outside, as they supposed, of the grant; but which, by allowing the grantee to change his boundaries, is now found covered by it. In all these cases the whole constitutional power of the State should be exercised to protect the Settler. To permit the holders of these floating grants to change their lines, so as to appropriate the labor of others to their use, is the rankest injustice, and ought not to be tolerated.

The mining interest is rapidly increasing in importance in almost every

section of the State. We have not only gold and silver, but copper and iron, sulphate of iron, magnetic iron, platinum, chromium, gypsum, nickel, antimony, bismuth, sulphur, and cinnabar. We are exporting large quantities of the latter mineral. We have also coal, salt, saltpetre, borax, marble, granite, alabaster, buhr stone, and lime. I may be indulged in giving some statistics obtained from an invaluable work (California Register) recently published by Messrs. Langley & Morrison.*

The prosperity of the gold mining may be found in the vast increase in the number of mills and ditches. There are now five thousand seven hundred and twenty-six miles of artificial water-courses constructed for mining purposes, at an expense of thirteen and a half millions of dollars; and this will be very much extended during the present year, as there are thousands of acres of rich mineral lands undeveloped for want of water. These ditches are mainly constructed by the miners, and are still owned by them—very few having as yet fallen into the hands of capitalists.

The quartz-mining has become more permanent, and has increased in importance during the past year. The improvements in machinery, which are constantly being made, will soon place this interest amongst the first in the State. In April, 1857, the number of mills is stated at 138, with an aggregate of 1521 stamps. The cost of erection \$1,763,000. On the first of November, 1858, the number of mills in operation was 279, with an aggregate of 2610 stamps. The cost of machinery is estimated at \$3,275,000. In addition to this, there are 519 arastras, some of which are connected with the quartz-mills.

To prove the extraordinary richness of the quartz in some localities, it is stated on reliable authority, that from sixty-three tons, taken from a vein in Nevada County, \$22,000 were obtained.

GRIST-MILLS.—The number in the State is 135, with a run of stone 297. The aggregate capacity of these mills is 2,466,880 barrels per annum. The cost of erection a fraction less than \$3,000,000.

LUMBER AND SAW-MILLS.—The number of these mills is 388, costing \$2,500,000, with an aggregate capacity of 500,000,000 feet per annum.

GRAINS.—Experience has amply established the fact, that in grain, (especially small grain,) no lands in the United States will produce more abundantly than ours. Indeed, we might challenge the world to an exhibition of agricultural products. In some localities, the past season was unfavorable to crops, and yet the yield will bear a comparison with other States.†

COMMERCE—WHALE FISHERIES.

For more than half a century our whaling-fleets have been accustomed to refit at the Sandwich Islands—although, during that period, the harbors of California were known to be the best in the world. The reason for this may be found in the fact, that during that time the people of this coast had but very limited commercial relations with our Atlantic possessions. Distant from the centre of Government, its advantages scarcely known, California was commercially regarded as a *terra incognita*.

* My thanks are due to these gentlemen for advance sheets.

† Tables have been prepared, showing the agricultural productions of the State, but the length of the Message induced the Governor to withhold them.

But its acquisition and settlement by our people soon attracted the attention of the commercial world to the importance of our harbors. Immediately after, followed the discovery of gold, and immense fleets visited our shores, the crews of which, excited by the richness of our mines, soon left them unmanned. The frequency of desertion at that time prevented whalers from visiting our ports, as it was a matter of uncertainty whether they could obtain sufficient crew to take them out again. This fact, united with the then high cost of supplies, port-charges, the want of facilities for repairs, and exposure to vexatious law-suits, induced this immense interest to rendezvous at the Sandwich Islands. Some of the difficulties which existed a few years ago have been removed, to a great extent, by time and legislation, and at the present moment our ports offer greater inducements, as the depot of the whaling-fleets, than the Island ports of the Pacific. The pilotage has been reduced to a mere nominal sum—one dollar per foot on draught of water. Our coast is studded with light-houses, and the dry-dock at Mare Island presents, at a price but little higher than in the Atlantic States, the best facilities for repairs; while seamen can always be found to ship at rates differing but little from those obtaining elsewhere. In San Francisco, supplies of every description necessary for a whaling-voyage, can be obtained at rates far lower than in the Sandwich Islands. The apprehension that sailors may desert is now more imaginary than real. It is a notorious fact, that in the port of San Francisco sufficient numbers of seamen can be obtained for any voyage. Within the past few years, no vessel has experienced serious difficulty in leaving that harbor, for want of a sufficient crew. It is quite probable that heretofore difficulties have been thrown in the way of ship-masters, and temptation presented to seamen to desert, but these causes have been partially removed, and, by the creation of a tribunal similar to that existing in New York, may be wholly obviated. This may be accomplished by devolving the duties of Marine Judge upon some Justice of the Peace, in conformity with the Act of Congress of twentieth July, 1790. To effect this object, an Act should be passed, authorizing the people of San Francisco to vote for one Justice of the Peace, who should be styled Judge of the Marine Court, and for the services he would be required to perform in this capacity, he should receive a reasonable compensation from the State.

Inasmuch as the whalemén are not entitled to the privilege of entering the United States Marine Hospital, the City of San Francisco might permit the sick or disabled seaman admission into the County Hospital, at a tariff so low as merely to cover the cost of his maintenance. It can scarcely be believed that, looking to the interests of the city, they would be unwilling to do this.

The advantage of obtaining this immense trade must be apparent to all, when it is remembered that six hundred and fifty vessels, of the largest class, manned by over eighteen thousand seamen, and representing a capital of more than twenty millions of dollars, are engaged therein. Every class of the community is deeply interested in making San Francisco the depot of this immense fleet.

If whalers are fitted out in that port, the lessening of the voyage, caused by our proximity to the whaling-grounds, and to the fact that our market offers a good point for the disposal of the oil, or for its shipment eastward by returning clippers, at low freights, would materially lessen the inducements to desertion, as no doublings of the Cape would be required of the whalemén. San Francisco is the most favorable point for receiving orders from owners, and for negotiating exchange, and I shall

be much disappointed if, ere long, its advantages for this trade are not fully appreciated.

The recent treaties made between the United States and the Chinese and Japanese Empires, must have a powerful influence in sending the blessings of civilization into immense regions, where for centuries Paganism and Superstition have held undisputed sway. The opening of some of the principal ports of a country swarming with a population of four hundred millions, must increase our commerce, and add immensely to the trade of the Pacific. Give us a Railroad across the continent, a line of steamers from our shores to Asia, and, ere the present century closes, there will be more commerce floating on the Pacific Ocean than upon the Atlantic. California will then stand amongst the richest and most powerful States of the Union, and America will command the commerce of the world.

We have cause to rejoice that an immense Empire is at last subjected to the jurisdiction of the law of nations, and we can not doubt that the great maritime powers with whom these treaties have been made, will see that they are observed. With Western Europe and America on the one side, and Russia on the other, each striving for the control of Asiatic commerce, it is quite probable that the car of civilization may travel more rapidly than the poor, benighted Chinese and Japanese can bear, and millions may be crushed in its onward course. It may require ages to civilize and Christianize the debased Asiatics, but, in the Providence of God, it will be accomplished, and the field where the Fishermen of Galilee labored, will again be filled with the teachers of the holy religion of our Saviour.

WAGON-ROADS—OVERLAND MAIL.

The appropriation of five hundred and fifty thousand dollars by the Federal Government, in 1857, to the construction of roads through Utah and New Mexico, in this direction, and the prompt establishment of Mail-routes over them, have given great satisfaction to our people. It has already done much towards destroying that feeling of isolation which in past years sometimes came over us, and chilled that fraternal affection which ought to exist among members of the same family. Californians can now revisit their former homes without passing through foreign and inhospitable climates, and encountering the dangers of boisterous oceans. The rivalry which has been gotten up between the different routes will soon remove the difficulties which now obstruct the regularity of travel. Indeed, the only serious obstacle will be found in the Indians who infest the region over which these roads pass, and we must look to the Federal Government to remove this. The establishment of a few strong posts, or the marching of a well-appointed command occasionally over them, would give security until the settlements became sufficiently strong and numerous to protect themselves. I do not doubt that marching the Sixth Infantry of the U. S. Army through the Territory of Utah, during the past summer, to our State, will exercise a beneficial influence upon these savages, and do much towards securing their future good conduct. A march of a full regiment of infantry through an almost unbroken wilderness, for a distance of more than two thousand miles, is a feat of which Americans may well feel proud.

But, after all, the wants of the Republic begin to demand, in a voice too significant to be disregarded, the construction of a Railroad. If private enterprise is properly aided by advances from the Federal Treasu-

ry, it can not be doubted that this, the great work of the age, will ere long be accomplished. Our present able and patriotic Chief Magistrate has again directed the attention of Congress to this subject, and warmly recommended speedy action. We have the strongest assurances that a bill will pass at the present session. The Federal Government is now paying, for the transportation of troops, supplies, etc., for the army and navy, and for carrying mails, more than five per cent. per annum on the estimated cost of the road.

The political influence of these Roads and Overland Mails must soon be felt in every portion of the Republic. By bringing the people of the respective States in closer contact with each other, the prejudices which distance and separation so frequently generate, will give way, and we will fully appreciate the fact that we are all one family, jointly interested in perpetuating that noble Constitution which has given us a high and honorable position amongst the nations of the earth. Forgetting whether Providence cast our lots in the North or in the South, we can all kneel at the same altar, and with sincere hearts pledge the energies of our souls to the maintenance of the Union. May we not hope that the violence of party contests will abate, and that a true fraternal feeling will be cultivated amongst the sovereigns now composing the Republic. California, although amongst the youngest of them, will act wisely in avoiding the discussion of those questions which are now, unfortunately, distracting other communities; and, by directing all her efforts to the development of our agricultural, mineral, and commercial resources, place herself amongst the brightest stars in the Federal Galaxy. Still firmly adhering to the compromises of the Constitution, let us leave other communities to discuss slavery in the Territories, whilst we are devising ways and means to elevate the social, moral, and political character of our own people. In this work we can find full employment for our minds and bodies. Whilst, as Americans, we are ready to stand by the Federal Government, and protect it, if necessary, with our lives, from all assaults, foreign or domestic, let us remember that, as Californians, we have a duty to perform at home. Institutions are to be founded here, upon the Pacific, which must forever stand as monuments of our wisdom or of our folly. Although now in the tenth year since our organization, much still remains to be done, in order to give us that proud name amongst our sister States to which our position and resources entitle us.

The emigration from Europe to America is immense, and yet but a small portion of it reaches the shores of the Pacific. A great many, no doubt, leave their native land with a view to unite their destinies with ours, but upon their arrival in the principal port, New York, are persuaded to make their homes in the Atlantic States. Railroad companies and land speculators have their agents to look after these emigrants, and induce them to locate in Kansas, Nebraska, or some of the adjacent States. This improves the value of stock in the railroad and land companies, but seriously affects us. It can not be questioned that a large number are thus diverted from this direction. This can not be remedied in any other way than by securing a direct communication between some of the European ports and our own harbors. This may be effected by private enterprise, but it is a serious question whether sound policy would not require that the State should aid in its accomplishment. Under the Constitution, the Legislature is prohibited from loaning the credit of the State to any company or association, but, if it is thought desirable, an amendment, to cover this particular case, might be submitted to the people for their approval or rejection.

A large number of these emigrants are agriculturists, from the South of Europe, and their labor would be of immense value to us in developing our resources. Many of them are from the grape-growing sections of Europe, and here they would find a rich field for their industry.

My principal object, however, in alluding to this subject, is that public attention may be directed to it.

EXECUTION OF THE LAW.

It is made my duty, by the Constitution, "to see that the law is faithfully executed." I deeply regret to say, that during the past year I have in several instances been compelled to know that it was shamefully violated. Since the adjournment of the last Legislature I have learned, through the public press, (not a single case having been reported to me officially,) that some seven or eight persons, in different sections of the State, have been executed in violation of the law. It was hoped that the feverish excitement produced by the loose manner in which the criminal laws were administered, some years since, had passed away, and that Californians had become a law-abiding people. Now that these abuses have been corrected, we had a right to expect that the law would be allowed to take its course, and no one executed until his guilt was fully established in the judicial tribunals. There can be no security for either person or property, where such outrages are tolerated. In the wild excitement produced by the commission of an atrocious crime, men seem to forget that the only safety is in the maintenance of the law. So far as my observation extends, they are honestly administered in our Criminal Courts, and these summary executions are therefore without any palliating circumstances. The Executive has already, perhaps, all the power which under our form of Government can safely be intrusted to him, and the evil can only be corrected when an enlightened public opinion shall demonstrate to all the necessity of standing by the laws, and seeing that they are respected. The Governor is powerless, when the County officers, Courts, and juries, neglect or refuse to discharge their duty. It is true, that these acts were perpetrated by a few excited and reckless men, but it is clearly the duty of all good citizens to aid in bringing them to justice.

The frequent recurrence of these executions, and the total failure of Courts or juries to prosecute, is calculated to retard the settlement of the State, and turn the tide of emigration in a different direction. Men will not like to bring their families into a community where their lives and property are at the mercy of an infuriated populace. These lawless acts are doing incalculable injury to us abroad, because they make the impression that the bad men outnumber the good, or else that the Criminal Courts utterly fail to perform their duty. It would be humiliating to be compelled to admit the truth of either. Good citizens should hunt up the testimony, and see that indictments are presented against these men, who are striking at the vitals of society. When bad men unite to take the law into their own hands, to avenge their wrongs, whether real or imaginary, good citizens must combine to bring them to punishment, or else there is an end to all Government. Indeed, if these unlawful executions are not arrested, our noble State, with all her wealth and inexhaustible resources, will soon stand disgraced before the civilized world.

PROPOSITION.

The Ladies of America, with commendable patriotism, have succeeded in purchasing that portion of the Mount Vernon estate which contains the remains of the illustrious Washington, and the buildings which he once occupied. In the meanwhile, the sterner sex have allowed the work on the Monument (which was commenced at Washington City many years since,) to stop, and during the past three years not a foot has been added to its height. It is due to the character of the age in which we live, that this great national work should be completed, and, as individual subscriptions have failed, I suggest the propriety of passing a Joint Resolution, proposing to our sister States the plan of an appropriation by each, in proportion to population, to finish it. Let the people of America, through their respective State Governments, erect this noble shaft to the memory of that man who has been justly called "The Father of his Country." The Federal Government might be represented in this patriotic work, by placing the general direction of it under the control of the President and his Cabinet, with power to appoint a Superintendent, and such other officers as might be found necessary.

As the number who can work on the shaft is very limited, it will necessarily take many years to complete it, and the annual tax on each State would never be felt. I am sure that the citizens of California will not hesitate to contribute their share.

It is believed that the disease which proved fatal to President Taylor, on the 9th of July, 1850, was brought on by exposure to the extreme heat on the 4th of that month, whilst, with others, commemorating the Anniversary of Independence, at the base of this monument; and when his lamp of life was flickering in its socket, the wandering mind of this brave and patriotic man fixed for a moment on the interesting scene in which he had been an actor, but a few days before, and he exclaimed, as if with his dying breath, "*Let it rise—let it ascend without interruption—let it point to the skies—let it stand forever, as a lasting monument of the gratitude and affection of a free people to the Father of his Country!*"

Gentlemen of the Senate and Assembly :—I have, it is feared, imperfectly discharged the duty enjoined upon me, as the Executive of the State; but, as you come directly from the people, it is not doubted that you fully understand their wants and wishes. Two subjects of public importance have been omitted, because of the extreme length of this communication, and for the reason that I am not now in possession of the information necessary to enable me to address you—I allude to *public lands* and our *Indian difficulties* during the past year. These, together with other matters, will be made the subjects of a Special Message hereafter.

Invoking the blessings of the Giver of all Good upon your labors, and trusting that your session will be short, and profitable to the State,

I am, with the highest consideration,

Your obedient servant,

JOHN B. WELLER.

LIST OF PARDONS,

Granted by Governor Weller, for the year one thousand eight hundred and fifty-eight.

Date of Application.	Name of Convict.	Crime.	Co. from whence sent.	Sentence.	Grounds on which the Petition is based.	Names of Petitioners known to Governor.
May 28, '57...	G. Raffo	Rape	San Joaquin ...	10 years ...	The excited state of the public mind operated, together with false testimony, to procure his conviction, and being satisfied, from what we know of the facts attending the case, as well as subsequent developments concerning the parties prosecuting, beg most earnestly for Executive clemency in his behalf.	Alonso Rhodes, Amos W. Gove, A. P. Horton, H. T. Compton, Gray and Hickman, H. T. Huggins, C. B. Hall, F. E. Corcoran, G. A. Shurtleff, E. B. Bateman, R. Baker, A. McPherson, Jno. R. Hobbs, Jno. M. Neal, T. S. Strout, J. G. Jenkins, Geo. D. White, Chas. C. Kimball, and 168 others, among whom were the County Judge, before whom the convict was tried, and the District-Attorney who prosecuted the case.
	DECISION.—January 20.—The County Judge before whom the case was tried, is not satisfied of his guilt, and the District-Attorney, who prosecuted the case, says: "I now think he was not guilty, and ought to have been acquitted;" also, a very large number of the most respectable citizens of Stockton have, in their memorial, expressed the same opinion; and, after a careful examination of all the papers, I have come to the conclusion that the prosecution was gotten up to extort money, etc.					
Date.	Name.	Crime.	County.	Sentence.		
April, '57	Hiram Durham	Having in his possession counterfeit money.	Calaveras	10 years ...	A very old man, and in feeble health; has been in prison nearly five years. Character before the commission, was good, and his conduct, while in prison, was also good.	John F. McCauley, E. H. Pomeroy, Wm. Hicks, J. A. Reynolds, Amos D. Moore, C. Wesley Robinson, and 21 others, officers and guards, including the Physician of the State-Prison, who represents that his health is almost entirely destroyed, and there is scarcely a hope of his recovery.
	DECISION.—February 2.—This man has been imprisoned nearly five years. I have evidence of his good character previous to the commission of this crime, and of his good conduct whilst in prison. The Physician, and other officers of the Prison, represent that he is an old man, and that his health is entirely destroyed, and there is scarcely a hope of his recovery. He has already been punished sufficiently.

March, '68 ...	F. Whitebread	Burglary	Butte	2 years	That he was induced into the commission of the act through the persuasion of an old offender. The burglary consisted in lifting the window of an office of a Justice of the Peace, and disarranging some papers. Nothing was stolen. His parents reside in the State, and are anxious to have him released, in order that he may be sent to his kindred in Pennsylvania.	H. Gaston, Thomas Wells, D. W. Cheeseman, L. Granger, J. W. Burt, W. H. Farley, C. H. Hedges, W. S. Sadford, F. H. Harris, District-Attorney; A. D. Plum, Sheriff of Butte County; S. E. Hedges, Thos. F. Miller, G. H. Stephens, John F. Kimmel, Wm. J. Burnside, James Harlow, Geo. D. French, Wm. Lattimore, and 31 others.
	DECISION.—February 19.—The District-Attorney who prosecuted him, says, "that he knows that the prisoner was led into the commission of the technical offence by the persuasion and deception of one who was in the employ of the police of Oroville, and that hitherto he had been a peaceable and law-abiding citizen. In this, the Justice of the Peace, whose office was entered, and a large number of the most respectable citizens, including the present District-Attorney, Sheriff, and other County officers, concur. His parents reside in the State, and are anxious to have him released, in order that he may be sent to his kindred in Pennsylvania, with the hope of reforming him. Let a pardon be issued, upon the express condition that he leave the State within twenty days from this date, and never return. That a violation of this condition shall operate as a forfeiture of all the rights and immunities conferred by these presents. This condition was afterwards annulled, in consequence of his severe illness.					
Date.	Name.	Crime.	County.	Sentence.		
February, '68.	Maurice Sudor.....	Manlaughter	Butte	1 year	The proof, on the trial, was not such as to establish the guilt of the defendant beyond doubt, and therefore the jury tried him unanimously recommended him to the mercy of the Court. The patient to whom the dose was accidentally administered, was very dangerously ill, and the testimony of her attendant physician clearly established the fact that the probability of her death from the disease with which she was afflicted, was great and extreme; and, furthermore, that there was a question as to whether her demise was entirely owing to the poison accidentally administered. The circumstances attending the emanation of the patient's death do not exhibit moral guilt on the part of Sudor, but at most a misfortune.	Patrick H. Harris, District-Attorney; J. M. Burt, W. H. Rhodes, Ph. Waterman, J. W. Kellyson, J. S. Henning, A. D. Plum, Sheriff; W. H. Hobart, Thomas Wells, County Judge; M. H. Danach, J. D. Mott, and 65 others.
	DECISION.—March 9.—In this case, a majority of the most respectable citizens of Oroville have applied for a pardon, upon the grounds that it is doubtful whether the woman died from the effect of the poison—no <i>post mortem</i> examination having been made. It is quite certain that it was a mere mistake of a druggist's clerk in mixing medicine, involving no moral guilt. The jury unanimously recommended him to mercy. Let a pardon issue.

August, '57...	Charles C. Taylor ...	Assault with intent to commit murder.	Los Angeles....	1 year	The general good character of the defendant during two years in which he has lived amongst us. The facts from the evidence, that the defendant was out of his senses, from intoxication, at the time of the offence, and had been in the same condition for some time previous to the altercation at the ball, and the absence of evidence as to a previous bitterness between the parties, precluding the idea of an inception of malice in the defendant, in a state of sobriety. The absence of proof, that after the difficulty at the ball, and the mutual provocation then given, the defendant proceeded to provide himself with the weapon with which the offence was committed.	W. G. Dryden, Presiding Judge of Court of Sessions; J. S. Mallard, Associate Justice of Court of Sessions; R. Sackett, Associate Justice of Court of Sessions; Cameron E. Thom, District-Attorney; Elijah Bates, Sheriff; T. J. Carpenter, John G. Nichols, Mayor of Los Angeles; Myron Norton, Earn Brown, Augustus Oliver, W. H. Peterson, K. H. Dimmick, and 88 others, including ten of the jurors before whom the case was tried.
Sept., '58	Anastacia Moreno ..	Grand larceny and robbery.	Los Angeles....	15 years ...	Term of conviction being extraordinary, for such an offence. That the time of conviction was at a period when prejudices ran high, and sentences were not commensurate with offences. This, in connection with the age of the party, being only 20 years of age at this time, and his confinement, which has already lasted four years, is, in the opinion of your petitioners, reason sufficient for the exercise of Executive clemency.	Francisco P. Ramirez, Timothy Wolfkill, J. W. Halsee, juror before whom the case was tried; R. D. Sheldon, A. F. Counsel, and Sanford Lyon, a juror in the case.

DECISION.—March 1.—In this case, it appears that the convict sustained an irreproachable character previous to the commission of this crime, and has behaved himself with great propriety since his imprisonment. His pardon is asked for by the Senator and Representatives from Los Angeles, and a large number of the most respectable citizens of that County. As I have strong hopes of his entire reformation, let him be discharged.

DECISION.—March 20.—The applicant is said to be a youth; has been four years in the Prison. During that time, the officers certify that he has behaved with great propriety, and given evidence of reformation. His conduct, previous to conviction, was bad. I therefore pardon him, however, upon the express conditions: 1. That he be placed on a vessel immediately bound for Mexico, and never return to this State. 2. That if he land in California after he is placed on the vessel, he shall forfeit all the privileges and immunities conferred by the pardon. 3. That his friends shall execute and deliver a satisfactory bond, in the sum of \$3000, for the performance of these conditions, which shall be filed with the Warden of the Prison before he is removed.

March, '58 ...	Manuel Baldaraiso..	Robbery	Sierra	5 years	Chas. W. Robinson, E. H. Pomeroy, H. F. Robinson, Geo. W. Lee, Jno. McCloy, G. P. R. Hume, Joseph O'Conner, A. McClanahan, Henry Bristol, Jno. Harris, Wm. Elliott, John Martin, John L. Young, John Davis, W. Thompson, and 20 others.
	DECISION.—<i>May 4.</i>—This convict was only fifteen years old when sent to the Prison, in 1855. For the past two years he has been a "trusty," outside of the walls; his conduct has been such as to induce the belief that he has entirely reformed. Let him be pardoned.				Grounds on which the Petition is based.
	There were many peculiar circumstances connected with his arrest and trial, which, upon a careful examination, would seem to place him (Baldaraiso) in the light of a "tool" for designing and desperate men, as he was quite young (15) when sent here. Since here, his conduct has been excellent. His parents are highly respectable, and they have written for him to come home.				
April 5, '58...	William Scott	Gr'd larceny.	Sacramento	10 years ...	J. Heard, Judge before whom the case was tried.
	DECISION.—<i>May 10.</i>—In this case, the convict has been in Prison for two years and a half, on conviction of having been found with a stolen horse in his possession. Recent developments have produced a strong impression upon my mind that he is entirely innocent. Let him be pardoned.				Grounds on which the Petition is based.
	A letter, written by one Frank Williams, in which he says that he stole the horse for which Scott was imprisoned.				
May 5, '58 ...	Ab Cheang.....	Assault with a deadly weapon.	San Francisco...	1 year	George B. Tingley, Charles T. Carrallo, and 10 Chinese merchants of San Francisco.
	DECISION.—<i>May 15.</i>—In this case, the convict is a Chinaman; was convicted of an assault on one of his countrymen, of an opposite faction, with a deadly weapon. He is represented by the Chinese merchants of San Francisco, as a young, industrious, and honest boy, and that he was prosecuted to satisfy private revenge, rather than to subvert the ends of justice. Let him be pardoned, as he has been punished enough.				Grounds on which the Petition is based.
	1. We very much doubt the correctness of the evidence on which he was convicted. 2. Even if guilty, as charged, he has already been punished enough. 3. He is young, and has always heretofore sustained a good character for industry, honesty, and integrity.

May 20, '58 ..	Samuel F. Taylor...	Gr'd larceny.	Sacramento	10 years ...	Since his imprisonment, he has behaved himself with great propriety—is a man of family, and poor; his wife and children, residing in Utica, in the State of New York, are entirely dependent on him for support.	W. S. White, H. C. Fisher, E. E. Eyre, J. B. Starr, Jos. Harris, D. C. Gay, J. R. Cantwell, G. Griswold, Eli C. Lathrop, John Bidman, J. J. Watson, Leonard Harris, R. C. Gilchrist, James Lansing, J. H. Moore, and 25 others. Also, the following officers and employees of the State-Prison: A. W. Taliaferro, W. R. Isaacs McKay, Joseph O'Conner, Michael McCarty, Chas. W. Robinson, G. H. Harrison, H. Bristol, G. B. Gordon, and 50 others.
	DECISION.—<i>June 17.</i>—This man was sentenced to the Prison for grand larceny, and has now been in Prison nearly three years. All the officers and employees of the Prison strongly urge his discharge. The District-Attorney, who prosecuted him, says that he has serious doubts about his guilt, and thinks public justice demands his release. The facts alluded to by the District-Attorney, and the Judge before whom the prisoner was tried, have strongly impressed my mind with the belief that he is innocent. Therefore, let a pardon issue.

April 2, '88....	Jas. Brunn or Brown	Robbery	El Dorado.....	6 years	The brother of the prisoner shall, at his own cost and expense, and under charge of the proper officer, place the prisoner on ship-board, and take him from the State, to return no more. 	DECISION.—June 4.—In this case, the convict has served out nearly three years of the aforesaid imprisonment. A large number of citizens, including the Judge before whom he was tried, have asked for his pardon. Let a pardon issue, upon the express condition that he be placed on board the steamer to sail the 5th inst., bound for Panama, in the custody of his brother. The return of said Brunn to the State shall forfeit all the benefit derived under this pardon.

	DECISION.—July 8.—This woman has been in prison one year and a half; has some small children, who need her attention. In consideration of this, and her good conduct, so far as I have observed, as well as her sex, let a pardon issue.					
Date.	Name.	Crime.	County.	Sentence. That the life of said Allen is not now, and never has been, in danger from the effects of the wound. 	DECISION.—July 19.—This man is convicted of an assault with intent to kill. He is an old man, and has resided in this State, with his family, for six years, and sustained an irreproachable character. The difficulty in which he became involved seems to have grown out of an attempt, on the part of some ruffians, to seduce his daughter. A very large number of the citizens of Butte, including the Judge, District-Attorney, and jury, have recommended him to mercy. Let him be pardoned.

That the defendant had no witnesses at his trial, but that if he could have procured the testimony of one Thompson, who would have testified to the truth, the result of the trial would have been different, and the defendant honorably discharged.	J. A. Bondurant, County Judge; Alfred T. Washburn, Nicholas Cleary, S. Belling, J. D. Crippen, S. Sterling, Sam. A. Merritt, Alex. Deming, B. B. Harris, E. Burke, District Judge, and 16 others.
	DECISION.—August 4.—This man was convicted of horse-stealing, and has been imprisoned for three years. He has behaved himself with propriety. The District Judge, County Judge, and Associate Judges, together with the Sheriff, Deputy Sheriff, and other officials of Mariposa County, say that he was convicted on the testimony of one witness, and that recent developments have satisfied them that the testimony was false, and that the prisoner was innocent of the crime. 	DECISION.—February 3.—In this case, the Judge before whom the case was tried says that he has now doubts whether he was fourteen years old when the rape was committed, and recommends a pardon. My predecessor, Gov. 	A. G. Beck.	Assault	San Francisco	Fined \$100

Decision.—*Jan. 27*.—In this case, it has been satisfactorily proven to me that the person on whom the assault was committed has been for years a violent and bitter enemy of the above-named A. G. Beck, and has been chiefly instrumental in breaking up his domestic relations, and separating him from his wife; that the said Beck is the father of two children, and the only means of support for them is that realized from his daily avocation; that he is a very poor man, and is unable to pay the fine imposed upon him, and, should he be compelled to go to prison by reason of this non-payment, his family will be entirely destitute; that before the commission of the above-named offence, his character has been above reproach. The above facts have been represented to me, by the jury who tried the said Beck, who have all joined in a petition together with some of the members of the Legislature, from the City of San Francisco, praying that the fine imposed upon the said Beck be remitted. Let the fine be remitted, and the prisoner be discharged from further imprisonment.

The following message was received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, January 12, 1859. }

To the Assembly of California :

I transmit herewith a copy of the Annual Report of the Surveyor General, to which I invoke your earnest attention. As but one copy has been furnished, I beg that the Senate may be informed of its transmission to your honorable body.

JOHN B. WELLER.

Mr. Young, on the part of the majority, and Mr. Lamar, on the part of the minority of the Committee on Elections, made the following Majority and Minority Reports on the contested election case of Dr. C. Duncombe :

MAJORITY REPORT.

MR. SPEAKER :—Your Committee on Elections, to whom were referred the papers denying the right of C. Duncombe to a seat in this House, as a Member of the Assembly, have the honor to respectfully make the following report to your honorable body :

Your Committee, in being called upon to investigate the right of one of its members to his seat in this House, upon the alleged grounds that

he is not an American citizen, are forcibly struck with the value and sacredness of that right, and of the blessings which it confers, the protection it gives of our broad flag to all who are entitled to gather beneath its ample folds, and he who steps from the high position of an American citizen by swearing allegiance to a "foreign Government," has no claim to that protection, or to the enjoyment of those privileges which this broad Union affords to those who remain true to their birth and adopted rights.

Your Committee are aware that no decision has yet been given by the Supreme Court of the United States "upon the right of voluntary expatriation," whilst many of the highest Courts of different States have decided in favor of the "old Federal doctrine," which made the tenant the servant of his landlord; on the other hand, many others have held to the doctrine of voluntary expatriation. The policy and practice of our Government have been universally in favor of the right of voluntary expatriation, and have supported that principle and right by the war of 1812 with Great Britain; also in the *Kostza* affair, when Lieutenant Ingraham was so highly complimented for his gallant conduct in defending the right of an adopted American citizen, against the claims of his native land, although he had only declared his "intentions to become a citizen." The doctrine of voluntary expatriation is a well-settled international law, at present, and Courts will construe that doctrine as construed by their respective Governments in their intercourse with other nations. By our laws we make citizens of those who before were citizens and subjects of Foreign Governments, and require them not only to take an oath of allegiance to our Government, but also to swear to abjure their allegiance to every "Foreign Prince, Power, and Potentate."

Then, if we deny the right of voluntary expatriation, we are guilty of this strange absurdity, to wit: Of making citizens of other lands, citizens of our own, requiring them to abjure their former allegiance, at the same time holding to the doctrine that their former allegiance can not be given up by them. If this be true, our own foreign-born soldiers are traitors to their native land, if it be at war between that country and ours; and if taken prisoners by their Sovereign, we could not relieve them, if we hold to the doctrine that they can not abjure their allegiance; to be consistent, we must grant to our own citizens the right we claim for citizens of all the nations of the world.

The days of feudal tyranny have passed and with it those absurd rules necessary to sustain that peculiar system, and we do not recognize that "old and absurd claim of kings—once a subject, always a subject;" that whilst we maintain and defend to the utmost of our power, the rights of the most humble citizen in our land, we can not recognize as such, one who voluntarily leaves his native country, swears allegiance to a foreign power, and returns, not as the prodigal asking admission again into his father's house, but claiming, as heir to the manor born, all those rights which he forfeited by his own act.

The liberality of our institutions leaves open wide the door for her straying children to return and regain their forfeited inheritance. Our laws prescribe the mode, and those who fail to embrace them do so with their own free will. The fault is theirs, and not their country's.

Your Committee find, from the testimony of C. Duncombe, the following facts:

That he was born in the United States.

That he went to Canada in the year 1816-17 or 1818.

That he took the oath of allegiance: "That he would true faith and

allegiance bear to His Majesty King George the Third, his Heirs and Successors."

That he took said oath about two (2) or three (3) months after his arrival there.

That he lived there until 1837, a period of about twenty-one (21) years. That he returned by *compulsion* to the United States.

That he has since resided in the United States, a period of about twenty-one (21) years, and has not returned to his allegiance to this Government as required by all who owe allegiance to other Governments, and desire to enjoy the rights and privileges of this.

That whilst in Canada he was an officer of the British Government, a member for several years of the Colonial Parliament.

That he was a Commissioner or Agent to England, from Canada, to effect the removal of Sir Francis Bond Head as Governor of Canada.

That he asserted and was recognized by the Home Government as a "British subject."

That the Colonial Government of Canada, under Sir Francis Bond Head, declared said C. Duncombe a "Rebel," and offered a "reward for his arrest."

That the Home Government removed said Sir Francis Bond Head, and pardoned said C. Duncombe, as a Rebel.

The majority of your Committee do not recognize the power of any one to owe a double allegiance, and in view of the foregoing "facts" they conceive that but two (2) questions are to be determined in this case.

First—Whether a citizen of the United States can swear allegiance to another Government, and still retain and exercise at pleasure the rights and privileges of an American citizen?

Secondly—Can a citizen or subject of Great Britain, or of her Colonies, become a member of the Legislature of California?

A majority of your Committee answer those questions in the negative, and would recommend, in accordance with that provision of the Constitution which gives the power to this House to judge of the qualifications of its own members—(one of its members having sworn allegiance to a "Foreign Power," and not having renounced that allegiance,) "that such a member is not entitled to a seat upon this floor."

Therefore, we submit the aforesaid report, and recommend the adoption of the following resolution:

Resolved, That this House deem, and hereby declare, the seat in this House belonging to the County of Sacramento, and at present occupied by C. Duncombe, to be vacant.

GEO. A. YOUNG,
BENJ. S. HINES,
T. LASPEYRE,
J. M. ROANE.

MINORITY REPORT.

MR. SPEAKER :—The undersigned, a minority of your Committee to whom was referred the contested election case of *Montgomery v. Duncombe*, ask leave to make the following Minority Report:

The right of Charles Duncombe to hold a seat in the Assembly of this State is contested, on the ground that he is not a citizen of the United States, but a subject of Great Britain. On the part of the contestant, it is alleged that the said Duncombe was a land-holder and a freeholder in the Province of Canada, and that he was a member of the Provincial

Parliament in said Province of Canada—a colonial dependency of Great Britain ; which allegations were verified by affidavit.

The said Charles Duncombe admits that he was a member of the Provincial Parliament of Canada. That he took the oath of allegiance to the Government of Great Britain, but denies that he ever abjured his allegiance to the United States, for the reason that he was born in the United States, and of American parents, who were citizens of the United States. He makes this assertion under oath. It is not controverted.

It is the opinion of the minority of your Committee that a native-born citizen of the United States can not divest himself of the allegiance which he owes by nature to the country of his birth, in which opinion we think we are sustained by the laws of nations, the Common Law of England, and, by implication, of an Act of Congress for the naturalization of *aliens*, and by decisions of high judicial tribunals. The Naturalization Laws provide for the naturalization of *aliens* only ;—by *aliens*, we understand foreigners by birth. Under those laws, Charles Duncombe can never be made a citizen, for he is no alien, but a native born. Certainly, our Government did not intend to restrict the privileges of her native-born citizens so as to preclude the possibility of their ever becoming citizens again after once having been citizens of another country. Such an interpretation would be contrary to the genius and spirit of American institutions. The principle, as enunciated by the decisions of the Supreme Courts, to wit : “A citizen of the United States, by becoming a citizen of another country does not cease to be a citizen of the United States, nor is he absolved from his original allegiance,” we hold to be the principle which should govern this case. Therefore, we respectfully submit that Charles Duncombe is a citizen of the United States, and recommend that he be allowed to retain his seat as a member of the Legislature elect from the County of Sacramento.

ROBERT HOWE, for the Delegation.

By Mr. Young :

The Select Committee, appointed under the resolution of the 10th

inst., relating to the Journals of this House, having had the same under consideration, beg leave to report that after a careful examination of the Journals of last Session, and hearing the opinion of experts in writing, are convinced of the practicability, and of great benefit and security, in having the proceedings of each day written in the Archive Journal; but, notwithstanding, would recommend that the resolution above referred to be rescinded. And with a view of having the minutes corrected and approved before assuming the form of a permanent and authentic record, would further recommend the adoption of the following resolution:

Resolved, That the Clerk be required to have the Journals of each day's proceedings written up within two days from the date of the correction and approval by the House of the Minutes, and for the purpose of securing authenticity, that a select committee of three be appointed by the Speaker, whose duty it shall be to compare the Record with the corrected and approved Minutes, and on Monday of each week, to report to the House the condition of the Journal, and the time up to which the permanent record is completed and compared.

Mr. Fuller introduced a Joint-Resolution relative to the further protection of San Francisco harbor.

Read first and second times, and referred to Committee on Federal Relations.

REPORT.

Mr. Lamar, from the Committee on Elections, made the following majority report :

MR. SPEAKER :—A majority of your Committee, to whom was referred the case of Hoyt v. Tipton, in which the right of said Tipton to hold a seat in this House as a Member of the Assembly from the county of El Dorado, is contested by said Hoyt, respectfully report that we have care-

fully investigated the matter, by examining the evidence submitted to our consideration, and by applying the law governing elections to guide us in our deliberations.

The contestant alleges that the Board of Canvassers of the election returns at the late election in El Dorado County, committed an error in excluding the returns from Tennessee Precinct in said county.

That had said returns been admitted, and counted, he, the contestant, would have had a majority of fifteen votes over said Tipton, for Assemblyman; but owing to the improper rejection of the returns from Tennessee Precinct, said Tipton was declared elected by a majority of one (1) vote.

It appears in evidence that Tennessee Precinct was a legally established precinct.

That on the first day of September of the past year, an election was held in El Dorado County for Assemblymen and other officers, and on the same day there was a poll opened at Tennessee Precinct. That at said precinct there were twenty-three (23) votes cast for Hoyt, and seven (7) for Tipton, which appears from a certified copy of the tally-list, tendered in evidence on the part of the contestant.

It also appears in evidence, that the preliminary oath taken by the Officers of election for Tennessee Precinct, was administered by one "Hix," who swears that he was not at that time an officer authorized to administer oaths, and that he so informed the persons who conducted the election, previous to their being sworn.

Furthermore, a certified copy of the tally-list of Tennessee Precinct, tendered in evidence, does not show for what offices the persons receiving votes at said precinct were voted for. Upon this evidence is the defendant's main reliance, to show that the returns from Tennessee Precinct were properly rejected by the Board of Canvassers.

It remains for this House to determine whether they will approve or annul the action of the Board of Canvassers. If their action is approved, J. S. Tipton is the legally elected member of this House. If it is annulled, Tipton has no right to a seat as a member of this Assembly, and W. K. Hoyt is a legally elected Representative.

The nineteenth (19) section of the law governing elections in this State, declares: "Before any election shall be opened, the Inspector, Judges, and Clerks, shall each, before any officer authorized to administer oaths, take an oath that he will faithfully and impartially discharge the duties assigned him by law.

"If there is no person present authorized to administer oaths, the Inspector shall administer the same to the Judges and Clerks, and one of the Judges shall then administer the oath to the Inspector."

Which law, in the opinion of a majority of your Committee, is unequivocal in its direction, and indispensable in its provisions to the validity of an election.

It is through the ballot-box that the people delegate trusts to their representatives.

It is the fountain of power under a republican form of government, and the manner in which the law directs the oath to be administered is the only safeguard to its purity.

A party taking an oath without the proper forms and prescriptions of law is not responsible for the performance of its obligations, nor amenable to the laws of this country for its violation.

This is the reason and spirit of the law which so clearly and distinctly prescribes the manner in which officers of election shall qualify.

There is another serious and fatal objection to the returns from Ten-

nessee Precinct. The Election Law of this State declares, in Section twenty-four (24): "The voting shall be by ballot—the ballot shall be a paper ticket, containing the names of the persons for whom the elector intends to vote, and designating the office to which each person so named is intended by him to be chosen."

The certified copy of the "tally-list" previously alluded to in the report, contains the names of W. K. Hoyt and J. S. Tipton, and many others voted for, and the number of votes which each received; but the list does not show for what offices those persons received such votes. Those returns, so vague, and so incomprehensible, we think, were properly excluded from the canvass. Section thirty-seven (37) of the same law provides:

"No tally-paper, poll-list, or certificate, returned from any election, shall be set aside or rejected for want of form, nor on account of its not being strictly in accordance with the directions of this Act, if the same can be satisfactorily understood."

That proviso steps in to heal mere clerical informalities, and not to supply so material a defect as is apparent in the tally-paper alluded to, nor to excuse the want of so important a requisition as a solemn legal oath.

In view of the foregoing facts, and the clear and explicit dictations of law, we respectfully submit that J. S. Tipton is a legally elected member of the Assembly from the County of El Dorado, and recommend that he be permitted to retain his seat.

MINORITY REPORT.

The following minority report, in the contested election case of J. S. Tipton, was made by Mr. Lull.

MR. SPEAKER:—In the matter of the contested election from El Dorado County, the undersigned, after a careful consideration of the testimony on record in the case, respectfully submits this minority report:

The importance of the political question, affecting a populous County of the State, as well as a respect to the opinion of the majority, require that reasons should be assigned for this difference in opinion.

The statement of the contestant, W. K. Hoyt, as the only ground of contesting the seat of J. S. Tipton, alleges that the Board of Supervisors of El Dorado County neglected and refused to canvass the election returns of Tennessee Precinct, in White Oak Township, in said County, for the reasons that said returns did not declare the office for which the respective persons therein named were voted for. The testimony accompanying the statement of the contestant establishes these facts:

First—That the Board of Supervisors of said County established said Precinct at a regular session of the Board, and appointed officers of election; and that an election was fairly and honestly held at said Precinct at the general election, on the first day of September, A. D. one thousand eight hundred and fifty-eight.

At said election, Hoyt received twenty-three, and Tipton received seven votes for Assemblyman.

Although the returns do not show that the candidates were voted for as Assemblymen, yet it is in evidence that the election was by ballot; that the ballots were printed, and all designated the office for which the respective candidates received the votes. By rejecting the returns from said Precinct, Tipton has a majority; while, if said returns had been allowed, Hoyt would have received a majority of the whole vote of said County. It is contended, by the majority of the Committee, that the evidence on record shows that there were illegal votes cast at said Precinct, for Hoyt, sufficient in number, if even the returns were received, to give Tipton a majority of the aggregate vote of the County.

While this allegation, on the part of the majority, is respectfully controverted, it is submitted that no question of the kind is raised by the statement of the contestant.

We are not called upon to determine nice questions of special pleading. Sitting as the tribunal established by the Constitution to protect a district of the Commonwealth in the right of franchise, we are restrained by none of the trammels of mere Courts of law, and are called upon to exercise the soundest discretion consistent with political justice and constitutional law. Therefore, inasmuch as the questions of illegality and fraud

or corruption have not been alleged to set aside said election, it is incompetent for the majority voluntarily to raise such questions, while the contestant is not called upon to meet them, nor the Assembly to take cognizance of them. Well-established precedents, in adjudicated cases before the United States Congress, sustain this position.

The single and simple question for us to determine, is, whether the irregularity or informality in the returns of said Precinct are so glaring as to vitiate the election. It is not necessary to inquire into the conduct of the Board of Supervisors, whether they acted legally or not. It is a sufficient answer to their conduct to refer to the statute, which expressly provides that the returns of an election *shall not* be rejected where the meaning thereof can be ascertained.

The Constitution of this State makes the Assembly the judge of "the qualifications, elections, and returns of its members." The Assembly, therefore, has independent control and jurisdiction in determining the qualification of its members. This body is perfectly independent of the Boards of Supervisors of the several counties, and may disregard and reject their Certificates of Election. The Certificate of Election given by authority of a Board of Supervisors is not conclusive—at most, it is only *prima facie* evidence of right.

The Assembly may, therefore, in its discretion, inquire into the whole election to determine the qualification of a member. It will never, however, unless under rare inducements of public necessity, inquire beyond the issues made up by the parties to a contest.

In this case, if we follow precedent, we will not turn aside from the only issue, to determine questions of illegality, fraud, or citizenship, which are not raised by the contestant, and which, if once admitted, would lead into interminable inquiry into the legality of the entire election in El Dorado.

I have, therefore, but to submit the simple proposition, that the returns from said Precinct give to Mr. Hoyt a certain number of votes; that the ballots voted designated that he received the votes for Assemblyman; and that if allowed to him he would have a clear majority of all the votes of said County. No reasonable mind can avoid this conclusion, nor resist the force of judgment that awards to Mr. Hoyt the seat occupied by Mr. Tipton.

It is contended, however, that the election at said Precinct is utterly void, from the fact the Officers of Election were not sworn according to law.

In reply to this, I will select, from a number of authorities, a single example, to prove its fallacy.:

The case of *Potterfield v. McCoy*, in the fourteenth session of Congress, was a contested election from the State of Virginia, and turned upon the strict construction of State Statutes. There, the Officers of Election were not sworn at all.

Congress, in this case, declare "that it is not essential that the Clerks should be sworn *before* the poll; it is sufficient that they make oath to the truth of their return after."

This case is directly in point, and serves to illustrate the difficulty in which the majority of the Committee are involved.

The Officers of Election of Tennessee Precinct were regularly appointed, and their oath of office was administered by a person having no authority. At most, this act would amount to a nullity; it would be as if they had not taken the oath at all. It certainly is not sufficient to vitiate the election, and, in the absence of any charge of fraud or corrup-

tion, to disfranchise the free citizens of the Precinct. But, fortunately for ourselves and for the rights of those we sit here to adjudicate, any difficulty is overcome by the fact that all of the officers do solemnly swear, before a competent authority, that the returns are correct, and that the election at said Precinct was conducted in other respects according to law, fairly and honestly.

Here there is no room for cavil, doubt, or uncertainty. The proper officers, appointed by the Board of Supervisors of the County, come before this tribunal, and, with solemn affidavits, before you, swear to the truth and correctness of the returns, and that the election was conducted fairly and honestly.

In the face of such conclusive testimony, in the presence of precedents, established by the highest political authority, with our own statute disapproving the rejection of returns for mere informality, I can not do otherwise than recommend that W. K. Hoyt be entitled to the seat occupied by J. S. Tipton. To do otherwise, would be to act in opposition to the spirit and letter of our State laws; would be opposed to the action of Congress in like cases, and would unjustly disfranchise a portion of the citizens of El Dorado County.

I therefore submit this minority report, with the accompanying resolution.

LOUIS R. LULL.

Mr. DeLong, from the same Committee, made the following

MINORITY REPORT:

MR. SPEAKER:—The minority of your Committee, to whom was referred Assembly bill No. 6, for an Act entitled "An Act to amend the criminal practice of this State," beg leave to submit the following report:

The amendment arrived at by this bill is simply to restore the original practice of this State, thereby, in all criminal cases, giving the defendant the closing argument to the jury. This we believe to be just, wise, and humane; a practice in which we are sustained by the legislative wisdom

of a majority of the Atlantic States, particularly the State of New York, from whose Statutes ours are very largely copied.

The Statute of the State of New York, entitled "Code of Criminal Procedure," section 5, article 460, reads as follows: "When the evidence is concluded, unless the case is submitted to the jury on either side, or on both sides, without argument, the counsel for the People must commence, and the defendant, or his counsel, may conclude the argument to the jury." From this Statute ours was literally copied, and continued to be the practice of this State until the year one thousand eight hundred and fifty-four, when it was amended as it now stands—giving the People the right to the closing argument, forming and following the dictates of the barbarous and nearly obsolete practice of the Common Law in criminal cases, a practice which seemed to aim at nothing but a conviction after arrest. Therefore, we are, in our opinions relative to this bill, fortified at least by as high authority as can be obtained, and are therefore making no experimental innovation into, or upon, the practice in criminal cases, when tested by statutory authority.

We further consider this proposed amendment wise and humane, when considered in a point of view in accordance with the highly-civilized and progressive spirit of the age; for if it is said that the right of the closing argument is of no value to either party, then it can do no harm to change the practice, and defeats completely the argument that has been used by the opposition, to wit: "That criminals now have sufficient opportunities to escape, and that the State already labors under too many disadvantages;" and if it is an advantage, it is one that we, your Committee, deem should be extended to the crime-charged culprit; for if, by the exercise of that privilege alone, in any case, a verdict of acquittal may be obtained, the evidence in such case must indeed be too infirm, and too loose, to justify a conviction; and it is in consonance with public opinion, long established, that 'twere better the guilty should escape than that the innocent should suffer.

For these reasons, and many more which might be offered, we report the same back, and recommend the passage of the bill.

C. E. DeLONG.

By Mr. Lynch:

MR. SPEAKER: The Committee on Engrossment have examined the following bills, and find them correctly engrossed:

CUTLER, Chairman.

By Mr. Street:

MR. SPEAKER:—The Committee on Ways and Means, to whom was referred Senate bill No. 8, entitled "An Act to repeal an Act for the appointment of a State Gauger for the Port of San Francisco," having had the same under consideration, a majority of the Committee report the same back, recommending its indefinite postponement.

The same Committee have had under consideration Senate bill No. 42, entitled "An Act supplemental to the Act entitled an Act to create a Board of Examiners, to define their powers and duties, and to impose certain duties upon the Controller and Treasurer," and report the same back, recommending its passage, without amendment.

CHAS. B. STREET, Chairman.

The following report was made by a majority of the Committee on Ways and Means:

MR. SPEAKER:—The undersigned, a majority of your Committee on Ways and Means, to whom was referred Senate bill No. 8, having for its object the repeal of the law creating the office of State Gauger for the port of San Francisco, having had the same under consideration, ask leave to report: That, in our opinion, the necessities of trade imperatively demand that, in a great commercial port like the city of San Francisco, there should exist, by the creation of law, a responsible umpire between the seller and buyer of wines and spirituous liquors. These articles constituting, as they do, one of the most important branches of commerce, and being so susceptible to the practice of fraud, both as to quantity and quality, it is absolutely indispensable to the promotion of legitimate commerce, that such a regulation as exists by virtue of the office of State Gauger, should interpose to secure that object. Moreover, the people of this State are directly interested in this matter, and their long and unanimous acquiescence in the operation of the Gauger law would appear to us indicative of their unqualified approval. And, as additional evidence that the people are satisfied with the law as it exists, since the subject of its repeal has been agitated in the Legislative halls, a remonstrance against that repeal has been sent up to the Legislature, numerously signed, by a respectable class of citizens, who are most immediately interested in its operation, and most cognizant of its beneficial effects, and we would respectfully suggest that too hasty legislation in the repeal of laws is often more injurious in its consequences than undue consideration before their enactment. Wherefore, we recommend the indefinite postponement of the bill.

LAMAR,
COLEMAN,
BURDICK,
T. LASPEYRE,
HENRY HANCOCK.

MINORITY REPORT.

MR. SPEAKER:—The undersigned, a minority of the Committee on Ways and Means, to whom was referred Senate bill No. 8, "An Act to repeal an Act creating the office of State Gauger," respectfully beg leave to report the same back to the House, and recommend its passage, for the following reasons:

The Act which it is now proposed to repeal is one of a number passed during the session of one thousand eight hundred and fifty-two, creating the offices of Inspectors of Flour, Beef, and Pork, Measurer of Lumber, and Gauger of Wines and Liquors. The evident prodigality and injustice of such legislation has been attended by the repeal of all the laws in question, with the exception of the one now under consideration. We

are now called upon to give our sanction to the abolition of the last of these sinecures.

All the other laws of the same character having been repealed, we can see no good reason why an invidious distinction should continue to be made against the dealers in wines and liquors. If the dealer in flour, beef, and pork, or lumber, depends entirely upon his honesty and integrity in business for his business, why should not the dealer in wines and liquors be placed upon the same footing? We are firmly of the opinion that no such distinction should be made against any business, believing that honesty and fair dealing is the only law that should regulate every branch of trade.

Private inspectors of flour, and other articles of commerce, are to be found in our cities, who, for a consideration, examine any of these articles when desired, and as their business depends upon the excellence and fairness of their judgment, buyers are as fully protected now as they were when such inspection was compulsory and made by a State officer. The same reasoning will apply to the case before us.

But it is contended that an inspection of wines and liquors by a State officer will prevent the adulteration of liquors. We have not been able to appreciate the force of this argument. So far from preventing frauds, we contend that it is an inducement to commit them. There is no means of preventing a dishonest dealer from substituting an inferior quality of liquor for that certified by the Inspector to be of a particular grade, and therefore, if his mark on a cask is to be taken as an evidence of its contents, what a wide door does it open for the commission of the most outrageous frauds.

If, then, this law is both unnecessary and useless, and is, besides, the cause of levying an onerous tax of thousands of dollars per annum upon the people, for the sole benefit of the incumbent, why should it longer remain upon the statute-books of the State? That, it will be the duty of this House to decide, and, with this outline of our views on the subject, we leave it to your consideration.

Mr. DeLong offered the following protest, which was received :

"I protest, most respectfully, but most solemnly, to the action of the majority of this House, in declaring the seat of the member of Sacramento vacant by the passage of the resolution offered by the gentleman from Nevada, (Mr. Young.) I am prompted to do this by the thought of how withering the rebuke thus given to the teachings of a Blackstone, a Story, a Marshall, a Kent, a Parsons, an Ellsworth, and an Iredell, this action on the part of this House must be, and to stand thus forever upon our Legislative Journals as a monument of the exalted wisdom of this age, and likewise a monument of the weaknesses, the follies, and the foibles of the ages past, as expounded by these (heretofore considered) sages of wisdom. I have learned, by the study of law, to regard their teachings as profoundly learned, and when arraigned in juxtaposition to the opinion thus expressed by this House, after *great* labor of thought, I have conceived this opinion, adverse to the opinion of a majority of this House, and wish, therefore, to enter this, my protest, hoping, (without designing to appear egotistical,) to thus throw a trifling shield of palliation and respect over the memory of these great men so strangely wrong.

"C. E. DeLONG, of Yuba."

Mr. Lamar also protested, and referred to the minority report of the Committee on Elections as embodying the substance of his protest.

Mr. Gwinn offered the following preamble and resolution :

Whereas, G. E. Montgomery has filed with this Assembly a notice that in case Charles Duncombe should be declared ineligible to hold a seat in said body, that the said G. E. Montgomery claims to be entitled to the same; *and whereas*, it appears to the satisfaction of the Assembly that the said G. E. Montgomery was not legally elected a member of this Assembly by the legal voters of Sacramento County, and is not entitled to hold the same. Therefore, be it

Resolved, That the seat heretofore occupied by said Duncombe be, and the same is hereby, declared vacant.

Mr. Ellis offered the following certificate, and moved that the resolution and certificate be referred to the Judiciary Committee, which motion was lost, and the resolution adopted :

EVIDENCE IN THE CASE OF DR. DUNCOMBE'S CONTESTED SEAT, BEFORE THE COMMITTEE ON ELECTIONS.

Question First.—Were you born in the United States?

Answer.—I was.

Question Second.—Did you, or did you not, at any time, take an oath of allegiance to the British Government in Canada?

Answer.—I did.

Question Third.—What was the oath?

Answer.—That I would true faith and allegiance bear to His Majesty, King George the Third, his heirs and survivors.

Question Fourth.—Did you, or did you not, take an oath in Canada to enable you to hold or inherit property there?

Answer.—I don't recollect taking any other oath but the oath of allegiance and the oath of office.

Question Fifth.—Were you a member of the Colonial Parliament of Canada?

Answer.—I was.

Question Sixth.—Did you take an oath, upon being admitted to a seat in said Parliament?

Answer.—I did.

Question Seventh.—What was that oath?

Answer.—I do not recollect. I can not repeat it; but the oath was different from the oath of allegiance; it was the ordinary oath of office.

Question Eighth.—How long, after your residence in Canada, did you take the oath of allegiance?

Answer.—I took said oath very soon (say two or three months,) after I arrived in Canada.

Question Ninth.—Did you ever take an oath abjuring your allegiance to the United States?

Answer.—I did not.

Question Tenth.—When did you go to Canada?

Answer.—In the year one thousand eight hundred and sixteen, one thousand eight hundred and seventeen, or one thousand eight hundred and eighteen.

Question Eleventh.—What year did you leave Canada?

Answer.—In the year one thousand eight hundred and thirty-seven.

Question Twelfth.—Were you proclaimed by the authorities of Canada as a rebel?

Answer.—I was, by the Governor, Sir Francis Bond Head.

Question Thirteenth.—Were you one of those pardoned by the Government?

Answer.—I was.

Question Fourteenth.—Was any reward offered by the authorities for your apprehension?

Answer.—A reward of one thousand (£1,000) pounds was offered by the Governor, Sir Francis Bond Head, for my arrest and delivery. I was informed that I was to be arrested and tried by a drum-head court-martial, and was secreted for about three (3) months, and did not return to Canada until pardoned. Sir Francis Bond Head stated to the Colonial Secretary in England, that I was a native American, and a rank Republican, and therefore ought not to be received at that office.

Question Fifteenth.—Were you recognized at the Colonial Office and the Home Government as a British subject?

Answer.—I was.

Question Sixteenth.—Was Sir Francis Bond Head removed by representations made through you to the British Government?

Answer.—I represented myself as a British subject in making my application for his removal, and subsequently he was removed.

Question Seventeenth.—Was the party you belonged to in Canada sustained by the Home Government?

Answer.—The party I belonged to in Canada was the Whig Party, and was eventually sustained by the Home Government.

Question Eighteenth.—Since living in the United States, have you taken the oath of allegiance to the United States?

Answer.—No, I have not; I made inquiries of various members of the "Legal Profession," and among them, the Attorney-General of Ohio, and Caleb Cushing, late Attorney-General of the United States, and received for answer, that no action on my part was necessary; that I was a citizen, and entitled to all the privileges, rights, and immunities of an American citizen. I generally stated my case fully to those parties.

Question Nineteenth.—Were the above facts generally known to the citizens of Sacramento County?

Answer.—They were.

Question Twentieth.—Did you ever take an oath abjuring allegiance to the United States?

Answer.—I did not.

Question Twenty-first.—How many times have you sworn to support the Constitution of the United States during the last twenty-one (21) years?

Answer.—I really do not know, but at various times.

Question Twenty-second.—Was your right ever questioned as an American citizen before?

Answer.—Once, in Ohio, at Van Buren's election, in the year one thousand eight hundred and forty, my vote was challenged, and I took the usual election oath. I then handed in my ticket, and the question was afterwards agitated by some, whether I had a right to vote or not. I then immediately consulted the Attorney-General of Ohio in relation to the matter, and no further action was taken.

Also, that the said Committee be directed to make a full report on the subject, and, if they find the end contemplated both politic and practicable, to report a bill for that purpose.

Mr. Gwinn moved to indefinitely postpone.

Mr. Watkins moved to refer the Report of the Superintendent of Public Instruction to the Committee on Education, which motion was declared out of order by the Chair, upon the ground that no such report had been made to the House.

Mr. Moore of Nevada appealed, and the decision of the Chair was not sustained, and the report was referred to the Committee on Education.

On motion of Mr. Holman, three times the usual number of copies of Assembly bill No. 56, "An Act concerning the organization of the Militia," was ordered printed.

REPORTS.

Reports were made as follows:

By Mr. Cope:

MR. SPEAKER:—The Judiciary Committee, to whom was referred Assembly bill No. 26, an Act concerning interest on money, and to prevent usury, have had the bill under consideration, and the majority of the committee (Mr. DeLong dissenting,) beg leave to report the same back, and recommend its indefinite postponement.

W. W. COPE, Chairman.

Minority report by Mr. DeLong :

MINORITY REPORT OF THE JUDICIARY COMMITTEE UPON ASSEMBLY BILL NO. 26, RELATIVE TO INTEREST ON MONEY, AND TO PREVENT USURY.

MR. SPEAKER :—*Sir* : The Judiciary Committee of this House having had under consideration said bill, have reported the same back, and recommended its indefinite postponement, (however, assigning no reasons therefor,) I alone dissenting from their views. And, *Sir*, being only one out of the eleven honorable members of that committee, favorable to the passage of this Act, and being composed, as it is, of members of this body selected not only for their general abilities, but particularly for their legal attainments, I therefore, feel, *Sir*, that it strongly behooves me to show to this House, cogent reasons to sustain me in the peculiar views and position I have taken. Therefore, *Sir*, I most respectfully submit the following minority report, and recommend the passage of the bill.

In the first place, *Sir*, the rate of interest sought to be established by this bill, is fourteen per cent. per annum : nearly or quite double the rate allowed by law, in any or most of the sister States of this Union ; so, therefore, I conclude that its liberality will not be the subject of attack from its opponents. Secondly—This bill aims to prevent the loaning of money, or the contracting therefor, at any higher rate than that before mentioned, by making all such contracts, loans, etc., by this Act, usurious and void, so far as the cost of an action, and any and all interest claimed in any action wherein the defence of usury is plead and sustained, and, also making all such contracts *quasi*-criminal offences, and punishable as misdemeanors. In the general features of this bill, no originality can, or is, sought to be claimed, it being an almost exact copy of laws of a similar nature in force in other States, but its necessity and its reason are the grounds upon which it has met with decided disapproval at the hands of a majority of this committee, and it is in support of these grounds, and in answer to those attacks, that I shall predicate mainly this report.

Firstly, *Sir*, I shall proceed to review, briefly, the general nature, use, and intuition of laws of this nature, as contended for by the authors of our common law, and the authors of our statute laws in the different States of this Union, whose laws of this nature are at present in force.

Upon reviewal of various authorities, we find that laws of this nature are of the greatest antiquity ; an apparent, or imaginary necessity, having always, and up to the present time, in almost all civilized, or even semi-civilized countries, existed.

Chancellor Kent says : “ If we look back upon history, we shall find that there is scarcely any people, ancient or modern, that have not had usury laws. In ancient Rome, according to Tacitus, usury was discouraged in the early period of the Republic by the Twelve Tables ; it was afterwards abolished, and again established, in the ages of luxury and commerce of that nation. Justinian, for maritime hazards, allowed a liberal rate of interest, but for other purposes exorbitant interest was severely restrained.”

“ But, (according to Blydenburg,) it is not only the civilized and commercial nations of Modern Europe, and the sage law-givers of Ancient Rome, that have regulated the interest of money. It is a little singular that the same voice against usury should have been raised in the laws of China—in the Hindoo Institute of Menu—in the Koran of Mahomet—

and, perhaps, we may say, in the laws of all nations, that we know of, whether Greek or Barbarian.

"But one exception in those ages seems to have occurred, and that was in the laws of Solon for the Athenians, but that nation afterwards established a usury law by custom and usage. For, (as said by Blydenburg,) the public voice, which cried against usurers, and the profound contempt to which they were condemned, formed a punishment so great, that the law-giver did not deem it necessary to add any other punishment.

"The true reason on which the Legislature has said that, in bargains for money, no more than a certain fixed sum shall be taken by way of interest for the loan, is founded on just principles of true policy. First of all, it is more advantageous to the public, that persons who are in possession of money should use their own industry in the employment of their money, than that they should sit idle, and take the benefit of it through the industry of others; and, therefore, the loan of money, at any large rate of interest, has always been discouraged. And as States become rich, the interest of money is always diminished, with the view that the men who sit idle shall receive as low a rate of interest as will induce them to loan to others. If every man could obtain for the loan of his money as high a rate of interest without hazard, as they do who employ it in trade and manufactures, which are hazardous undertakings, the most industrious of the people would be ground down by usurers; they would get the profits of the trade, and the enterprising and industrious trader would be ruined.

"One sees every day, where traders have been in the habit of borrowing, become bankrupts, and how large a share of their property is always swallowed up by usurers."

England always, from the earliest date of her political history, until A. D. one thousand eight hundred and thirty-nine, has had usury laws of the most stringent nature, and, in the said year, adopted a new or supplementary statute relative thereto, which is, I presume, still in force.

The colony of Massachusetts, in one thousand six hundred and forty-one, passed an Act of usury, and still retains a usury law in force.

The laws of Connecticut, published in one thousand seven hundred and fifteen, contain in substance the present Act now in force.

The present Act against usury in New Hampshire, was passed in one thousand seven hundred and ninety-one.

The first Act of the Colonial Legislature of New York, appears to have been that of the third year of King George the First, and has had, continually, usury laws since that time, except during the years one thousand eight hundred and thirty-four, thousand eight hundred and thirty-five, and one thousand eight hundred and thirty-six, and of the practical effects of the repeal or of the moderation of the usury laws during that time in that State, Blydenburg says: "Usury stalked abroad at noon-day, and any attempt to describe the disastrous effects of that enactment would be little short of the history of the times. It could not be written without the pen of a Gibbon. The interior of the State, however, in May, one thousand eight hundred and thirty-seven, succeeded in rescuing the City of New York from the usurers, by their majority in the Legislature, and passed the Act now in force, which took effect in the following July. Repeated attempts have been subsequently made by demagogues to effect a repeal, but the countrymen have, as yet, remained firm."

The first Act against usury, in New Jersey, was passed in one thousand

seven hundred and thirty-eight, and, with only slight alterations, has continued in force until the present time.

On the twenty-seventh of November, one thousand seven hundred, interest was reduced, and a rate established, by the Act of William Penn, Esq., Proprietary, and Governor-in-Chief of Pennsylvania and Territories. This Act was repealed February seventh, one thousand seven hundred and five, and re-enacted March second, one thousand seven hundred and twenty-three, and is still continued.

The original Act against usury, in Maryland, has continued, without variation, from its passage in September, one thousand seven hundred and four, until the present time.

The rate of interest was established, and usury laws enacted, in Virginia, in one thousand seven hundred and thirty, and she still has statutes of nearly the same import.

The original Act against usury, in North Carolina, which was passed in one thousand seven hundred and forty-one, continues in force in that State through subsequent enactments, and was in force in Tennessee until the Act of that State, passed in one thousand eight hundred and nineteen, which made usury indictable—which continued until the present Act in that State, passed in one thousand eight hundred and thirty-five, which is now in force.

In South Carolina, two laws were passed, one in one thousand seven hundred and twenty, the other in one thousand seven hundred and twenty-one, against usury—the last of which brings indirectly into view the rate of interest. At the present time, the legal interest is seven per cent., as it has been since one thousand seven hundred and seventy-seven. The bank-interest is six per cent.

Georgia passed an Act against usury March twenty-seventh, one thousand seven hundred and fifty-nine, similar in its provisions to the Statute of Queen Anne, but allowing interest at the rate of eight per cent. per annum. It continued in force until its repeal by the passage of the present Act, one thousand eight hundred and twenty-two.

Alabama, by Act of one thousand eight hundred and five, allowed interest at the rate of six per cent. per annum, and declared the contract void for excess. A supplemental Act was passed to that, as afterwards amended, in one thousand eight hundred and thirty-four.

The Territorial Legislature of Ohio passed an Act, on the fourteenth of July, one thousand seven hundred and ninety-five, adopting the English Acts of Parliament, of Elizabeth and Henry the Eighth, which was succeeded by another Act in one thousand seven hundred and ninety-nine; and the State of Ohio passed an Act to prevent usury, which forfeited the excess over principal only; December twenty-ninth, one thousand eight hundred and four, which continued until its repeal by the present Act, in one thousand eight hundred and twenty-four.

The first Act against usury passed in Kentucky in one thousand seven hundred and ninety-eight, which was similar in its provisions to the Act then in force in Virginia. This continued until its repeal by the passage of the present Act in one thousand eight hundred and nineteen.

In addition thereto, all of the several States of Maine, Arkansas, Delaware, Florida, Illinois, Indiana, Louisiana, and Michigan, all had laws similar in their natures to those above referred to, at the date of my authority: Blydenburg on Usury—published in one thousand eight hundred and forty-four.

Then I would ask, in the language of the author, "Can we suppose that a principle of moral restraint, of such uniform and universal adop-

tion, has no good sense in it? Is it altogether the result of monkish prejudice? Ought we not rather to conclude that the provision is adapted to the necessities and the wants of our species, and grows out of the natural infirmity of man, and the temptation to abuse inherent, in temporary loans?"

So much for precedent authority, now I would ask, have we become wiser or more honest than other people? or is there any peculiarity in our political existence that renders a law so universally needed and enforced in other countries, unnecessary in ours? I have entirely failed to distinguish the difference, but, on the contrary, nearly nine years' continual residence in this State has taught me that greater, yes, far greater, necessities, for such a law exists here now than ever has existed in any of our sister States. California, populated by the hardy, adventurous, and speculative of all the world—rich in her intrinsic wealth—abounding in dazzling prospects of fortunes seemingly obtainable in the shortest periods of time—has induced a degree of mad speculation, of every nature, heretofore unparalleled in history. It founded the money-loaner's paradise of success; quietly withdrawing within the narrow confines of their offices, lying idle themselves, but working their money, they have cautiously, but surely, wound themselves about the sinews of our people's prosperity, until we behold every public convenience and franchise within their power—our means of transit to the sister States, our internal rivers, our public highways, all, all, in the hands of high monopolies, so hugely gigantic, in their moneyed strength, that they are even shrewdly suspected, by some, of being able to make themselves felt within our legislative halls.

We have but to contrast the past with the present to behold the necessity for an Act of this nature. Where are the men to-day who, but yesterday, were the leading traders of our State? Those who have erected what few structures, edifices, and public improvements, of which our State can boast, are, in nine cases out of ten, pecuniarily ruined, and their possessions the possessions of the purse-proud usurer.

This, the wealthiest of all of the United States in natural productions, in almost any point of view regarded, is to-day the poorest as a government, the poorest in the works of art, the poorest in all that tends to render us, as a State, substantial, and, as a people, happy.

The farmer fences his fields, or builds his cottage, by the rate of interest; the miner buys his water by the same criterion; and, in thousands of places throughout the State, mineral wealth, of untold richness and quantities, lies untouched and undeveloped for the want of water—the money-lender being unwilling (whilst his money can be loaned to so good an advantage,) to either intrust his money in such hazardous speculations, or to intrust it to others so to do; therefore, there it must lie, beyond the reach of the industrious but poor miner. Where are your railroads, so much needed? With unimproved public highways, leading to almost all of our principal cities, rendered almost impassable during the rainy season; with navigation impeded by a flood of debris from the mountains that threatens to almost entirely destroy this means of transit, creating in this State a greater necessity for railway conveniences than in any other—yet we possess immeasurably less. They are all paralyzed by the enormous rate of interest demanded upon money—awaiting the investment of foreign capital; whilst the citizen that would willingly assist in the execution of these works must remain idle, and, when he desires to travel, must pay to the wealthy monopolist the enormous exactions required of him for exceedingly inferior accommodations.

My space will not allow me to point out more of the ruinous workings of this untrammelled usurious system, and, therefore, I must close this report by endeavoring to answer objections that have been urged against a bill of this nature from various sources. 'Tis said, by some, that an exercise of a power of this nature, by legislative bodies, is of doubtful propriety, and as unwarranted as would be a law to regulate the price of any kind of produce. To the first objection, I reply by referring to the authority I have already quoted—the authority of the world. To the second objection, I reply by quoting the maxim of our Government, “the greatest possible good to the greatest possible number.” It is first for us to determine whether a law of this kind will have this effect, and, if determined in the affirmative, then we will be upheld by our constituency in its passage. Again, it has been urged that it is impossible to frame laws of this nature that will not be evaded. This is sufficiently refuted by the history of other States; but, further—it will not be sought to be evaded by large dealers, who never will risk their reputations, their property, and their liberties, by a violation of the law, when the temptation, on the part of the man oppressed by them, is so great, and humanity so infirm; and if they will comply, they will, as they do, regulate the money mart, and would-be usurers on a small scale will not find many applicants. And again, it has been urged, as a most serious objection, that it will tend to drive money from the State to seek foreign investment. This I deny, for I here assert that no other State in the Union presents the many inducements for investments of capital, safely secured and promising such gains, as this. I think I am safe in saying that seven per cent. per annum is the average rate of interest throughout the Union, and here we offer and allow by this bill fifteen per cent.—more than double.

Now, I assert that the banker—the shrewd, calculating money-broker—will not invest in anything, or in any speculation, that he does not consider safe; and any speculation that he does consider safe, he will invest his money in, in this State, at fifteen per cent. per annum, before he will transmit it to any foreign market, where it can not be any more than safe, and where he can not reasonably expect any more than half as great a return for his outlay and risk. It will drive money to the seeking of investments in improvements; it will encourage and stimulate enterprise of every nature; it will give us opposition facilities of travel, and cripple monopolies; it will furnish the laboring man with opportunities for labor, and cheapen his necessities of life; it is the great keystone of success, and a State's prosperity. Every branch of human industry will feel its immediate effects. I deem it expedient, necessary, and just, for all of the purposes and for all of the reasons I have pointed out and given, and for many more that I am prepared to point out and to give, but which the limited requirements of a report will not, in justice, allow me to give in this place, but which I will attempt to give before this honorable body, in debate, on the advocacy of this bill.

The following minority report was submitted by Mr. Lefever:

MR. SPEAKER:—The minority of the Committee on State Hospitals, to whom was referred Assembly bill No. 5, would most respectfully dissent from the report of the majority, and recommend the passage of the substitute. He is induced to do this from a firm conviction that the fearful rapidity with which insanity is increasing in this State, requires that further accommodation should be provided for them, and considers that it would be better to divide, than to crowd them.

LEFEVER.

By Mr. Cherry :

MR. SPEAKER :—The Committee, consisting of the San Francisco delegation, to whom was referred Assembly bill No. 15, "An Act to authorize and empower the Board of Supervisors of the City and County of San Francisco to pay out of the General Fund, certain claims therein mentioned," report the same back to the House with amendments, and recommend its passage, as amended.

CHERRY, for the delegation.

The following minority report was submitted by Mr. Vaughan :

MR. SPEAKER :—I now propose to offer my reasons for making a minority report a few days ago, recommending the indefinite postponement of Assembly bill No. 41, "An Act to construct and maintain a bridge across the Feather River," which was referred to the delegations from Yuba and Sutter Counties.

First—That the citizens of Sutter County are desirous of constructing a free bridge, and that there is a bill pending in the Senate, giving them that right; and that this bill (Assembly bill No. 41,) has been introduced for the purpose of heading off and killing the Senate bill.

Second—That this bridge company (formed in Assembly bill No. 41,) has formed an unholy combination for the purpose of exacting and collecting high and oppressive tolls from the citizens of Sutter County, while traveling to and from the City of Marysville.

Third—That before this unholy and tyrannical combination was formed, there were two regularly-licensed ferries, running at the point where thi,

bridge is to be established, at rates of toll that were not oppressive, and which paid their owners a handsome compensation.

Fourth—That George M. Hanson obtained a charter from the Court of Sessions of Yuba County, to construct and maintain a bridge across the Feather River, at the point where this bill proposes to give this franchise, and that that charter was in nowise to interfere with the privilege of the opposition ferry owned by William S. Webb.

Fifth—Some two years ago, the owners of the bill combined and coalesced with W. S. Webb, the owner of the opposition ferry, by buying off the ferry of the said W. S. Webb, and giving him, in return therefor, the one-third interest in said bridge, thereby cutting off all opposition, and placing the people of Sutter County at the mercy of a heartless monopoly. And for the benefit of this company are gentlemen urging the passage of this bill with such hot haste.

Sixth—This bill gives the right to the Board of Supervisors of Yuba County, to fix and regulate the rates of toll on said bridge, which will work a great hardship on the people of Sutter County, from the fact that they pay, annually, to this bridge company, forty thousand dollars, under the rates of toll as fixed by the Board of Supervisors of Yuba County.

Seventh—I hold to the principle that the right to build this bridge belongs to the people themselves, and that it would be unjust to legislate that right from them, when it is their *bona fide* intention to build a free bridge.

C. L. N. VAUGHAN.

Mr. DeLong offered the following resolution :

Resolved, That a Special Committee of five from the House be appointed, whose duty it shall be to visit the State Insane Asylum, at their earliest convenience, for the purpose of thoroughly investigating the said institution, and report to this House a full and complete statement of the amount of expenses, and the amount of improvements made thereon, belonging to the State : as, also, the whole general financial affairs of the said institution ; as, also, any amendments to the present Act relative thereto, for the management and control of the same, that they may deem necessary.

The following minority report was made by Mr. Lefever :

MR. SPEAKER :—*Sir* : Assembly bill No. 2, creating an Act to ascertain the indebtedness of Sierra County to the County of Yuba, which was referred to the Yuba and Sierra delegations, most respectfully beg leave to submit the following minority report :

Originally Yuba County included Nevada and Sierra. Nevada was set off May twenty-eighth, one thousand eight hundred and fifty-one, and provision was made for determining her portion of the debt of Yuba County. (See Statutes of 1851, pages 516, 517, and 518.)

The Commissioners appointed under the Act organizing the County of Nevada, to ascertain its proportion of the indebtedness of Yuba County, could not agree.

On the twentieth day of April, one thousand eight hundred and fifty-two, a new Board of Commissioners was appointed to ascertain the proportion of indebtedness of Yuba County, properly chargeable to Nevada County. (See Laws of 1852, pages 242 and 243.)

On the sixteenth day of April, one thousand eight hundred and fifty-two, the County of Sierra was created out of the County of Yuba, and in the Act provision was made for ascertaining her proportion of the debt of Yuba County, and the payment of the same, and such Act has never been repealed. (See Laws of 1852, pages 230, 231, 232, and 233.)

In compliance with the above law, such Commissioners were appointed by the Court of Sierra County,—Yuba County failing so to do.

From the foregoing, it will be seen that when Nevada was set off, Yuba County, in one thousand eight hundred and fifty-one, was in debt, and Nevada County was to pay her proportion of it ; that Nevada County has never been legally advised of the amount of that debt, and, in the opinion of this Committee, does not legally owe Yuba County one dollar.

Therefore, as Sierra County has complied with the law, it is the opinion of this Committee, also a number of legal gentlemen consulted in the

matter, that Sierra County is not legally indebted to Yuba County in the sum of one cent.

JAS. A. JOHNSON,
JOSIAH LEFEVER.

The following bills were ordered engrossed :

Assembly bill No. 2, an Act to ascertain the indebtedness of Sierra County to the County of Yuba, and to provide for the payment of the same ;

Also, Assembly bill No. 39, an Act to repeal an Act entitled an Act to incorporate the Town of Oroville, and an Act amendatory of, and supplementary to, an Act to incorporate the Town of Oroville ;

Also, Assembly bill No. 67, an Act to legalize the assessment of real and personal property, made by John H. Lillard, in the County of Butte, during the years of one thousand eight hundred and fifty-six, and one thousand eight hundred and fifty-seven.

Also, Assembly bill No. 69, an Act providing for holding a special term of the District Court in the Thirteenth Judicial District ;

REPORTS.

Mr. Thomas made the following report:

MR. SPEAKER:—The Joint Committee of the Senate and Assembly on State Hospitals, having visited the Insane Asylum at Stockton, in discharge of the duty assigned them, and having minutely inspected said Asylum, and inquired diligently into its financial affairs, submit the following report:

We find that the duties of the officers, from the Superintendent and Visiting-Physician to the lowest attaché of the Asylum, have been performed in an efficient and faithful manner. Their system of treatment, control, and management, so far as could be ascertained, are such as would eminently conduce to the improvement of the patients. The respective wards and apartments of the establishment are kept with the most scrupulous regard to the comfort and sanitary condition of their unfortunate inmates. Your Committee are unanimous in the belief that the modern-received ideas of the treatment of the insane, as adopted and carried out by the Resident-Physician and his entire corps of subordinates, would be difficult to improve upon.

The result of the treatment, as shown by the statistics of the Asylum, has been eminently successful, and will compare favorably with much older institutions, of a similar character, in the Eastern States. The books and accounts indicate an economical and efficient performance of the business of the Asylum, comprehending full and fair records of the entire business operations of the institution.

The books were found correctly kept, neat, concise, and readily understood—reflecting much credit on the parties having them in charge. In fine, your Committee are constrained to admit, from the examination had of the Asylum and its inmates, and all that appertain to them, that all the legal requirements connected with the same are faithfully carried out.

We can not well close this report without commending the Trustees and Superintendent for the improvements made at the Asylum during the past year. It seems to have been the care and study of the efficient architect to combine utility and taste, and of the contractor to carry out, to the fullest extent, his designs—the general appearance of the grounds and improvements affording mute testimony to the success of both, in an eminent degree.

For a minute record of the improvements and changes that have been made at the Asylum, during the past year, your Committee would refer your honorable body to the Annual Report of the Trustees and Superintendent. We deem it absolutely necessary, for the safe-keeping and comfort of the violently insane or raving maniacs, when in close confinement, that some of the cells in the mad-houses should be fitted up with the modern improvements, so as not to injure themselves or those in attendance.

For this purpose, we would earnestly recommend a small appropriation.

With this exception, it is with much satisfaction we announce that no appropriation for improvements is necessary for the present year.

G. W. THOMAS,
Chairman of Assembly Committee.

Mr. Thomas presented the following communication, which was referred to the Committee on Hospitals, with instructions to report to-morrow morning :

To the Assembly of the State of California :

Your petitioner respectfully represents that he is the Resident-Physician of the State Insane Asylum, and that, inasmuch as it has pleased members of your honorable body, in the exercise of their parliamentary privilege, to make charges, upon the floor of the House, reflecting upon the honor and integrity of the officers of the institution, he humbly requests, as an act of justice to himself and those associated with him, that your honorable body may be pleased to appoint a Committee, with power to send for persons and papers, whose duty it shall be to investigate, and report upon the character and conduct of the institution, from its formation to the present moment.

IN ASSEMBLY.

FRIDAY, February 4, 1859.

House met, pursuant to adjournment.

The Speaker in the Chair.

A quorum being present, the Journal of yesterday was read.

Pending which, Mr. Jackson moved to correct the Journal by inserting that portion relating to the arrest of Mr. DeLong, as follows :

"The Speaker ruled him out of order, and Mr. DeLong appealed from the decision of the Chair. The Speaker not noticing the appeal, ordered Mr. DeLong to be arrested."

Lost.

Whereupon the Journal was proved.

Mr. DeLong had leave to change his vote from aye to no, on the vote by which Senate Concurrent-Resolutions No. 11, relative to instructing

Hon. D. C. Broderick to resign his seat in the United States Senate, were concurred in on yesterday.

Mr. DeLong proceeded to discuss the reasons why he desired to change his vote, and was declared out of order by the Speaker, for the reason that he was proceeding to discuss the merits of the resolutions.

From which, Mr. DeLong appealed, and the decision of the Chair was sustained.

Mr. Pixley also had leave to change his vote, on the same subject.

Mr. G. A. Douglas offered the following protest :

The undersigned herewith enters his protest against the action of the House on yesterday, February third, in the passage of Senate Joint-Resolutions concerning the Hon. D. C. Broderick, for the following reason :

The resolutions assert as a fact what is positively untrue, viz.: that the Hon. D. C. Broderick disobeyed the instructions of the last session of the Legislature, calling upon him to vote for the admission of Kansas under the Lecompton Constitution, when the official Journal of the Senate shows that the last vote was taken upon the admission of Kansas under the Lecompton Constitution, on the twenty-third of March, A. D. 1858, whereas the aforesaid resolutions of instructions were presented in the Senate on the fourteenth day of April, following, after which time no opportunity was presented for the said Senator to yield obedience to the request of the Legislature of California.

The undersigned protests further against the action of the House in forcing members to vote under the previous question, without any opportunity of voting understandingly upon the question, believing that no question should be introduced into the Legislature that is unfit for discussion.

G. A. DOUGLAS.

REPORTS.

Reports were made as follows :

By Mr. Tully :

MR. SPEAKER:—The undersigned, a minority of the Committee to whom was referred Senate bill No. 34, begs leave to submit the following report thereon :

At the last session of the Legislature of this State, an Act was passed providing for the appointment of a Supreme Court Reporter, and defining the duties of and fixing the salary of the same. The undersigned is of

the opinion that the law is plain and unequivocal in its language and provisions. It clearly contemplates that there shall be published, annually, a volume containing the decisions of the Supreme Court for one year, in good law style, and the delivery of three hundred copies of same to the Secretary of State.

Section ten of said Act provides that said Reporter shall receive, as compensation for the three hundred volumes of such Reports, the sum of two thousand dollars annually.

Section thirteen provides, that where the Reporter shall neglect or refuse to comply with the requirements of said Act, the Controller shall not issue any warrant in payment of the duties required by said Act, until, upon proper examination, he shall satisfy himself of the propriety of so doing; and that in *no case* shall the Reporter be entitled to, or receive, a *greater* compensation than six thousand dollars per annum, (including the four thousand dollars salary,) for all services required of him by this Act.

Now, it does not appear, to the satisfaction of the undersigned, that the Reporter has complied with the requirements of the aforesaid Act, and that, under the existing law, said Reporter is not only *not* entitled to the four thousand dollars asked for, but that he has not even a lawful right to demand the two thousand.

It has not been contended, even, that he has complied therewith. It is contended, however, that the amount of matter required to be published for the past year was far greater than was contemplated at the time the Act was passed, and that the decisions of eight months required the publication of two volumes (IX and X.) Said Reporter further alleges that he entered into a contract with certain parties for the publication of Volumes IX and X of said Reports, and that the parties now refuse to deliver the volumes published, to him, or proceed with the further publication of the same, until paid therefor; and that it is utterly impossible for him to comply with his obligation to deliver the three hundred copies without the aid of the appropriation asked for, viz.:—four thousand dollars—for Volumes IX and X of said Reports.

Now, the undersigned has examined said Reports, and finds them to be not of such size as would warrant the payment of so large a price for them. Though gotten up in a good style, they are too small. The two volumes referred to contain only the decisions of *eight months*; and it is confessed that another volume will be required to complete the Reports for one year alone, which, at the rates paid for Volumes IX and X, would require still another two thousand dollars—making a total of six thousand dollars per annum: whereas, the Act before referred to provides that “in no case” shall the said Reporter receive a greater compensation than two thousand dollars for one year’s Reports. This bill asks for what is equivalent to six.

The undersigned, therefore, in view of the foregoing facts, does not believe that it is within the power of the Legislature to order the payment of the amount demanded, in direct violation of the Act referred to. That, under the present statute, the Controller can not issue warrants for a greater amount than two thousand dollars per annum, and that the Reporter must first comply with the requirements of said Act. That, if any further relief be accorded, it can only be done by a repeal of said Act, and the passage of an Act for his relief. I would therefore recommend that the said bill do not pass.

TULLY.

By Mr. Tully:

MR. SPEAKER:—The Committee on Public Lands have had under consideration Assembly Concurrent-Resolution No. 23, relative to reviving and continuing pre-emption laws, report the same back, and recommend its passage.

TULLY, Chairman.

By Mr. Aud:

MR. SPEAKER:—The Committee on Federal Relations, to whom was referred Senate Concurrent-Resolution No. 16, relative to the boundary-line between California and Utah, have had the same under consideration, and have instructed me to report the same back to this House, and recommend its passage.

The Committee think that the merits of said resolution must be sufficiently patent to all at a first reading of the same, yet they would beg leave to suggest one, as they deem, strong reason for the immediate passage of the same, which is: the present doubt that obtains with persons living on or near the supposed eastern boundary-line of California, and the consequent difficulty that is almost daily occurring in regard to the jurisdiction of the authorities of this State, and the jurisdiction of the authorities of that Territory.

The Committee are led to believe that, in consequence of this doubt as

to the boundary-line, many persons on or near the supposed line are annually excused from paying taxes to this State, who should pay the same.

The same Committee have also had under consideration Senate bill No. 54, being "An Act to provide for the relinquishment to the United States, in certain cases, of title to lands for sites for light-houses, and for other purposes, on the coasts and waters of this State," and have instructed me to report the same back, and recommend its passage, without amendment.

The latter clause of the fifth article of the amendments to the Constitution of the United States, says, that "private property shall not be taken for public use without just compensation." This bill simply and plainly provides how the United States shall proceed to appropriate private property to public use, by legitimate course through judicial procedure.

The Committee deem the object of the bill a most excellent one, and think its passage should be urged.

FRANCIS L. AUD, Chairman.

COMMUNICATION FROM THE SURVEYOR-GENERAL.

The following communication was received from the Surveyor-General:

STATE OF CALIFORNIA, OFFICE OF SURVEYOR-GENERAL, }
 Sacramento, February 8, 1859.

To the Honorable the Assembly of California :

The Assembly resolution in relation to the survey of the boundary-line between this State and Utah Territory, adopted January tenth, was received on the fifth instant. It will be impossible for me to furnish an accurate statement of the cost of establishing said boundary-line. It has always been customary, I believe, when the line separating the State from a Territory was required to be established, to have the work done by Joint Commission, on the part of the State and of the United States. The United States has in all cases paid the expenses attending the prosecution of the survey—the State being merely required to pay the actual expenses of her Commission. The eastern boundary of this State, from the forty-second parallel of latitude to the Colorado River, is about six hundred miles long. To establish this line properly, I think, would require an outlay of at least sixty thousand dollars. This amount would undoubtedly be paid by the United States. I think an appropriation of five thousand dollars would cover the expenses of the Commission of the State.

The northern boundary of the State is about two hundred miles long. About one-quarter of the line was run under instructions of Mr. Marlette, State Surveyor-General, in one thousand eight hundred and fifty-four. The eastern portion of the line has not been established.

Respectfully,

H. A. HIGLEY, Surveyor-General.

Senate bill No. 11, an Act supplemental to an Act entitled an Act defining the time of commencing civil actions, passed April twenty-second, one thousand eight hundred and fifty, indefinitely postponed.

Assembly Concurrent-Resolution No. 23, relative to reviving and continuing pre-emption laws, adopted.

Senate Concurrent-Resolution No. 16, relative to the boundary-line between California and Utah, concurred in.

Senate bill No. 54, an Act to provide for the relinquishment to the United States, in certain cases, of title to lands for light-houses, and for other purposes, on the coast and waters of this State, read third time.

Mr. Sloss moved a call of the House, which was sustained, and the following members were absent, viz.: Messrs. Aud, Canon, Crenshaw, G. A. Douglas, Dow, Gregory, Hill, Moore of San Francisco, and Young.

The Sergeant-at-Arms was dispatched for the absentees.

Further proceedings under the call were dispensed with, and the bill passed.

The following resolution was offered by Mr. Tully, and adopted :

Resolved, That the Speaker appoint a Special Committee of three, whose duty it shall be to take into consideration that portion of the report of the Surveyor-General of this State which relates to the school lands of this State and the location of school-land warrants, and report, at their earliest convenience, such amendments to the existing laws relative thereto, as by them may be deemed necessary.

At eighteen minutes past two o'clock P. M., on motion of Mr. Rodgers, the House adjourned.

REPORTS.

Reports were made as follows :

By Mr. Tully :

MR. SPEAKER :—The Committee to whom was referred Senate bill No.

78, entitled "An Act to authorize the issuance of duplicates for certain lost school-land warrants," have had the same under consideration, and beg leave, respectfully, to submit the following report in relation thereto :

From the very imperfect nature of our Statutes, relative to the location of school-land warrants, your Committee can not but see that there must inevitably arise difficulties that will require all the wisdom and ability of our best jurists to unravel or correct—difficulties involving both public and private interests of no small consideration.

Your Committee are thoroughly impressed with the necessity of cautious legislation on the subject of duplicate land warrants, and knowing, as they do, that under the present imperfect statutes, the course heretofore pursued, in making locations without canceling the warrants so located, thus leaving them in such a condition as would enable persons so desiring to practice such a series of frauds, both upon the State and individuals, would prove disastrous in the extreme, would take this occasion earnestly to recommend that too much countenance be not given to this species of special legislation. In the case in hand, your Committee are of opinion that the warrants referred to in the Act before us have been lost, and that there is no intention on the part of the parties to practice any fraud upon either State or individual ; and, believing further, that the bonds required by section three of said Act, are such as to protect the State from any loss therefrom, would, therefore, in view of the foregoing facts, recommend that the bill pass as reported.

TULLY, Chairman.

By Mr. Gregory :

MR. SPEAKER :—The Committee on Corporations, to whom was referred Assembly bill No. 44, entitled "An Act to amend section one hundred and seventy-nine of an Act entitled an Act concerning Corporations, passed April twenty-second, one thousand eight hundred and fifty," having had the same under consideration, ask leave to report it back, without recommendation.

A. J. GREGORY, Chairman.

By Mr. Hancock :

MR. SPEAKER :—Your Committee on Counties and County Boundaries, to whom was referred Assembly bill No. 87, "An Act to define the boundaries, and provide for the organization of Mendocino County," have had the same under consideration, and hereby report that, firstly, upon representations and statements made by the author, to the effect that at this time there is a great influx of population ; that there are now about nine hundred voters, with taxable property to the amount of about one million of dollars, within the limits of that tract of country now known as the County of Mendocino, and, by the Act of twenty-fifth April, one thousand eight hundred and fifty-one, dividing the State into Counties, and establishing the Seats of Justice therefor, attached for judicial and revenue purposes, to the County of Sonoma, the said statements and representations being concurred in by the delegation from Sonoma—your Committee are of the opinion that there is a necessity for the organization of a separate County Government for the County of Mendocino, and, having made sundry amendments to the bill, respectfully report the same back, with amendments, and recommend its passage, as amended.

HANCOCK, Chairman.

By Mr. Lies:

MR. SPEAKER:—The Committee on Education, to whom was referred Senate bill No. 37, entitled "An Act amendatory of, and supplemental to, an Act entitled an Act to provide for the location and sale of the unsold portion of the five hundred thousand acres of land granted to this State for school purposes, and the seventy-two sections donated to this State for a seminary of learning, approved April twenty-third, one thousand eight hundred and fifty-eight, do respectfully report, that they have considered the said bill, and now recommend that the same be passed.

The same Committee, instructed by resolution of January twenty-seventh, one thousand eight hundred and fifty-nine, "to inquire into the expediency of erecting and establishing a State University, in which shall be taught the highest branches of education," do respectfully report, that in obedience to the aforesaid resolution, they have inquired as instructed, and find that the erecting and establishing of any State University is at present inexpedient.

Mr. Street presented the following memorial of miners in Shasta County, relative to Chinese.

Referred to Committee on Mines and Mining Interests.

MEMORIAL.

To the Honorable Senators and Representatives of the California Legislature :

Believing that the time has come when prompt and determined action should be taken in reference to the Chinese now in our midst, and who may hereafter come, we respectfully beg leave to call your attention to this subject—a subject to us, and to the mining interest generally, of the most grave and momentous importance, because on it depends our peace and prosperity.

We make this request the more freely, since our assembling in Convention is the result of a sentiment almost universal on the part of the miners of this County, and entirely free from party feeling and party strife.

It is a fact which can not be denied, that the Chinese are accumulating in such vast hordes in this and the adjoining Counties, as to give serious alarm to American miners. Their numbers are such, that when they settle down in a district, like the locusts of Egypt, they sweep it clean, thus depriving the American miner of what his own country's blood, and toil, and treasure, have bequeathed to him as his inalienable right. Hence it is, that the Chinese are fast driving the American miner to seek other employments. He finds that he can no longer eke out an existence in the mines, and he leaves them to seek other places, and follow other pursuits. A result tending, in a measure, to depopulate and impoverish the State, and which every lover of his country's prosperity should deplore and strive to obviate.

Will you, then, permit this hidden treasure of our golden soil—that which we are depending upon to increase, extend, and enrich our State—to be dug up and carried away by those who benefit us not? thus taking away our capital in trade, hindering the development of our mines, and driving our own citizens from our soil?

Is it not the duty of the Legislature to look to the future welfare of the State, as well as to the present? If you permit the mines to be exhausted by the Chinese, you not only drive away the white miner from

your midst, but you take away the great inducement which is held out to the inhabitants of other States to seek our shores. The poor emigrant toiling on his way hither, fixes his eyes on the mines as the place where he can gain a livelihood for himself and family, when he reaches his journey's end. But what is his surprise, upon his arrival here, to find that, notwithstanding all his sufferings and toils on the way, his real hardships have just begun; that his toil for bread is really worse than his toil by the way-side; that the very inducement which caused him to come to this El Dorado has been in a great degree destroyed; that an Asiatic horde has been here before him, and taken away what he had depended upon to give him a start in his distant and adopted home, and that too, which should have been reserved for his support? Hence, we ask, would it not be wisdom to prepare the way for the future permanent growth and prosperity of our State, by reserving the mines for the American settler, and not for the Chinese?

Did our fathers—those who obtained our independence, who fashioned our Government, who drafted our Constitution, and those who adopted it—give any invitation to, or make any provision for the reception and settlement among us of, this Asiatic mass? Not at all. The invitation they gave, and which we repeat, to other nations, to come and settle upon our soil, was intended for Europeans and Europeans only; those who were and are our equals, our neighbors, our associates, and who could become our fellow-citizens; and not to the Mongolian race, who are our inferiors, strangers, and idolaters, and who can never be invested with the rights and privileges of citizens.

No! the only ones who have been interested in giving such invitation, and who have been mainly instrumental in calling to our shores this idolatrous rabble, are the ship-owners, shipping-merchants, and landlords of our large towns and cities, who, in direct violation of the will of a majority of the people, have, by their glowing descriptions of the golden wealth of California, and by affording cheap facilities for coming, allured thousands here to curse the industrious white laborer with their presence. The mines are full of them. They are daily eating away our substance. We appeal to your honorable body, and ask, can nothing be done for us? Is there no relief? No legal way to rid the mines of this nuisance?

To this end we respectfully call your attention to the late law which was intended to prohibit Chinese immigration, but which has been declared unconstitutional by the Supreme Court, and we ask you can not a law be passed, so framed as to accomplish the same end? If not, then can not there be a law drawn up and passed, to exclude them from holding claims in the mines? Or, if neither of these plans are deemed feasible, why not impose such a monthly tax upon them as will necessarily drive them from the mines?

We, as miners, feel that something must be done; that the storm is gathering, and we appeal to your better wisdom to give us shelter and relief.

This, be assured, is a spontaneous move throughout the mines of this County. It is the upheaving of the great mass of American miners who have adopted this country as their home, and mining as their occupation, but who find they must forsake the one, and leave the other, should the Chinese continue in their midst.

Hence, we come before your honorable bodies the more freely, because we believe we have rights, and that you will respect them, and support us in maintaining them, for we desire to maintain them peaceably and legally if we can.

To you, therefore, the Legislature of California, we present this memorial, uninfluenced by party, and, we hope, free from prejudices and selfish motives further than what is becoming and right, and just to ourselves as American citizens.

All of which, we respectfully submit,

FEBRUARY 5, 1859.

The receipts averaging, for a full twelvemonth, at the rate of one hundred thousand dollars per month; and the expenditures, exclusive of interest money, (not then due,) sixty-five thousand dollars per month.

This enormous revenue of one million two hundred and nine thousand

six hundred and ninety-five dollars and ten cents, it must be remembered, has accumulated, despite the loss from the Ninth and Tenth Class Licenses to the State—despite the defectiveness of the Revenue Laws, which, the Controller says, need “immediate and thorough revision,”—and despite the inability to enforce the collection of what is due the State. Yet, in the face of these obstacles, the July interest on the public debt, the entire cost of the Government, relief-bills and all, in case they be paid or allowed by the Legislature, up to July first, inclusive, are provided for, and still will leave two hundred and forty-eight thousand four hundred and sixty-three dollars and twenty cents on hand in the General Fund.

Your Committee are unanimously of the opinion that either from imperfectness of the laws, or some other cause, the revenue of the State is not well collected. It is a patent fact, that the persons liable to poll-tax in the State are not less than one hundred and twenty thousand in number, and yet the number who have paid said tax, for the last four years, is as follows:

Year ending 1855	49,199 persons.
Year ending 1856.....	43,110 persons.
Year ending 1857.....	35,495 persons.
Year ending 1858.....	57,575 persons.

And it is also a fact, that for the last five years the total number of foreign miners who have been obliged to pay a license for working in the mines, has been as follows:

Year ending June, 1854.....	72,868	or 6,072 per month.
Year ending June, 1855.....	89,364	or 7,447 per month.
Year ending June, 1856.....	134,608	or 11,217 per month.
Year ending June, 1857.....	100,438	or 8,369 per month.
Year ending June, 1858.....	94,178	or 7,981 per month.

Instead of receiving seventy thousand dollars a year poll-tax, were the law enforced or so written that it could be more effective, we should have one hundred and fifty thousand dollars revenue, and were the Foreign Miner's License Law enforced, instead of one hundred and thirty thousand dollars per annum, we should receive at least two hundred and fifty thousand dollars.

The receipts into the State Treasury from June 30, 1858, to February 1, 1859, amount to.....	\$1,025,000 00
The County Treasurers' payments, in April, will not fall short of.....	150,000 00
Add, from all other sources, for February, March, April, May, and June.....	25,000 00
Making total, for fiscal year ending June 30, 1859.....	\$1,200,000 00

The Controller's estimate of revenue for the fiscal year ending June 30, 1859, is.....	\$1,047,500 00
Already received, to February 1, a period of seven months..	1,025,000 00
Leaving to be received, to fill Controller's estimate.....	\$22,500 00
The revenue for the fiscal year from June 30, 1859, to June 30, 1860, should be as much as for the year ending June 30, 1859, which will not vary much from.....	\$1,200,000 00 •
Add, cash on hand July 1, 1859.....	248,463 20 .
	\$1,448,463 20
Deduct interest for one year.....	\$273,000
Deduct twelve months' expenses of Government, \$65,000 per month, (a large estimate).....	780,000
	\$1,053,000 00
Surplus, July 1, 1860.....	\$395,463 20

This surplus amount would be equivalent to forty cents tax on nearly one hundred millions of dollars (\$100,000,000.)

In view of the foregoing, your Committee are of opinion if the defects of the Revenue Law spoken of, in regard to poll-tax and foreign miner's licenses be repaired, that it is possible, and therefore proper, and much to be desired, that we should relieve our citizens from every item of taxation in our power. We are confident that the rate may be reduced for the next fiscal year, from the present sum of sixty cents on each one hundred dollars to the sum of forty cents on each one hundred dollars, and this, with the few changes in our present laws that will make them imperative to all who are engaged in the duty of putting them into execution.

If the expenses of the Government are to be increased, it must be by our own action this winter, and we have the security of that in our own hands. It can not be that the value of real and personal property is decreasing, as there are actual evidences to the contrary, and, though the laws are imperfect, yet they brought in, in one year, one million two hundred thousand dollars; and what is to prevent it a second time. Re-vise the present Revenue Law, take from it the law relative to poll-tax, and enact a new and stringent one, also a new act relative to foreign miners, equally stringent, make the few alterations needed to the Revenue Law, for taxation of real and personal property, and let it stand by itself. Enact a new law regulating County Treasurers, and a new law defining and giving ample powers to the State Accountant—the Controller—and, instead of an increase of taxation, he will be enabled annually to report, one after another item of present taxation that can be reduced or omitted altogether.

We are in a condition to test the practicability of a reduction for the next year, at least, with an overflowing Treasury and but few cash claims against the State, and, it is to be hoped, a short and economical session of the Legislature—and should the revenue fall off from June, one thousand eight hundred and fifty-nine, to the session of the Legislature in one thousand eight hundred and sixty, they can ascertain the cause, and

make such laws as will cover the deficiencies, before they are felt. But it is needless to fear that there will be any lack of means for the legitimate expense of the Government.

The prospect of our increasing wealth is certainly flattering, and our expenses, owing to the efficient and economical administration of our present State Executive, are decreasing, and should the Treasury have a cash balance of twenty-five thousand dollars only to carry forward from day to day, it would be as well for the interests of the State, and our constituents—as, the less money we keep in the Treasury, the more will be left in the pockets of the people.

There were other balances left in the Treasury on the first of February, to which we have not alluded, as they are for special objects, and do not come into the general account. Each April, July, October, and January, the Treasurers of sixteen Counties make quarterly payments of all their receipts; and, each July and January, the Treasurers of the other twenty-seven Counties make their payments of the receipts for the six months, thus making regular periodical payments, ever keeping the Treasury supplied, and should the Controller find the funds for an important draft lacking between the periods of quarterly payments, he has the authority, by existing laws, to send his order to every County Treasurer in the State, ordering the immediate payment of the moneys in hand due the State. There can be no failure to meet the interest upon the public debt, or any other liability.

The Legislature makes the appropriations upon which the Controller can alone draw his warrant, and again the check is in our hands, first, to provide good and practical means for collecting the revenue, and secondly, directing only what shall be disbursed.

Should the recommendation of your Committee be adopted, viz.: the revision of the laws enumerated, it is almost beyond doubt an equal amount of revenue would be derived, notwithstanding a reduction of the State-tax, as is now received, and if so, it will enable a succeeding Legislature to make a further reduction.

In conclusion, we report adversely to the recommendation of the Controller, and, in lieu of an increase of the State-tax and change of law regulating the revenue from Ninth and Tenth Class Licenses, we are of the opinion that the tax can be reduced upon property to forty cents on the one hundred dollars, and that the Ninth and Tenth Class of Licenses should remain at present to the Counties.

Respectfully submitted,

GEO. A. YOUNG, Chairman.

JAS. A. JOHNSON.

COMMUNICATION FROM THE ATTORNEY-GENERAL.

The following communication was received from the Attorney-General :

To the Assembly of the State of California :

On Saturday last, a paper, purporting to be a resolution adopted by the Assembly, on the eleventh instant, was left at my office.

This resolution requests me to report to your House "whether two grants of land, situated in the Township of Santa Inez, County of Santa Barbara, one containing six leagues and the other two, made to certain parties, for the purpose of establishing in California a University, for the education of youth in the higher branches of learning, by Governor Micheltorena, sometime about the year one thousand eight hundred and forty-two, were presented to the Land Commission for confirmation, and if confirmed, in whose name, on what condition, and to what uses, and whether the State has any interest therein, either from the nature of the grant, or from escheat, forfeiture, or otherwise."

There are no records pertaining to the subject-matter of the aforesaid resolution, in my office, or in the archives of this State, and hence, to ascertain whether any grants of the character spoken of have been presented to the Land Commission, and the character and effect thereof, would require a trip to San Francisco, and an examination of the records of that Commission.

And to ascertain whether, from any cause, the lands have escheated to the State, would require a search for, and examination of, testimony *dehors* the record. I can not see how such search and examination could be satisfactorily made, without going to the County of Santa Barbara, and ascertaining in whom the title had vested at different times—whether

parties holding the title had died intestate, not leaving heirs, citizens of the United States, etc. etc.

So long as I hold my present position, it will afford me pleasure to give (as the law requires) my opinion to either House of the Legislature, in reference to any given state of facts. But I submit that it is unreasonable to require a full compliance with the resolution quoted, and especially, as to do so would greatly interfere with the discharge of other public duties.

I therefore await further action on your part.

I am, respectfully, your obedient servant,

THOMAS H. WILLIAMS,

Attorney-General California.

Mr. Cutler presented the following petition :

To the Senate and Assembly of the State of California :

In consideration thereof, and for the purpose of establishing a seminary of learning, the party of the first part hereby agree to release by Ordinance to Mother Mary Goemaire, and her associates of St. Catharine's Academy, of said City, and to their successors, forever, all right, title, interest, and control, in and to Solano Square in said City, (the said square fronting six hundred feet on First street, six hundred feet on M street, six hundred feet on West Second street, and six hundred feet on N street,) which is now owned, or can be exercised by said City over said square.

And, as a further consideration, and to enable the said Mother Mary Goemaire, and her associates and successors, to have access to said square, the said Ordinance shall provide that they may close the street known as First street, from L to M street, between the south half of block fifty-eight, and said square, and to keep the same closed until the Council of said City shall, by Ordinance, passed by a two-third vote, declare said street to be open.

The said party of the first part also agree to request the Legislature of the State to sanction this contract by an Act of said Legislature.

COMMUNICATION FROM THE GOVERNOR.

The following communication was received from the Governor, which, with the accompanying correspondence, was ordered printed :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, February 16, 1859. }

To the Assembly of California :

Anticipating that some difficulty would arise in consequence of the Federal Government offering for sale lands which had been previously sold by this State as swamp lands, on the twenty-ninth of November last I addressed a letter (covering one from the Surveyor-General,) to the Secretary of the Interior, on the subject. I supposed that, upon the representation thus made, the Department would feel authorized to withdraw these lands until their true character could be determined.

The correspondence herewith transmitted, will show that no such order has been given, and as the lands are now being sold, a conflict of title is inevitable.

It is to be regretted that the suggestions of the Commissioner of the Land Office, made in a letter to my predecessor, under date of May ninth, one thousand eight hundred and fifty-six, (Journal of Assembly, page sixty-seven,) were not adopted and carried out by the Legislature. If steps had then been taken, in co-operation with the Federal authorities, to segregate the swamp from other lands, these difficulties would not, of course, now exist. Besides, the delay will ultimately lessen very materially the value of the grant.

The Report of the Surveyor-General fully presents the magnitude of this question, and to that I invoke your immediate and earnest attention. The plan recommended by him for segregating the lands, or some other, should be adopted at once, else the State will sustain an irreparable injury.

The Act of Congress passed September twenty-eighth, one thousand

eight hundred and fifty, donating these lands to the State, contains a proviso in these words:

"That the proceeds of said lands, whether from sale, or by direct appropriation in kind, shall be applied exclusively, as far as necessary, to the purpose of reclaiming said lands by means of the levees and drains aforesaid."

As we have received this land, subject to this proviso, good faith requires that the proceeds of any sales we may make, should be appropriated to their reclamation.

The Report of the Surveyor-General shows the absolute necessity of amending our land-laws in many particulars, and I trust his recommendations will receive your earnest consideration.

JOHN B. WELLER.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, November 29, 1858.

SIR:—I transmit, herewith, a copy of a letter addressed to me by the Surveyor-General of this State, to which I beg leave to call your attention.

You will perceive that, unless certain lands, which are advertised for sale on the fourteenth of February next, are withdrawn, great injustice will be done to some of our citizens, who hold deeds from the State.

I have the honor to be, very respectfully,

Your obedient servant,

JOHN B. WELLER.

HON. JACOB THOMPSON, Secretary of the Interior, Washington, D. C.

DEPARTMENT OF THE INTERIOR, }
Washington, January 17, 1859.

SIR:—I have the honor to acknowledge the receipt of your letter of the twenty-ninth November last, inclosing a copy of a communication addressed to you by the Surveyor-General of the State, relative to swamp lands in California.

Your letters and enclosures were referred to the Commissioner of the General Land Office, who furnished a report of the sixth instant, that has elicited my reply of this date, addressed to him, and I now respectfully enclose copies of that report, and my reply thereto, for the information of the State authorities of California.

Very respectfully,

Your obedient servant,

J. THOMPSON, Secretary.

His Excellency, JOHN B. WELLER, Governor of California, Sacramento City.

GENERAL LAND OFFICE, }
January 6, 1859.

HON. JACOB THOMPSON, Secretary of the Interior:

SIR:—I have the honor to acknowledge the receipt of a letter from the Governor of California, accompanied with a copy of a letter addressed to him by the State Surveyor-General, referred by you.

The communication enclosed by the Governor relates to the swamp

and overflowed lands in said State, granted by the Act of September twenty-eighth, one thousand eight hundred and fifty.

This subject was presented to the Governor of California in a letter dated the ninth of May, one thousand eight hundred and fifty-six, (copy herewith,) and in which will be found certain suggestions, the compliance with which would be of material importance in the adjustment of the grant. Since which time, no reply has been received, nor, indeed, has the Governor of said State, according to the statement made in the communication enclosed by him, been invested with any authority to proceed in making selections, or to adopt any basis upon which the selections shall be made.

The State Surveyor-General of California, with a letter of the twenty-third December, one thousand eight hundred and fifty-seven, forwarded to this office a list of swamp-land selections, but as no communication had been received from the Executive of the State, informing us of any legislative action upon the subject, the list has remained on our files without any action being had thereon. He forwarded, at the same time, a copy of "An Act to provide for the selection of lands donated by the United States to the State of California, for the support of Common Schools, and for the erection of Public Buildings," and a copy of an Act to provide for "the sale of the swamp and overflowed lands belonging to this State." In neither of these Acts is any provision made for the selection of swamp lands, or the basis upon which the grant would be accepted by the State.

The absence of any communication from the Executive, and the informal presentation of the list referred to, are sufficient grounds for not regarding the lands designated therein as proper swamp-land selections.

In the Proclamation for the sale of lands in said State, advertised to commence on the fourteenth day of February, one thousand eight hundred and fifty-nine, it is claimed that many lands sold by the State as swamp, to her citizens, are embraced, and it is desired that instructions may be issued to except from sale the lands thus sold. The Proclamation contains instructions to except the swamp and overflowed lands from sale, and, in view of the fact that we have received no official information respecting the subject of such selections, and the reasonable presumption that the local Land Officers have not been furnished with lists describing the tracts selected by the State, and informally reported here, I regard such exception as sufficiently broad in its terms.

The papers referred by you, are herewith returned.

With great respect,

Your obedient servant.

THOS. A. HENDRICKS, Commissioner.

DEPARTMENT OF THE INTERIOR,
Washington, January 17, 1859. }

SIR:—Having considered your report of the sixth instant, upon the communication of the Governor of California, suggesting that certain lands which are advertised to be offered for sale by the United States Land Officers on the fourteenth proximo, be withheld from sale because they have heretofore been sold by the State as swamp lands, I have to state, that if any of the lands so sold by the State, are shown by the field-notes of official survey, to be of the description granted by the Act of Congress of the twenty-eighth September, one thousand eight

hundred and fifty, they should not be offered by the Registers and Receivers at public sale.

I am also willing that the United States Surveyor-General shall receive testimony as to the swampy character of particular tracts, claimed under purchases from the State, and if that evidence establishes, *prima facie*, that the lands are swamp and overflowed, that he should so advise the District Land Officers, and direct them to suspend the sale of said tracts; but I do not find authority of law for ordering the reservation from sale of all lands that the State of California may have sold, when there is nothing on our official records authoritatively indicating that the lands have been granted to that State.

The papers which accompanied your report are now returned, and you will be pleased to give instructions to the Surveyor-General immediately, who will take the most prompt measures practicable to carry out the views above expressed.

Very respectfully,

Your obedient servant,

MR. SPEAKER:—The undersigned, a minority of the Committee on Elections, to whom was referred Senate bill No. 30, "An Act to divide the State into Congressional Districts," having had the same under consideration, beg leave to report:

REPORTS.

Reports were made as follows :

By Mr. Street, from majority of Committee on Ways and Means :

MR. SPEAKER :—The Committee on Ways and Means, to whom was referred Assembly bill No. 20, entitled an Act amendatory of an Act entitled an Act to provide revenue for the support of the government of this State, passed May fifteenth, one thousand-eight hundred and fifty-four, having had the same under consideration, report it back, and a majority of the Committee recommend its indefinite postponement.

C. R. STREET.

MINORITY REPORT.

By Mr. Rodgers, from minority of same Committee :

The undersigned, a minority of the Committee on Ways and Means of the Assembly, to which a bill to exempt California mechanical labor from

taxation was referred, do not concur with a majority of the Committee in recommending to the Assembly the indefinite postponement of the said bill.

The justice of the proposition to exempt mechanical home labor from taxation, whilst the domestic products of other sources are exempt, is obvious. The cares and risks attending mechanical pursuits are not less than those of any other; whilst skill in this department of labor is only attained by a much longer, more confining, and severer apprenticeship than is required in the others. A tax, making an unfavorable discrimination against mechanics, as compared with other producers, is not just, and can only be excused upon the plea of urgent public necessity. This plea can not be urged with force in favor of the tax. By reference to the Controller's Report of the last year, it will be seen that the revenue derived from taxation of mechanical products is contributed in larger proportion by the City of San Francisco. The amount received is eighteen thousand two hundred and thirty-four dollars, nearly four times the amount contributed by Sacramento, and more than one-third the sum derived from all the other Counties, Sacramento inclusive.

The aggregate of all revenue paid into the Treasury for Merchant's Licenses, is fifty-one thousand seven hundred and fourteen dollars and ninety-nine cents. The money paid for what are known as the Ninth and Tenth Class Licenses, is turned directly into the County Treasury. It is under these classes of licenses that the sale of home mechanical products is made, and if any serious diminution of revenue were to ensue from exempting them from tax, the State Treasury would be affected only in a slight degree. Information from the Treasurer of San Francisco has been before the Committee, showing that there are only twenty Manufacturer's Licenses taken out in San Francisco—and all of them, except one, are under the Tenth Class, and are paid into the County Treasury. The actual revenue paid into the State Treasury, from San Francisco, from this source, is estimated by the Treasurer of San Francisco, at not more than two hundred and fifty dollars.

If this opinion be correct, and such data as have been within reach of the Committee would lead to that belief, the total revenue furnished to the State from Manufacturer's Licenses can not be over two thousand dollars.

The tax also discriminates unjustly between mechanics themselves. There is no reason why the labor of the carpenter and the mason should be exempt from taxation, and the latter, the shoemaker, and the cabinet-maker—who are obliged to incur the expense of a shop and outfit, to which the class of mechanics first referred to are not liable—should be singled out as the proper subject for taxation.

The number of manufacturers, out of San Francisco, is exceedingly small, and the amount of revenue paid into the County Treasuries throughout the State, is so very small as not to justify the continuance of a tax upon a class of citizens equally meritorious with all others, upon a business which it is sound policy to foster.

WM. P. RODGERS,
JOHN W. CHERRY.

MR. SPEAKER :—A minority of the Committee on Ways and Means believe that Assembly bill No. 58, introduced by Mr. Cherry, of San Francisco, and referred to said Committee, should never become a law, because auctioneers, who should pay their just proportion of revenue towards the support of the Government, can not, according to the provisions of that bill, be compelled to pay more than a nominal sum for that purpose, and because one of the injurious effects of that bill would be to make, as between traders, an unjust discrimination in favor of auctioneers, who invest no capital in their business, and against permanently established and regular merchants, upon whose interest depends the life of legitimate trade.

Mr. Cutler verbally reported, without recommendation, Assembly bill No. 191, an Act to create a State Police, and to define the powers and duties of the same.

Mr. Cutler, from Committee on Public Morals :

MR. SPEAKER :—We, the undersigned, members of the Committee on Public Morals, to whom was referred Assembly bill No. 129, entitled an Act for the better observance of the Sabbath, have had the same under consideration, and beg leave to submit the following report :

We are of the opinion, that there is not as strict an observance paid to the Sabbath as the provisions of the bill require, yet it is due to the citizens of our State to say, that, by a very large majority of them, the day is as properly observed as their condition and necessities will permit. In the mining-districts in the State, the day is very generally observed by a cessation from labor by those engaged in mining pursuits, who compose the largest part of the population, as well as those engaged in agricultural and mechanical pursuits, and it is principally by those engaged in

mercantile pursuits that the day is not observed, as the provisions of the bill demand.

This does not arise so much from a desire on the part of those persons to keep open their places of business on that day, as that the necessities of the people demand it.

Owing to the arduous nature of the pursuits of our mining population, which, during six days of the week occupy their undivided attention, it is absolutely necessary that they be permitted on the first day of the week to transact such business as they may find necessary in providing for their wants for the week. To deprive them of this privilege would be to deprive them of a right which belongs to them, and work a hardship by compelling them to devote a portion of the time allotted to labor, to make this provision, which many can not well afford.

In the cities and agricultural portions of the State, by a large majority of the inhabitants the day is now very properly observed, and the comparatively few who do not so observe it, can not long continue to act contrary to the opinions and practices of the society of which they are a part; hence, we infer that in these portions of the State, did we admit of the justice of such a law, it is unnecessary.

The most objectionable feature, however, in the bill, is that portion which requires that all persons who religiously believe in and observe the seventh day of the week by closing their places of business, are not required to observe the first day of the week. This discrimination in favor of this class of our citizens, would act very injuriously to the interests of that portion of our business men in mining localities, who do not religiously observe the seventh day, for the reason, that it is well known by those familiar with the practices of miners, that they are generally in the habit of making such purchases as their necessities require, each week, on the first day of the week. Thus, all who do not observe the seventh day would be deprived of that part of the business transacted on the first day of the week, which otherwise would fall to their share.

Strike this objectionable feature from the bill, and its operation would be equally injurious to the interests, and an encroachment on the rights, of that class of our citizens who religiously observe the seventh day, by compelling them to observe and refrain from the transaction of any business on the first day of the week, thus virtually requiring them to close their places of business two days of each week, instead of one. In either case, such a law would work an injustice.

We are of the opinion, as our people advance in a social and moral point of view, the necessities for such a law will grow less.

We believe that the desirable object will be attained by the requirements of public opinion, as readily and effectually as by the enactment of a Sunday law.

We therefore recommend that the bill be indefinitely postponed.

NATHAN CUTLER, Chairman.
JOHN CALDWELL.

CHERRY, for the Delegation.

By Mr. Aud :

MR. SPEAKER :—The undersigned, of Special Committee to whom were referred certain resolutions introduced into this Assembly by the Hon. A. Pico, on the seventh of February last, proposing to segregate a portion of the lower part of the State of California, and erect the same into a territory, to be called, according to said resolution, "The Territory of Colorado," have had the same under consideration, and beg leave to offer the following as their minority report on the same :

The first of said resolutions proposes the consent of the Legislature of the State of California, "That all of that part of said State of California, which lies South of the sixth standard parallels South of the Mount Diablo base-line, composed of San Luis Obispo, Santa Barbara, Los Angeles, San Diego, and San Bernardino, including all of the islands lying opposite to its adjacent coast, to wit: San Miguel, Santa Rosa, Santa Cruz, San Nicolas, Anacapa, Santa Catalina, and San Clemente, be separated from said State, and organized as a Territory of the United States, under the name of 'The Territory of Colorado.'"

The fifth resolution, upon the presumption that the Legislature will, at this tenth session, give its consent, that said Counties and Islands shall be separated from the State of California, for the purposes aforesaid, proceeds to instruct our Senators in Congress, and request our Representatives therein, to urge upon that body the passage of a law providing for the immediate organization of a Territorial Government for that portion of the Territory of the State of California which this tenth session of our Legislature consents to leave out of the present State limits.

The introducer of these resolutions claims to derive the power which he attributes to this Legislature, and the Congress of the United States, and which he invokes to the supposed relief of his constituents, from the third section of the fourth article of the Constitution of the United States, which says that "New States may be admitted by the Congress into this Union; but no new States shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress."

The friends of these resolutions, or of this measure of secession, suppose that all that it is necessary to do, under this section of the Constitution of the United States, to accomplish their object, is simply that the Legislature shall give its consent to cede such territory to the United States, and then the Congress can legitimately proceed to erect said

Counties and Islands into a Territorial Government, as desired by the advocates of this measure.

All this would be very well, if the people, through the Constitution of this State, had vested the Legislature with the plenary power of altering the Constitution of this State at pleasure; which, fortunately for the liberties of the people, (in our opinion,) has not been done.

The twelfth article of our State Constitution describes what shall be the boundaries of the State of California, and thus makes the designated limits of the same as much a part of said Constitution as any other portion of the same.

This being the deliberate opinion of the undersigned, we think that the only way that the Legislature of this State can legitimately "give its consent" to the cession of said territory to the United States Government, is by pursuing one of the two modes pointed out by the State Constitution for changing or altering the same.

Section one of article ten, of the State Constitution, prescribes a mode by which that compact may be amended, through the instrumentality of the Legislature, and section second of the same article allows the power by which a revision and change of the entire Constitution may be made; but it is remarkable, that, in both cases, the people, as the reserved supreme power in the State, are finally to pass upon the amendments in the one case, or the new Constitution in the other, by a direct vote at an election before themselves, and, when they so elect, their choice is supreme, from which there is no appeal.

If the friends of this measure are really serious in the proposition shadowed forth in the resolution, and in the bill offered by the majority of this Committee, their proper course is to propose an amendment to the Constitution in relation to the State boundary, or urge the call of a Convention to revise and change the Constitution of the State.

The present Constitution of this State was framed by delegates, freely chosen, from all parts of the State, including the very territory proposed to be cut off, and then, after the same had been passed or agreed to, the Constitution was, in due form of law, submitted, as an entirety, to the entire people of the State, for their ratification or rejection, and the same was adopted by an overwhelming majority! And before this Constitution can be changed in any particular, without a revolution, the entire people of the State must have a vote on such change, and any change that this or any other Legislature would make, or attempt to make, would be utterly null and void.

But, for a moment, suppose that the Legislature has the power to change or alter the Constitution, (which, of course, we deny,) would it not be a delicate matter to exert such power, when it is well known by us all that no such question as altering the Constitution, in relation to the boundary of this State, or in any other particular, was submitted to the entire people of this State, at the election last Fall, when they chose us as their Representatives in this Legislature? We should, therefore, hesitate long, indeed, before we would put such power in execution, if we had it, when the question was not put to the people, whose servants we are at this time, merely for the purpose of enacting healthy laws for their governance.

The majority of the Committee have seen proper to offer a bill as accompanying their report, but the bill is as objectionable as the resolutions, as the bill simply proposes, in addition to what is contemplated in the resolutions, that the proposition to secede from the State, shall be submitted to the people of the territory proposed to be cut off alone.

We would therefore recommend an indefinite postponement of the whole subject-matter contemplated in the resolutions and bill.

By Mr. Taylor :

MR. SPEAKER :—The San Francisco delegation, to whom was referred Assembly bill No. 190, for an Act to confirm and legalize certain assessment-rolls of the City and County of San Francisco, and to provide for the collection of delinquent taxes thereon, have had the same under consideration, and respectfully report, that they have carefully considered the provisions of the bill, and that its sole object is to insure the collection of the delinquent taxes of the past three years in the City and County of San Francisco. The justice of compelling payment from men who have claimed and enjoyed for themselves and their property the protection of our Government, but who would throw upon others the burden of defraying its expenses, is so evident, that no one but a delinquent taxpayer could refuse his assent to it. The fact, that for two or three years these men have been successful in shirking the payment of their dues to the State and County, is an additional reason why they should now be taught the futility of such attempts to defraud the State of her revenue. The delegation would therefore most earnestly recommend the passage of the bill, with certain amendments, herewith submitted.

COMMUNICATION FROM THE GOVERNOR.

The following communication was received from the Governor, in relation to the Board of State-prison Directors, which was referred to State-prison Committee :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
 Sacramento, March 7, 1859.

To the Assembly of California :

A bill has passed the Senate, and is now pending, in your honorable body, which proposes to continue the Governor upon the Board of State-prison Directors, to which I beg your attention :

During the past year, as a member of the Board, I devoted, altogether, some two months of my time exclusively to this Institution, and it is probable that during the coming year much more more attention will be demanded, for the reason that none of the Directors named in the bill can be expected to reside at the Prison. The Prison has already given me much trouble and anxiety. This was anticipated, but I was willing to endure it in an effort to reduce the expenses, reform the Institution, and place it upon a respectable footing.

Having, in conjunction with the other members of the Board, succeeded in accomplishing this, to some extent, I think that I am entitled to a discharge. I venture the assertion, that in no other State are the duties of the Governor so varied and so arduous as in California. Many of the most difficult duties have been imposed upon the office since I entered it, while the compensation, as compared with that of my predecessors, is very materially diminished.

The Prison is located so far from the Seat of Government that it is exceedingly inconvenient for the Governor to visit it, and I would not be willing to be held responsible to the public for its management, unless I could go there frequently.

I am, therefore, constrained to request your honorable body to amend the bill by substituting some other officer or person, in place of the Governor. In making this request, I wish it distinctly understood that I have no objection whatever, to the changes which have been made in the other members of the Board.

The two gentlemen named in the new bill are as acceptable to me, in all respects, as my old associates.

JOHN B. WELLER.

COMMUNICATIONS FROM THE ATTORNEY-GENERAL.

The following communications were received from the Attorney-General:

ATTORNEY-GENERAL'S OFFICE,
Sacramento, March 7, A. D. 1859. }

To the Assembly of the State of California :

I have delayed answering your resolution, adopted on the eighteenth ultimo, with a hope of obtaining more satisfactory information in relation to the chances of recovery, in the suit which I instituted against McMeans, Treasurer, than I was in possession of on the twentieth of January, the date of my report to the Legislature of the general examination of his (McMeans') books and accounts. I regret to state that I am unable to add any information to that which is contained in said report.

Respectfully, etc.,

THOS. H. WILLIAMS, Attorney-General.

ATTORNEY-GENERAL'S OFFICE,
March 7, 1859. }

To the Assembly of the State of California :

The undersigned would respectfully, but earnestly, request that the Attorney-General be excused from acting as one of the State-prison Directors, as proposed in the bill which has passed the Senate, and is now pending before this House, and would state the following as his chief reasons for making such request, to wit : that he will not be able to devote all the time in the discharge of the duties of such office as its importance will require ; that he is well satisfied that the expenses of the State-prison during the next year will greatly exceed those of the past, on account of the increase of convicts and the advanced cost of provisions ; that about all of the necessary improvements at San Quentin have been made during the past year, and hence, there will not be employment for the convicts sufficiently remunerative to make reasonable offsets to the expenses of that institution. The consequences, therefore, will be, that, with great plausibility, mismanagement will be charged against the direction of the next year, and unjust comparisons instituted between that and the past.

The undersigned feels it a duty which he specially owes to himself, to make this request.

Respectfully, etc.,

THOS. H. WILLIAMS, Attorney-General.

The above communication was referred to the State-prison Committee. Mr. Hines moved a call of the House.

P. LYNCH, Chairman.

By Mr. Banks:

MR. SPEAKER:—The undersigned, a minority of the Committee on Public Morals, to whom was referred Assembly bill No. 131, having carefully considered the same, begs leave to present the following report:

The stringent law against gaming now on our Statute-book has, in our Cities and large Towns, driven gambling from public view, and greatly reduced the amount of this kind of crime. Although, on account of the condition of public sentiment in some localities, it may be difficult to thoroughly enforce the provisions of this Act in all parts of the State, it can not be doubted that the severity of its penalties greatly retards the practice of this fascinating and ruinous vice, which was formerly the open undisguised disgrace of our State. Good policy would dictate that a law that has exerted an influence so beneficial, should not be materially changed. The difficulty in procuring sufficient proof against gamblers is such, that it is rarely a conviction can be secured, and hence it becomes necessary to have severe penalties, in order to deter men from engaging in and pursuing this pernicious business.

My observation during the last session of the Legislature convinced me that the proposing of any amendments to the Act for the suppression of gaming, is a dangerous experiment; one which, on account of the influences that can be brought to bear in favor of the gamblers, is more likely to result in the enactment of provisions of which they can take advantage, than in the adoption of amendments giving greater efficiency to the law. I have, therefore, not felt disposed to encourage the introduction of any bill proposing to amend this Act, although slight amendments are desirable.

Assembly bill No. 131, is, in my opinion, objectionable in the following particulars:

As amended, it makes the dealing of a banking-game a misdemeanor instead of a felony, and thus, in a great measure, removes the restraining influence of the severe penalties of the present law, without contributing to the certainty of conviction.

By reducing the fees of the District-Attorney from one hundred dollars to twenty-five dollars, it removes, to a considerable extent, his inducement to prosecute these cases with vigor.

It confines the penalty for betting against a banking-game, to a comparatively trifling fine, entirely removing the imprisonment penalty in such cases, and it materially lessens the penalty which may be inflicted on those who knowingly permit their buildings to be used as gambling dens.

For these reasons, in connection with those that follow, I recommend the adoption of the accompanying bill as a substitute for Assembly bill No. 131.

The proposed substitute includes rondo and keno with banking-games; it provides for punishing, by fine and imprisonment in the County-jail, those who confine their gambling arts to games of chance, other than banking-games; it also gives the Courts a reasonable discretion in regard to the punishment of those who permit their houses to be used for gam-

bling purposes, and it extends the provisions of the Act to those who own or control steamboats, and other vessels, on which gambling is now frequently practiced.

While I regret to differ so widely with my associates on the Committee, in regard to this subject, I can not avoid the conviction that the passage of the bill they recommend would be a backward step in the moral advancement of our State; would be contrary to the wishes of the most worthy portion of our constituents, and detrimental to the best interests of society.

J. A. BANKS.

Substitute, above reported, read first and second times, and placed on file.

By Mr. Robberson :

MR. SPEAKER :—Your Committee, to whom was referred Joint-Resolution providing for a Railroad Convention of the State of California, and the Territories of Oregon and Washington, report the same back, with a substitute, and recommend the passage of the substitute.

REPORTS.

Reports were made as follows :

By Mr. Roane :

MR. SPEAKER :—Your Committee on Elections, to whom was referred the petition of Warren N. Bacon, asking that he may be duly declared elected a Member of the Assembly for the County of Sacramento, have had the same under consideration, and now ask leave to make the following report :

The petitioner, in effect, states that at a special election held in and for the County of Sacramento, on the nineteenth day of February, one thousand eight hundred and fifty-nine, for a Member of the Assembly, Charles Duncombe received one thousand four hundred and sixty-six votes, and that petitioner received one thousand two hundred and ninety-six, which was the highest number thrown for any person entitled to said office ; that Charles Duncombe had not been a citizen of the State one year, and of the County six months, next before his election, as is required by the Constitution of this State.

The fact that the petitioner received a smaller number of votes than another candidate, running for the same office, ought, in our opinion, to

exclude him from a seat in this body. The theory of our Government is, that the people govern, and in all cases where a clear majority is against a candidate running for office, that fact alone ought to be conclusive against him. Any other rule would deprive the people of their right to elect, and confer that power upon the body trying the contest. Suppose, at an election A receives ten votes, and B receives ten thousand, and it turns out, upon investigation, that B is not eligible to the office, will it be said that A ought to be declared elected? We think not, and yet there is, in principle, no difference between that case and the one now before the House. We recommend that the seat claimed by the petitioner be declared vacant.

MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 11, 1859.

To the Assembly of California :

I have to inform your honorable body that I, this day, approved an Act to define the boundaries, and to provide for the organization of Mendocino County.

JOHN B. WELLER.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 12, 1859.

To the Assembly of California :

In compliance with the resolution, of your honorable body of the tenth instant, I transmit, herewith, copies of certain letters and dispatches which will furnish you all the information in my possession, touching the difficulties with the Chinese in Shasta County.

JOHN B. WELLER.

SHASTA, March 2, 1859.

To His Excellency, J. B. Weller :

SIR :—There is at present, in this County, some three hundred armed men, whose object is to expel the Chinese from portions of this County, regardless of the law, and its officers. The mob is composed almost entirely of reckless and irresponsible men, most of them from portions of the County where the Chinese do not work the mines. I have endeavored, as far as possible with the means at my command, to prevent it, and have arrested several as rioters ; but it is almost useless, as we can not get convictions. They will avoid the authorities, while in the act of destroying property belonging to the Chinese, and their numbers deter men

from informing on them, and, if arrested while driving them, *they will prove* that no violence has been used, and that they have violated no law in marching behind them, etc. I know of no way to get at the matter, to effectually stop any further outrage, except to send the Chinese to the district from whence they have been expelled, and station a party of armed men in each district, who will be present and prepared at all times to defend them, and show them that, if the laws can not be peaceably enforced, extreme measures will be used. I am anxious to enforce it, at any cost, as I think that *effectually putting down a mob* in any one County, would have a beneficial effect throughout the State. A large majority of the citizens here are ready to respond cheerfully to any call that I may make upon them. Many do not sustain me as they should, on account of the expense the County will necessarily incur. I *regret* to say they would rather the law should be violated, than to be burdened with an addition to our already large debt.

Be assured that I will use every possible means in my power to prevent any further outrage. *The law shall be sustained in this County*, while I am an officer. Any advice from you would be thankfully received.

With high regard, I remain, yours, etc.,

H. C. STOCKTON.

[Telegraphic Dispatch—By Telegraph, from Shasta.]

SHASTA, March 2, 1859.

To Governor J. B. Weller :

Large bodies of armed men are organized in this County, for the purpose of doing violence against the laws of the State. I have not the means (neither can I procure them) of arming and equipping a *posse* to arrest or suppress these unlawful proceedings. I want the State authorities to send me, immediately, one hundred rifles, with necessary accoutrements; also, one hundred rounds of ammunition; with which aid I believe I can execute legal process, without further assistance from the State authorities.

Answer immediately.

H. C. STOCKTON, Sheriff Shasta County.

[Answer.]

MARCH 2, 1859.

The law must be maintained, at all hazards. Will send up an agent, with arms, to-morrow.

WELLER.

To H. C. Stockton, Sheriff Shasta County.

MARCH 3, 1859.

Sheriff Stockton, Shasta :

Can not send arms until arrangements are made to prevent them from being intercepted by the rioters.

WELLER.

[By Telegraph, from Shasta.]

MARCH 3, 1859.

To Governor Weller :

I will see that the arms are not intercepted after they reach the Bluff. A great deal of feeling. My posse one hundred and fifty strong, and increasing. Mob active—about three hundred strong. Want arms badly. No danger of a conflict for some days. I think—at least, I hope—not at all. If there is, it will be severe, for I am resolved to sustain the law, in its strictest sense. The mob are waiting to increase their force. I think trial of some has been postponed until to-morrow. Have threatened that their men shall not stay in prison. Some four have surrendered their bail, and are in prison.

Not many of them in Town now—send arms as soon as possible.

H. C. STOCKTON, Sheriff.

[Answer.]

EXECUTIVE DEPARTMENT,
Sacramento, March 3, 1859. }

Too late for to-day's boat—will send up one hundred rifles and ammunition on Saturday, to Red Bluff, in charge of an agent.

If men are required, say so at once, and a company will be dispatched.
WELLER.

H. C. STOCKTON, Sheriff Shasta.

[By Telegraph, from Shasta.]

MARCH 3, 1859.

To Governor Weller :

Men enough here for present emergencies, if properly armed. Send a hundred additional arms, if possible.

H. C. STOCKTON, Sheriff.

[Answer.]

SACRAMENTO, March 3, 1859.

I will forward all the effective arms we have. I can send an excellent corps with them, if necessary.

Telegraph to me in the morning.

WELLER.

H. C. STOCKTON, Sheriff Shasta.

[By Telegraph, from Shasta.]

MARCH 4, 1859.

To Governor J. B. Weller :

I have good men enough here, when well armed, to enforce the laws. All quiet this morning. Trial of some of the rioters to-day. Say they will not stay in prison, if sent there. They shall!

H. C. STOCKTON.

[Answer.]

MARCH 4, 1858.

The "Sutter Rifles" are very desirous to retain their arms. Have one hundred and thirteen splendid rifles unpacked in boxes; if these will be sufficient, in your opinion, I will not draw on the Company, otherwise, answer immediately.

WELLER.

H. C. STOCKTON, Sheriff Shasta.

[By Telegraph, from Shasta.]

To Governor Weller:

The one hundred and thirteen rifles will be sufficient, at present. I will meet them at the Bluff, with a company.

H. C. STOCKTON.

[Answer.]

MARCH 4, 1859.

Col. E. J. Lewis, of Tehama, goes up with the rifles, etc., in the morning; they will be found in good order; two thousand five hundred ball-cartridges.

WELLER.

H. C. STOCKTON, Sheriff Shasta.

EXECUTIVE DEPARTMENT,
Sacramento, March 4, 1859. }

SIR:—Having received official information that there is an organized resistance to the execution of the laws, in the County of Shasta, I have caused one hundred and thirteen rifles, with the necessary accoutrements, and two thousand five hundred ball-cartridges, to be placed on board a steamer, bound for Red Bluff, which you will take in charge for his use. It is expected that the Sheriff of Shasta, with a sufficient force, will be there to receive them. You will take care, before you land the guns at Red Bluff, to ascertain whether there is any excitement at that point. If there is any danger of the arms being intercepted by the rioters, or those who sympathize with them, you will, (if the consent of the Commander of the boat can be obtained,) drop down the river, remove the guns from the boxes, and put them in proper order for immediate use. Whenever you can secure the services of a sufficient number to force a landing, do so. If the Sheriff or his agent is not at Red Bluff, you will telegraph him; and, in the meanwhile, have the arms deposited in some secure place. In delivering the arms, etc., to the Sheriff, you will take his receipt therefor, and proceed with him to Shasta. As soon as you reach that point, telegraph, and keep me advised of all the movements which are made by the respective parties.

As soon as the conflict is terminated, you will see that the arms, etc., are safely packed, and returned again to the State-Armory, as they are required in other sections of the State.

[Signed,]

J. B. WELLER.

Col. E. J. LEWIS, Esq.

EXECUTIVE DEPARTMENT,

Sacramento, March 4, 1859. }

SIR:—In compliance with your request, I have forwarded, per E. J. Lewis, Esq., (who has been appointed agent for this purpose,) one hundred and thirteen rifles, with the accoutrements, and two thousand five hundred ball-catridges, to aid you in enforcing the laws of the State. I trust that there will be no necessity for their use—but the laws must be maintained, come what may. I had hoped, that, amongst Americans, they would be respected without the use of force, but if it is required, it must be used, and I doubt not, from your dispatches, that these arms can safely be entrusted to you. I know you will make no compromises with men who have taken up arms to resist and overthrow the laws of the land. If the rioters attempt, as they have threatened, to rescue the prisoners now in your charge, I hope you may be able to teach them a lesson which will be useful in the future.

This spirit of mobocracy must be crushed out, no matter what blood it may cost. As these guns are necessary in other portions of the State, you will see that they are not injured or lost, and as soon as the supremacy of the law is established, deliver them, with the accoutrements, to Mr. Lewis, who is authorized to receive them. Colonel Lewis will accompany the arms to Shasta, and should a conflict take place, you will find him useful.

Relying upon your prudence and firmness,

I am, very truly, your obedient servant,

J. B. WELLER.

H. C. STOCKTON, Sheriff, Shasta.

EXECUTIVE DEPARTMENT,

Sacramento, March 4, 1859. }

SIR:—You will proceed, at once, to put in proper order for shipment, one hundred and thirteen rifles, with all the accoutrements, and two thousand five hundred ball-catridges. The arms, etc., to be placed on the steamer to-morrow, for Red Bluff, in charge of E. J. Lewis, Esq., who has been appointed agent for this purpose.

JOHN B. WELLER.

To the Keeper of the Armory.

EXECUTIVE DEPARTMENT,

Sacramento, March 4, 1859. }

SIR:—I am sending Colonel Lewis, on the steamer bound for Red Bluff, to-morrow, with one hundred and thirteen rifles, and some ammunition, to aid the Sheriff of Shasta County in maintaining the laws of the State, which have been resisted by organized companies.

I have instructed him, in regard to landing the arms at Red Bluff, in the event an effort should be made by the rioters, or their sympathizers, to intercept them. He will explain. If you can properly direct the Captain of the boat, to carry out my wishes, I will be obliged. As there is no fund out of which to pay the freight on these arms, I trust you will await an appropriation by the Legislature.

[Signed,]

JOHN B. WELLER.

Gen. A. REDINGTON.

[By Telegraph, from Red Bluff.]

MARCH 6, 1859.

To Governor Weller :

Sheriff Stockton is here with his men ; I have delivered the arms ; start for Shasta in the morning. The mob have spies here. Things look quiet at present.

E. J. LEWIS.

[By Telegraph, from Shasta.]

To Governor Weller :

Arms arrived all right. Things look quiet at present. Sheriff thinks that there is a secret organization of the rioters ; he has been informed that they have signs and passwords.

E. J. LEWIS.

[By Telegraph, from Shasta.]

To Governor Weller :

Will it be necessary for me to remain here longer? The Sheriff thinks he will need the arms for two months.

E. J. LEWIS.

[Answer.]

MARCH 9, 1859.

Col. E. J. Lewis, Shasta :

No—it is not. The arms can not be retained there two months—they are needed elsewhere.

REPORTS.

Reports were made as follows:

By Mr. Laspeyre:

MR. SPEAKER:—The Committee on Claims, to whom was referred Senate bill No. 147, "An Act to compensate the Warden of the State-prison," having had the same under consideration, together with the Journals of State-prison Directors, as evidence of the equity of said claim, have carefully examined said evidence; also, the Act creating the Board of State-prison Directors, and find there is no authority contained in the Act, by which we are authorized to allow said claim.

We find, in the Journals of the State-prison Directors, an order, made on the seventeenth of May, one thousand eight hundred and fifty-eight, that the Lieutenant-Governor, who was appointed Chief-Warden, should receive no additional compensation for his services as such officer, and the per diem allowed in the Act creating the State-prison Directors, to the Lieutenant-Governor, was to be paid only during the session of the said Board.

We, the Committee, believe that the Lieutenant-Governor, who acted as Warden, is only entitled to per diem for the actual number of days that the Board was in session, it appearing by said evidence, the time served in session by him was sixty-eight days, including going to and returning from the State-prison.

In view of these facts, the Committee beg leave to report the bill back, and recommend its indefinite postponement.

MAJORITY REPORT.

MR. SPEAKER :—Your Committee, to whom was referred the matter of the immediate necessity of the erection of a bulk-head, or sea-wall, in front of the City of San Francisco, beg leave to report :

That, in pursuance of the resolution adopted by the Assembly on March first, providing for a Committee of five, to be appointed "to visit San Francisco, with power to send for persons and papers, for the purpose of obtaining reliable information as to the immediate necessity of constructing a bulk-head, or sea-wall, along the water-front of that City," your Committee proceeded at once to San Francisco, and entered upon the discharge of their duties, with a consciousness of the importance of the subject, and a deep and sincere desire to execute the delicate trust confided to them, with entire impartiality.

Your Committee met in that City on the fifth day of March, and continued their sittings until the twelfth. A full and accurate report of the testimony taken before it, is herewith submitted.

Your Committee do not propose to fully review and analyze the mass of testimony adduced before them, or to enter at length upon an examination of the various theories which were presented and insisted upon by those who respectively affirm and deny the necessity of a speedy commencement of a work, looking both to the preservation and improvement of the only great City and Harbor—not only of this State, but of the entire coast of the Pacific—but leave each member to form his own conclusion from the testimony herewith submitted.

The resolution itself, would imply the admission that at some time the commencement of such a work was necessary, but, in addition, required an examination as to the *immediate* necessity of such a commencement. Your Committee found, as the evidence progressed, and the magnitude and importance of the undertaking developed itself, that several years must necessarily be required for the construction of such a work. And if, as your Committee feel fully convinced, the erection of such a work ought long since to have taken place—that the Harbor has suffered from its delay—that the absence of a permanent barrier along the line of the City-front has been a great evil—the sooner such evil is remedied the better; for, if necessary in two, three, or four years, it is necessary to commence it immediately—as such a work could not be constructed short of that time, and until accomplished, our great Harbor must suffer.

For the purpose of eliciting all the information possible, and, also, for confining the evidence to the information required by the resolution—the following order of business was adopted :

First—The examination of those who were of the opinion that a bulk-head was not immediately necessary.

Second—Those who held a contrary opinion.

Thereby affording the friends of either side an opportunity of pro-

ducing such testimony as they saw fit to offer, in support of their opinions.

From the fact that the Governor has called the attention of the Legislature to the subject, in his Annual Message, and that former Legislatures have entertained the subject of the construction of some such work, to protect the Harbor from the effects of shoaling, and to allow the front part of the city to be filled in and improved, your Committee deemed it to be an admitted fact, and "foregone conclusion," that such work was necessary, and can not forbear from expressing the opinion that the cause of the contest—formerly, as now—was not as to the necessity of the work, but as to who should accomplish it.

The question of the preservation, from whatever cause, of the great and only Harbor, of any magnitude, of our State, is one which extends beyond the present hour, and can not be affected by the mere opinions of any collection of individuals, wherever located, or however numerous or respectable, except so far as those opinions may be formed and regulated by facts applicable, in this instance, to the actual condition of the Harbor, and of the utility and necessity, arising from that condition, of works for its protection and permanent security. This Harbor is of world-wide renown, and the commerce of every civilized nation is interested in it. We, therefore, even as a State, have no exclusive ownership in it, in any contracted or prohibitory sense, or in any sense that would authorize us to permit injurious encroachments on it, or that would justify us, if we omitted to provide a remedy, when encroachments were actually made or threatened.

In considering and weighing the testimony, it seems to the Committee that, adhering to the terms and clear intent of the resolution, their attention and that of the House should be called to that portion of the evidence which speaks from actual knowledge of the Harbor, and from a long course of observation and soundings along the water-front of the City of San Francisco. While the undersigned have not the most remote intention to detract from the integrity, or to call in question the superior intelligence, and high professional attainments, of some of the witnesses called before them, who seemed rather to draw conclusions from abstract theories presented to them, than to speak from any actual knowledge of the various peculiarities of the Harbor of San Francisco, still the Committee are thoroughly impressed with the conviction, that the facts emanating from sources which spoke from actual acquaintance with particular localities, from frequent surveys and personal observations, from the year one thousand eight hundred and forty-nine to the present time, seeing the harbor shoaling from day to day, observing the cause, noting the extent in proportion as that cause was in operation—are those which are entitled to the greatest weight, and by an examination of the testimony adduced by those who consider *no* bulk-head is at all necessary, it will be seen that it is clearly conceded, that such work is necessary at some time, and upon certain contingencies, though differing materially as to the period and character of the contingencies.

The object of those opposed to the immediate construction of the work referred to, was to establish the fact that the construction of a bulk-head would not have the effect to prevent the deposit of mud upon the front of San Francisco, but that the construction of wharves, at right angles to the front-line, was, and would continue to be, the primary cause of said deposit, holding it in and about the piles and bents; and, further, that this deposit is the result of the accumulation on the surface, carried there by the current, and that such can not be removed, except by a current of

greater force than that which placed it there; and that no portion of this deposit could be attributed to the filling-in of the water-lots inside of the line of the City-front, but that the accumulation resulted entirely from the deposit of matter held in suspense by the waters of the Bay.

The object of those favorable to the immediate construction of a bulk-head, was to establish the fact that the cause of the present deposit in front of the City has been the removal of mud from the plateau of San Francisco by the artificial deposit used in grading streets and building-lots, and the erection of heavy structures thereon; and such being the case, that the present embankment of mud in front of the City is the result of the pressure of this artificial material, and has resulted in the equalization of the pressure from within, and the resistance; and that it will be impossible to remove any portion of this resistance without a simultaneous effect upon the pressure from within forcing other material to the front to counterbalance that pressure, thus keeping up a constant equilibrium between the two forces; that a bulk-head of firm and immovable material between these two forces is indispensable, before dredging can be resorted to, as the only mode of removing the present obstruction in the Harbor.

The above, we think, are the two positions assumed by the opposite sides before this Committee, and from these positions, with the evidence and our own personal observations, we submit the following deductions:

First—That the primitive cause of the filling of the slips and Harbor is the excessive and rapid deposit of material from the hills into the cove, consequent upon the rapid growth of the City, and that such artificial deposits have necessarily removed the natural deposits originally there, and thrust it outward.

Second—We are led to the conviction, by the facts adduced before us, that this present embankment of mud has reached an extent five thousand feet in length, six hundred feet in breadth, and eighteen feet in depth, (the accumulation of four years—i. e., from one thousand eight hundred and fifty-three to one thousand eight hundred and fifty-seven, as shown by chart of Capt. James Alden,) and is essential, (in the absence of an artificial abutment,) for the upholding and protection of the present improvements of the lower portion of the City; and here we find the impossibility of the Harbor being improved by any system of dredging, without injury to private municipal rights—inasmuch as the removal of this embankment, or any portion of it, in the absence of an artificial abutment, can only result in being refilled by material now covered by streets, graded lots, and buildings.

Third—We are forced to the conclusion that no other action can be taken, which shall have for its end a permanent relief to commercial interests in which the State at large has the major share, or a permanent foundation upon which to construct the commercial emporium of the Pacific, than the erection of a substantial abutment, on the City-front, and afterwards, a system of dredging.

For the following reasons, we believe that the immediate construction of a bulk-head is necessary:

First—That commerce in its operations will be restored to its original condition, which nothing should ever have been permitted to interrupt, and which it has a right to demand of the people of California.

Second—The prevention of accumulation of reasons why the front of the City of San Francisco should be extended further into the Bay, to the great and irreparable injury to that Harbor and City.

Third—That we believe the work may be constructed on the established line of the City-front, with greater facility and at a less cost, now, than hereafter, inasmuch as delay will only tend to render the material through which the work must penetrate, harder and more difficult of penetration and removal.

Fourth—The construction of this wall would enable the property on this line of front to be improved, and, as a consequence, the same would be covered with buildings, to be used for storage of all articles of importation or exportation, and thus be an immense saving to our mining and agricultural population in their consumptions, and the latter, in the shipments of their productions.

Fifth—It will enable the present unoccupied property of San Francisco to be built upon, commencing with the line of front and progressing inward, and thus result in great saving of material for grading, retaining as it would, that material, which otherwise would be forced outward.

Sixth—It would enable the City authorities to erect streets with permanency, thus removing the present holes and man-traps, with which the front of the City is covered.

Seventh—It would prevent the flow of tide through the grade of the City, filling the cellars, as is now the case, which necessarily involves the pumping out to relieve the same, and which is constantly injuring the foundation of buildings.

Eighth—It will reconcile all conflicts of interest, and establish on a firm and reliable basis from which to calculate, all the elements of commerce concentrated in that City.

Ninth—It will result, by all the various effects before enumerated, in the increase of taxable property, to an extent worthy of our most grave consideration.

The Committee, in closing this report, would give it as their decided conviction, from a full review of all the facts and a careful analysis of all the evidence, that to maintain the present established water-front of the City of San Francisco in its integrity, and to preserve the Harbor from further and continued injuries and obstructions, the immediate erection of a permanent bulk-head or sea-wall, is indispensably necessary.

Respectfully submitted,

H. GWINN, Chairman,

MINORITY REPORT.

The undersigned, a minority of the Committee appointed to proceed to the City of San Francisco, and take testimony concerning the immediate necessity for the construction of a sea-wall or bulk-head around the water-front of said City, is unable to concur in the report of the majority of such Committee.

From the language of the resolution appointing the Committee, it is at least doubtful whether the duties of the Committee were not limited to the taking of testimony, and reporting the same to the Assembly, without expressing any opinion thereon; but, inasmuch as the majority of the Committee have seen proper to report their conclusions from the testimony taken, the undersigned deems it his duty to briefly state some of the reasons which constrain him to dissent from the opinion of the majority of the Committee.

The Committee, as well by the terms of the original resolution under which they acted, as the brief time allowed them for investigation, were confined in their inquiries to the general question of the necessity of immediate legislative action to provide for the construction of a permanent wall or bulk-head on the water-front-line of the City, for the protection of the Harbor, and they did not, therefore, extend their inquiries into the relative merits or practicability of any of the various plans now before either branch of the Legislature.

The necessity for a sea-wall has been supposed to arise from the gradual shoaling of the waters in the Bay, threatening, at no distant day, to close the present slips, and thus prevent the approach of vessels to the various wharves or landings.

That very great shoaling has taken place, is a fact of general notoriety, and although not to an extent to have as yet produced any serious inconvenience to shipping, still, perhaps, to a sufficient extent to create apprehensions for the future, and to justify anxious inquiry as to the cause of the evil, and the proper remedy to be applied.

The testimony taken has elicited a vast amount of information, and will doubtless tend to allay the alarm which has, to some extent, existed in the minds of property-holders along the City-front as to any immediate serious injury to the Harbor, or to their property, by the closing of the slips.

The filling-up or shoaling of the slips and other portions of the Harbor, can not fairly be attributed to any one cause, but to a variety of causes; nor can it be determined satisfactorily to which of the various causes it is mainly attributable. While many of the witnesses are of the opinion that the primary cause is the filling-in of water-lots, and thus pressing the mud out into the Bay, others are equally confident in the opinion that the construction of the numerous wharves in the Bay, at right angles to the shore, and by which the slips are formed, is the principal cause; and others again are of opinion that the numerous hulks of vessels which, till a recent date lined the Harbor, contributed largely to the result.

It is fair to conclude that all of these causes have had their influence, but to what extent, and how much is justly owing to each, can not be determined with any degree of exactness. If the question was to be determined solely by experience in Sea-port Towns and Harbors in other parts of the world, and by the application of natural laws, there would be little difficulty in arriving at a conclusion. Because there can be no question, with such lights before us, that the artificial projections, extending into the Bay, are a sufficient cause for a vast amount of shoaling, and that, if allowed to progress, without the accumulations being removed, would in time cause the slips to fill up to an extent that would prevent the entrance of vessels. And it is equally clear, that the construction of a continuous sea-wall would tend in no respect to prevent it, so long as such projections remain.

The difficulty here arises from the fact that the great number of wharves which extend into the Bay along the entire front of the City, from Rincon Point, on the south, to Meiggs' Wharf, on the north, a distance of three miles, or thereabouts, were mostly constructed during the period within which most of the water-lots were filled in, so that while it is true that the shoaling commenced as the filling-in progressed, it is equally true that it commenced with the construction of the wharves. And it is obviously impossible to form any reliable opinion as to the relative amount of shoaling produced by each of these causes.

It may be confidently assumed, however, that but for the obstacles presented by the wharves, much of the accumulations caused by the filling-in of the adjoining lots would have been carried away by the current.

It is sufficiently established, that but little shoaling has taken place since the removal of the hulks, about the beginning of the year one thousand eight hundred and fifty-seven, excepting in and about the wharves, within the basin or space formed by Market Street and Pacific Street Wharves; and the shoaling at this point is fully accounted for, and can not be better expressed than in the language of the witness, Captain Gilmer, that "in case of wharves of unequal lengths, there would undoubtedly be more filling at the ends of the shorter wharves, than at the ends of the longer ones, as the outside of the bank deposited will generally assume a position and direction nearly tangent to the more salient points of the obstruction."

That wharves constructed in the manner now existing at San Francisco will invariably cause deposits and make land, is, as already observed, an established fact, and hence the universal practice in all Sea-port Towns where such structures exist, of removing such deposits by dredging.

It is a singular fact that this common mode of keeping navigable waters in Bays and Harbors free of obstructions, has not been resorted to here to any extent.

If, when the shoaling first commenced, this simple and common means of keeping the slips free, had been put in practice, there is no reason to doubt that it would have been as effectual as it is known to be in other places. Why this vast accumulation has been permitted, with a preventive so readily at hand, it is not easy to perceive.

Most of the front of the City affording wharf accommodations is held by individuals or companies, under leases from the City of San Francisco, which have not yet expired. When the privileges under these leases were granted, wisdom should have dictated the precaution of binding the lessees to keep the waters over which they were invested with almost exclusive control, free from obstruction, and in a proper condition to serve the conveniences of commerce. But this seems not to have been done, under the supposition, doubtless, that self-interest would prompt them to use all proper means to make the franchises productive. That no attempt has been made to remove the deposits of mud from the slips, affords some evidence, at least, that the evil is not as great as has been apprehended, since it may be reasonably inferred that had abridgment of wharf accommodations taken place to such an extent as to impede commerce, an energetic effort would have been made to remedy the evil, either by dredging out the slips, or constructing new wharves.

The more important question connected with improvements on or near the water-front, is one that can not be said yet to have arisen, and can only arise when property-owners are desirous to improve their lots fronting on the Bay.

That some abutment or bulk-head will be required, as well for the convenience of the public as for the interests of the owners of lots improved, is quite clear; such is the practice elsewhere, and will necessarily be so here—not alone for the preservation of the Harbor, but for the interest and convenience of the owners of property.

When the time arrives, doubtless, the City and persons directly interested, will be sufficiently alive to their own interests, to devise the best means of accomplishing the object. Abundant power will be found in

the Charter of that City, to prevent any encroachments on the Harbor or injury to commerce.

That no present legislation is required, is evidenced by the fact that none has been asked for by the only persons who are interested—the property-holders.

All applications for a sea-wall have, as yet, been made by parties who are desirous of securing the privilege of constructing the work—not to protect any present interest, but solely for the value of the franchise.

But, whatever difference of opinion may exist as to the ultimate necessity of a continuous wall around the City-front for any purpose, there ought to be none on the point that there is no immediate necessity for entertaining the project.

From a tide of unparalleled progress and prosperity, San Francisco was plunged into an almost equally unprecedented state of financial distress and embarrassment, through which she has been struggling for the past three years, and from which she has not yet fully emerged. All improvements were stopped, and with them, the filling-in of the water-lots. It is not likely to be soon resumed. If that is really the cause of the Harbor's shoaling, all appropriations may safely cease, for some time to come. Meantime, the slips should be dredged, and, what is of most importance, in view of any future action, a thorough survey of the Harbor should be made, under the direction of competent and skillful engineers, in the manner suggested in the Annual Message of the Governor.

Many other views might be presented, but would extend this report to an unreasonable length.

The undersigned has arrived at the conclusion, and so reports, that, from the investigation had before the Committee, no immediate necessity exists for the construction of a sea-wall or bulk-head on the line of the City-front of the Bay of San Francisco.

REPORTS.

Reports were made as follows :

By Mr. Rodgers :

The undersigned, a Special Committee, under a resolution appointed to proceed to Oakland, and to examine that locality, with reference to the expediency of establishing the permanent Seat of Government of the State at that point, have to report that they have examined the location with reference to that purpose.

Your Committee can not express themselves with more force and per-

tinence than in the sentiments and language of a Special Joint Committee of both Houses of the Legislature, who were appointed last year to proceed to Oakland, charged with similar duties. The undersigned reiterate the language of the report made by that Committee in reference to Oakland.

"The natural advantages of the site, in point of salubrity, genial temperature of the climate, dryness of the soil, and beauty of scenery, we believe are second to those of no other point in this State. This location may be considered as the focal point of the navigable waters of this State, as well as of any system of internal improvements and communication by railroad and telegraph, which may hereafter be carried into practical effect.

"It is sufficiently near the commercial metropolis to enjoy all the advantages of early information from the Eastern States and foreign countries, as well as from the interior and remote Counties of this State—is convenient of access to the best and most extensive libraries, while sufficiently removed from the noise and bustle of the City to preserve all the benefits of a quiet suburban location."

Such were the conclusions of the Committee of last year, and the undersigned emphatically indorse and corroborate them. The economical considerations, to which the attention of the last Legislature was brought by the report of its Committee, have lost none of their weight or force. The State is now, as it was then, paying rents, for the accommodation of the Legislature, Supreme Court, State officers, and Committee-rooms, an annual sum of twenty thousand dollars, or more, and for mileage of Legislative Committees, to visit San Francisco, the State-prison, and Lunatic Asylum, annually, about three thousand dollars more.

In addition to this, a sum of (\$120,000) one hundred and twenty thousand dollars, is now called for to commence a Capitol at Sacramento, an edifice which can not be completed under two years, nor without the aid of another appropriation for a like sum.

These heavy draughts upon the treasury, your Committee do not think the condition of our State finances will justify. On the contrary, they deem it a duty to cut off all useless expenditure, and to economize in every item. This, a removal of the Seat of Government to Oakland under the provisions and conditions of Assembly bill No. 261, introduced by the Assemblyman from the County in which Oakland is situated, will enable the State to accomplish in part. The bill proposes to erect a suitable building in some convenient place in the City of Oakland, for the use of the Government of this State; that the dimensions of the said building shall not be less than those of the building now occupied by the Legislature as a Capitol at Sacramento. The interior arrangements of said building to be under the supervision of a Board of Directors, to consist of the Secretary of State, the Surveyor-General, and the Chairman of the Board of Supervisors of Alameda County.

A donation of ten acres of land in the City is also tendered for the erection of such other buildings as the Government may see fit to erect.

When these terms, which are extremely liberal, have been complied with, and the conditions fulfilled, the Governor is directed, by proclamation, to remove the Government to Oakland.

In view of the great natural advantages of that point, its superior location, climate, and scenery, centrality of position, proximity to the most extensive sources of information, and early communication with the foreign world, and especially in view of the economical considerations be-

fore suggested, your Committee would conclude by recommending the removal of the Government of the State to the City of Oakland, under the provisions and conditions of Assembly bill No. 261.

W. P. RODGERS, Chairman.
ROBT. HOWE,
W. B. ARMSTONG,
F. BATES.

By Mr. Squires :

MR. SPEAKER :—The undersigned, a minority of the Special Committee, appointed to proceed to the City of Oakland, and inquire into the expediency of locating the Seat of Government at that point, does not concur with the majority of the Committee in recommending the location of the Seat of Government at that point.

The undersigned is fully impressed with the natural advantages of the proposed site, and believes that in point of climate, soil, and scenery, they are second to none in the State ; but believes a removal of the Seat of Government from its present location would be impolitic, and uncalled for by the people of the State.

OGDEN SQUIRES.

Referred to the Committee on Public Buildings and Grounds.

By Mr. Robberson:

MR. SPEAKER:—The undersigned, a minority of the Committee on Internal Improvements, to whom was referred Assembly bill No. 83, an Act to grant to certain parties the right of laying a railroad track along certain streets within the City and County of San Francisco, having had the same under consideration, make the following report:

By examination of the statutes of this State, we find an Act granting similar rights to other parties along streets near by and parallel with the same, as proposed by this bill; and, from evidence, we are of opinion that the parties now owning said franchise have incurred much expense in preparing to complete the first section of their road by the first of November next, (their stipulated time,) not expecting any other franchise would be granted at this time, and we are fully persuaded that the business in the section where these tracks are proposed to be laid will not justify more than one, consequently the passage of this bill would virtually destroy the franchise already granted, by causing the stockholders to fail making their payments. Thus, by the first of November next, the parties asking for the passage of this bill will take from the parties holding the former franchise, and they then enjoy the same exclusively.

We also find the streets through which the present franchise proposes to lay a track, were laid out much wider than other streets parallel therewith, for the benefit of a railroad track, and are the proper streets for the same; while First street—the one proposed in this bill—is quite narrow, and barely wide enough for the accommodation of business at this time; and the laying of a railroad track would cause much inconvenience to those who now own large foundries along said street, consequently we recommend the indefinite postponement of the bill.

JOHN DAGGETT.

By Mr. Murray:

Resolved. That a Special Committee of five be appointed by the Chair, to take into consideration the Act, lately repealed, "to discourage the immigration to this State of persons who can not become citizens," passed April 25th, A. D. one thousand eight hundred and fifty-five, together with all the decisions of the Supreme Court of this State in relation thereto, and to inquire into the policy and the practicability of framing a new law for the same purpose, but free from any constitutional objection. Also, that the said Committee be directed to make a full report on the subject, and if they find the end contemplated both politic and practicable, to report a bill for that purpose.

MR. SPEAKER :—Your Committee, appointed under the foregoing resolution, after giving the subject-matter their mature consideration, beg leave respectfully to report as follows :

Your Committee find that the Act of April twenty-eighth, one thousand eight hundred and fifty-five, "to discourage the immigration to this State of persons who can not become citizens thereof," which Act imposed a tax of fifty dollars upon every such person as above mentioned, on his arrival in any part of this State, to be paid by the master, owner, or consignee of the vessel bringing the same, although still upon the statute-book and unrepealed, has been, by the Supreme Court of this State, in the case of *The People v. Downer*, 7 Cal., 171, declared to be "invalid and void."

They find, also, that the Act of April twenty-fifth, one thousand eight hundred and fifty-eight, "to prevent the further immigration of Chinese or Mongolians to this State," which Act entirely prohibited the landing in California of any of the above-mentioned races, was repealed during the present session, in view of a decision said to have been lately rendered by the Supreme Court, declaring the said law to be unconstitutional. Your Committee, about a month since, made inquiry into the proper quarter, and were informed that the decision would then shortly be published, and that it was based upon the same grounds as the one rendered in the case of *The People v. Downer*, above mentioned, viz., the decisions of the Supreme Court of the United States given in the cases commonly known as the "Passenger Cases," reported in 7 Howard's Reports. Your Committee understand that the United States Supreme Court decided in those cases to the effect that the laying a tax upon passengers, by any State, was an infringement upon the power delegated by the Federal Constitution to the Congress of the United States, "to regulate commerce with foreign nations." In the above-mentioned cases, the Court decides that the carrying of passengers comes under the general denomination of "commerce," as much, and to as full an extent, as though they were merely freight or merchandise. Your Committee were informed that the prohibition of the introduction of Chinese or Mongolians was deemed by the Supreme Court of this State to be as much an infringement upon the right delegated to Congress, as would be the imposition of a tax upon the same class of persons, and that both were equally unconstitutional. Under these circumstances, your Committee feel themselves incapable of devising any act of legislation by which the object contemplated in the Acts formerly passed by our State Legislature, for the discouragement or prohibition of the immigration of Chinese or Mongolians into this State, may be attained, without clashing with high judicial decisions, and with the powers of Congress, as by them construed. Your Committee, therefore, feel constrained to report the impracticability of framing such an Act as is proposed in the resolution under which they were appointed.

Before closing this report, your Committee feel it to be due to themselves and the Legislature of this State, to say a few words upon the policy of the end proposed by the legislation heretofore attempted, viz.: the discouragement or prohibition of the immigration into this State of the Chinese or Mongolian races. It must be remembered that that part of the Chinese Empire, termed China proper, with an area of only one million three hundred thousand square miles, has a population estimated at nearly three hundred and sixty-eight millions, being at the rate of two hundred and eighty-three to the square mile, while the United States of America, with an area of nearly three million square miles, has

only a population of about thirty millions, or about ten to the square mile. The Chinese Empire is therefore over-crowded, and oppressed with a teeming population, reduced to every device and strait for the preservation of life; to such an extent indeed, as to drive the masses to the consumption of vermin, of offal, of unclean animals, of animals which have died a natural death, and other disgusting food, in order to sustain life. The price of labor is reduced to so low an ebb, that the degraded peons of Mexico and South America, with wages ranging from twelve and a cents to half a dollar per diem, may be rated as a highly opulent and well remunerated class of laborers, in comparison. Added to this, the Chinese are an emigrating people; so much so, that many islands in the East Indian Archipelago are populated by large colonies of the Chinese race. And it must here be noted, that even supposing that the most contiguous parts of the United States to the Empire of China were the densely populated States of New York and Massachusetts, those States would still afford a most eligible field to the Chinese immigrant, by reason of the superior rates of labor in those States, and the trifling wants and necessities of the Chinese laborer. We deem it to be a very reasonable hypothesis, that if the above-mentioned Atlantic States occupied the relative position on the earth's surface toward China which California now holds, and if free immigration were allowed and encouraged, it would not be many years before the whole country would be covered with swarms of this inferior, feeble, and disgusting race, until, in every department of labor and industry our own fellow-countrymen would be jostled, undermined, and underbid by them.

And if this would be the case with New York and Massachusetts, how much more so with California? This Golden State holds out a much higher premium for Chinese immigration than those above referred to. Here, labor is higher paid, and is more in request than in the States above mentioned. Here, land is more plentiful, and is held at cheaper rates. And here, above all, lie spread out rich gold mines, which of right belong to the American citizen, or at least to those who are capable and desirous of becoming such, and which offer a bounteous reward to all who have the strength to dig and the energy to persevere. Heretofore, although at times we have had specimens of what the Chinese can do in the way of forwarding emigration, sufficient to cause the beholder to start back and inquire from what teeming human hot-bed proceeds this mass of pig-tailed and moon-eyed humanity, yet that immigration has been checked and restrained at various times, directly and indirectly. Laws to tax the importation of Chinese and Mongolians, and to prohibit their introduction; memorials, petitions, reports, and Governor's messages recommending the passage of such laws; laws to tax the foreign miner; and last, though not least, the *emeutes* against the Chinese, which have arisen, from time to time, in various parts of the mines, have all had a salutary effect in discouraging and in obstructing this mongrel immigration. But now that almost the last barrier is thrown down, almost all peaceable and supposed legal measures have failed, and nothing remains but unauthorized violence with which to combat this evil, who can measure, who can conceive, what will be its ultimate limit? Especially while a portion of the moneyed classes of our own people—those who are directly or indirectly interested in this nefarious traffic, prompted by the potent whisperings of the pocket—are openly welcoming to our shores the dingy inhabitants of Asia to compete with, and to jostle, our white brethren?

Your Committee furthermore deem it to be politic to discourage the in-

introduction into California of the Chinese and Mongolian races, for the following reasons, which they desire briefly to enumerate:

First—Because these races are Heathen, and idolatrous in their religious tenets.

Second—Because they are grossly immoral, filthy, and disgusting, in their practices and habits.

Third—Because we deem it to be impolitic for a nation whose form of government is based upon popular suffrage, to encourage, or even to permit, the introduction within her limits, in great numbers, of persons who can not become citizens.

Fourth—Because the Chinese and Mongolians form a distinct and foreign race, which can not amalgamate with our own, and would form, in course of time, an immense and essentially foreign element of our population, herding together, and swayed by the same impulses—the very population, in short, which is most dangerous and detrimental to a republican form of government.

Your Committee, in conclusion, ask to be discharged from the further consideration of the subject now before them; and in view of the fact that in Congress lies the power which our State Government has heretofore vainly endeavored to exercise, would most respectfully recommend to this House the adoption of the Joint-Resolution reported herewith.

All of which is respectfully submitted.

WALTER MURRAY, Chairman,

ASSEMBLY JOINT-RESOLUTION.

Whereas, The State of California, poor in the sparsity of her population, but rich in her mineral and agricultural wealth, and lying, as she does, adjacent to the Chinese Empire, with its teeming millions of semi-barbarians, slaves at home, and unfit for aught else—who, from time to time, since the discovery of gold upon this coast, have been, and still continue, pouring into our territory, sapping the fountains of our mineral wealth, and pouring it in one continued stream from our shores, to be lost to us and our people for all time to come—debasement our free labor by unworthy and degrading contact—producing discontent, and almost civil war, within our borders; and,

Whereas, Repeated attempts have been made, by legislative enactment, to prevent the further immigration of Chinese and Mongolians to this State; and,

Whereas, By the Supreme Court of this State, the said Acts have, from time to time, been pronounced unconstitutional and void, upon the ground that they went beyond the province of State sovereignty; and,

Whereas, It appears, from said decisions, that the power to control or to prohibit the immigration of any class of foreigners to this State is vested only in our National Congress; and deeming, as we do, that the interests of our young State demand immediate action in this particular: Therefore,

Be it resolved, By the Assembly, the Senate concurring, that our Senators be instructed, and our Representatives requested, to urge upon Congress the passage of a law for the prevention of the further immigration of said Chinese or Mongolians to this State.

The resolution, above reported, was made the special order for March thirty-first, at twelve o'clock, M.

The following message was received from the Senate :

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor, with the accompanying copy of a letter from the Supreme Court Reporter:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 23, 1859.

To the Assembly of California:

I transmit, herewith, a copy of a letter received from the Reporter of the Supreme Court, showing that certain difficulties exist which will delay the publication of the eleventh volume of Reports.

The attention of your honorable body is respectfully invited to this subject.

JOHN B. WELLER.

SACRAMENTO, March 23, 1859.

Hon. John B. Weller, Governor:

DEAR SIR:—Yesterday evening, I called at the Clerk's office of the Supreme Court, to get the records of some eight or ten cases, decided by that Court at the October term, one thousand eight hundred and fifty-eight, for the purpose of reporting them. Mr. Bagley, the acting Clerk, after consulting with Judge Field, declined to let me take the records or transcripts from the Clerk's office. I requested Mr. Bagley to reduce his objections to writing, which he consented to do, and, after having spent some time in Judge Field's room, he returned to the Clerk's office, and handed me a paper, of which the following is a copy:

CLERK'S OFFICE, SUPREME COURT, }
March, 22, 1859.

Under the sixth section of the Act for the appointment of a Reporter of the Supreme Court, etc., etc., approved April nineteenth, A. D. one thousand eight hundred and fifty-six, I decline giving the Reporter the transcripts of the records of causes on file in this Court, to be taken from

the office. Under said section, he can take the original opinions so soon as they are recorded, and have full access to the records, which are always open to his examination in the office, for the preparation of his Reports.

DAVID T. BAGLEY, D. Clerk.

It will be seen that the acting Clerk, for the first time, gives a technical construction to section six of the Act, and refuses to allow me to take from the office anything but the opinions of the Court. In making up my Reports, I could very well get along without taking out of the office the opinions, as I always preserve printed copies, and could easily compare them with the original opinions in the office. But the transcript is the history of the case from which the Report is made, and it would be impossible to make up the Report from a mere inspection of it.

The ninth and tenth California Reports were prepared in my office, by taking the transcripts, briefs, and opinions, eight or ten at a time, and returning them to the Clerk's office, as soon as I was done with them. This has been the practice, not only of myself, but of my predecessors, and no objection has been made until yesterday.

The eleventh volume is now over half reported, and soon would be given to the public, could I have such access to the records of the cases as is contemplated by the sixth section of said Act.

I have thus thought proper to call your attention to the obstacles which will prevent the discharge of my duties, unless there is additional legislation. I wish it distinctly understood that I claim no privileges other than those which have been accorded to my predecessors.

The Reporter is a sworn officer, and gives bond in a large sum, for the faithful discharge of his duties, and I can see no good reason why he should not at all times be allowed to take the transcripts, briefs, and other papers, from the Clerk's office, when not in actual use. This privilege is accorded to Counsel practicing before that Court, and I am at a loss to understand why it is denied to the Reporter.

I have the honor to be, Sir,

Your most obedient servant,

(Signed,)

H. LEE,

Reporter of the Supreme Court.

REPORTS.

Reports were made as follows :

By Mr. Condee :

MR. SPEAKER :—Your Committee on Engrossment have examined, and found correctly engrossed, Assembly bill No. 264, an Act to regulate the fees of certain officers, and witnesses, and jurors, in the County of El Dorado.

CONDEE, Chairman.

By Mr. Holman :

MR. SPEAKER :—The Committee on Commerce and Navigation, to whom was referred Assembly bill No. 265, an Act to define the head of navigation on the Mokelumne River, have given the same an attentive examination, and beg to report, that, under the Act of one thousand eight

hundred and fifty-one, so much of the Mokelumne River as lies between its mouth and the first falls, was declared a navigable stream. Owing to a conflict of pecuniary and local interests, a technical question has arisen as to the precise location of the first falls. To the resident of Mokelumne, familiar with the topography of the stream, it has never been a matter of doubt. Evidence indicates the point to be that defined in the bill, viz., at the falls, near the dividing line, between sections twenty and twenty-one, township four N., range eight E., Monte Diablo meridian. The residents of the Mokelumne Valley manifest a commendable interest to have this stream kept open for navigable purposes, in order to afford them a cheap and expeditious outlet or highway to a market. The passage of the bill will effect the purpose, by preventing obstructions, and will confine parties who may wish to build bridges, to the statutory provisions regulating the same. The head of navigation, as herein described, is fifty miles from its mouth, where it empties into the San Joaquin, and is near the head of Suisun Bay. As the Mokelumne River has its source in the highest range of the snow-clad Sierras, the rains of winter and melting snows of summer afford from six to eight months of uninterrupted navigation, and boats of one hundred to one hundred and fifty tons burden can successfully navigate the stream. Twenty miles from the mouth of the river the tide rises to the height of four and one-half feet, and at this place there is already a depot for vessels engaged in the produce, wood, and lumber trade. The obstructions above this point are snags, and over-hanging trees, which can be removed at a comparatively light expense. When this shall have been done, an area of not less than one thousand square miles of agricultural lands, unsurpassed in fertility, situate upon and contiguous to the Mokelumne, will enjoy the advantages of a cheap transportation of all articles pertaining to commerce. These facilities will also extend to the large and populous Counties of Amador, Calaveras, and Tuolumne.

It is estimated that upon and adjacent to the banks of the Mokelumne, are not less than three hundred square miles of wood-land, which will produce wood to the value of twenty-five millions of dollars. This immense wealth will find a market in San Francisco, Stockton, and Sacramento.

The opening of the river will also enhance the value of lands contiguous, and thereby increase the revenue of the State. The mind can form but a feeble estimate of the change that will have been effected in the next decade of years in the development of our resources and wealth of the Towns, Villages, and Cities which will have grown up—of the manufactories called into existence, to concentrate and employ the busy thousands. The past ten years have produced changes as wonderful as those recorded of the Lamp of Aladdin—the future will surpass them, but in reality more beneficial to our State, and the world.

Believing, therefore, that whatever appertains to the development and prosperity of the country should be judicially protected, we recommend the passage of the bill.

HOLMAN, Chairman.

At half-past five o'clock, P. M., on motion of Mr. Springer, the House adjourned.

ROANE, Chairman.

By Mr. Mount:

MR. SPEAKER:—The Committee on Corporations, to whom was referred Assembly bill No. 130, "An Act to amend an Act entitled an Act concern-

ing corporations, passed April twenty-second, one thousand eight hundred and fifty," having had the same under consideration, now ask leave to report it back, and a majority of the Committee recommend that the bill be referred to the Judiciary Committee.

CHAS. E. MOUNT,
C. W. LIGHTNER,
MANUEL TORRES,
A. A. HILL,
W. P. BARCLAY.

By Mr. Gregory :

MR. SPEAKER :—The undersigned, members of the Committee on Corporations, not concurring in the report of the majority of said Committee on Assembly bill No. 130, an Act amendatory of an Act concerning corporations, ask leave to submit this minority report :

The bill proposes to regulate the rates which shall be charged for carrying passengers or freight, by any company or companies incorporated, or which may hereafter become incorporated, under the general corporation laws of this State, for the purpose of navigating any of the navigable waters of the State. The objects contemplated by the bill, the undersigned believe to be not only just and proper, but demanded by the best interests of the State, and by an almost universal public sentiment.

Companies that have, or may hereafter become incorporated, under our laws, do it in face of the plain provisions of the Constitution. Section thirty-one of article four of the Constitution of California, reads as follows :

"Corporations may be formed under general laws, but shall not be created by special Act, except for municipal purposes. All general laws and special Acts, passed pursuant to this section, may be altered, from time to time, or repealed."

If the Legislature clearly possesses the power to "alter" or "repeal" the general corporation laws of this State, thereby completely divesting corporations of their chartered privileges, and companies avail themselves of such privileges as they may acquire, in full view of such legislative power, it is evident to the undersigned that the Legislature has the right to regulate and restrict such companies. It is certainly remarkable if a body, having the power to create, has no other right but to destroy. Entertaining these views, we respectfully recommend the passage of the bill.

A. J. GREGORY,
J. B. LAMAR.

By Mr. Buck :

MR. SPEAKER :—A minority of your Committee to whom was referred Assembly bill No. 276, "An Act to establish the rule of evidence to be observed in the Courts of this State, in certain cases, concerning titles to land," beg leave to recommend that the bill be amended by striking out the third section, and that the bill be passed, so amended.

S. M. BUCK,
W. W. SHEPARD.

of James Gallagher," have had the same under consideration, and requested me to report the same back to the House, and recommend its passage.

GWINN, Chairman.

By Mr. Springer, from minority of same Committee :

MR. SPEAKER :—The undersigned, minority of the Committee on Roads and Highways, to whom was referred Assembly bill No. 302, entitled an Act for the completion of a wagon-road over the Sierra Nevada, at Noble's Pass, beg leave to submit the following minority report:

It is an axiom of Government to establish such laws and regulations as will confer the greatest good to the greatest number.

The greatest drawback at this time to the prosperity of California, is the want of population, and to encourage immigration to our State should be the great and constant object of this and all future Legislatures.

That the construction of roads by the various routes entering our fertile valleys and rich mining districts would give encouragement to immigration, no one will deny, yet we must not overlook the fact, that the imposing of the additional tax necessary for making these improvements would not only neutralize the object intended, but would deter future immigration, and drive from our borders, as is the case already, population and capital already here.

Our people are already groaning under a taxation unequalled by any other, and it is but reasonable to suppose that population and capital will seek other States and Territories where their burdens would be less, and their lives and property better protected.

The amount and manner of this appropriation are of such a character as to preclude the possibility of any public benefit.

These are some of the reasons which compel the undersigned to recommend the indefinite postponement of this bill.

J. P. SPRINGER.

By Mr. Banks :

MR. SPEAKER :—The San Francisco Delegation, to whom was referred Assembly bill No. 279, an Act to confer further powers and duties upon the Board of Supervisors and the Auditor and Treasurer of the City and County of San Francisco, and to authorize them to perform certain acts therein mentioned, having examined the same, report it back to the House, with a substitute, and recommend the passage of the substitute.

Having also examined Assembly bill No. 247, an act to grant to certain parties the right of laying a railroad track along certain streets within the City and County of San Francisco, they report the same back to the House, with amendments, and recommend its passage as amended.

BANKS, for the Delegation.

DUNLAP.

By Mr. Whitney :

MR. SPEAKER:—The Special Committee appointed to take into consideration that portion of the Surveyor-General's Report relating to school-land warrants, have considered the same, and ask leave to submit the following report, and also the accompanying bill :

Your Committee beg leave to say, that they have, in their investigation of this subject, found that it is of a more difficult nature than they had first supposed, and that from the very imperfect nature of such laws as have heretofore been enacted, the difficulties attending the location of school land-warrants have been very greatly augmented ; and these have been increased, from the fact that the present laws have made no provision for the canceling of warrants located.

The principal difficulties seem to be reducible to two : First—that the laws now existing require that warrants shall be located on such lands only as have been surveyed ; and secondly, that there was no provision made for canceling warrants when located. Thus, parties having located warrants, and not having canceled them, have again thrown them upon the public, and they have been again located upon other lands, or are still in the hands of parties who may hereafter locate them upon other lands. Again, many warrants are now in the hands of parties who have located them upon lands not subject to location under the present laws. Of the five hundred thousand acres of land donated to this State, it appears that near two hundred and fifty thousand have been permanently located ; the outstanding warrants, amounting in the aggregate to more than two hundred and fifty thousand acres, have not as yet been located, or, if located, not approved, from the fact that the lands are unsurveyed.

Your Committee, impressed with the great advantages to be derived, both in point of revenue to the State, and from the building up of a permanent population by securing to the holders of such warrants a reliable title to their land, have endeavored to frame a law, which, if it is not all they could desire, is, at least, one that will greatly tend to simplify the system of location, and it is hoped will, in most cases, relieve the Register from the embarrassments under which he now labors. The advantages to be derived from a law which will increase, as it is hoped this will, the amount of taxable lands, even at the low estimate of five dollars per acre, to over one million of dollars, are of no small consideration ; for it is believed that if a law is passed, permitting the holders of school-land warrants to locate them upon unsurveyed lands, requiring them simply to so connect them by actual survey, with the United States Government surveys, as to enable the Register accurately to connect them with the plats of Government surveys in his office, that all the outstanding warrants will be located in less than one year from this date. There are numerous locations now actually made. It fact, it is believed that of the two hundred and sixty thousand acres yet to be patented, almost the entire amount has been located upon unsurveyed lands ; but the parties are barred from obtaining patents, by the fact that the United States Register is not authorized to accept such locations until the lands have been regularly surveyed.

Many warrants have been laid upon isolated spots of land amongst our hills and valleys, the locators hoping thereby to receive, at some future day, when the land shall have been surveyed, a home for themselves and families. Many are actually living upon these lands—the richest and most valuable of our State—and California deriving no revenue from them, because they are unpatented ; nor can patents be obtained, though they are

willing and anxious to do so. The present law works an injustice, both to the holders of those land warrants and to the State.

Your Committee can see no good reason why the State should be deprived of this source of revenue, or the holders of warrants be out of the use of their money for years, waiting for a general survey. It is but just that we should adopt some plan to relieve them of this onerous burden. There are divers reasons why those lands should be patented, amongst which we would note that of giving homes to such as are disposed to settle down amongst us, and help us to build up a permanent and industrious population. So long as we withhold from that class of people a title to their lands, just so long will we clog that greatest source of national prosperity—agriculture. We believe that, when a location has been, or may be, made upon unsurveyed lands, and the same shall have been located by a competent surveyor, and properly connected by running lines to or from the nearest Government survey, or the base or standard lines and meridians, in such manner that, when the regular survey shall be made, the location will not interfere with such survey, (as must be the case, if properly done,) and the party making application produce a certificate from the Surveyor-General that such is the case, a certificate of location should issue, and, thereupon, a patent, vesting in such party a title, in fee-simple, to the land, and such location be accepted by the State as part and parcel of the five hundred thousand acres donated to her. There are many other reasons equally potent as those enumerated, but which need not be recited here.

In submitting the accompanying bill for the consideration of your honorable body, your Committee feel free to confess that it is not all it ought to be, nor all they could wish. They have, in view of the many difficulties arising, and likely to arise under the existing laws, endeavored to embody such provisions as, with most good, would be most likely to be productive of least harm. It can not be denied that, under them, some must suffer—in fact, it is hardly within the scope of human wisdom to frame a law which, under the present entangled state of things, would not work a hardship to some. No law that we could possibly devise would meet the approbation of all. We have, therefore, endeavored to act upon general principles of justice; and, upon the axiom that some must suffer, have adopted that plan which seemed most likely to work the least injury to all, leaving those that do suffer, to console themselves with the reflection that justice and the general good required it.

We would further add, that the provisions contained, and the plan suggested in the bill, are the result of thorough investigation into the peculiar nature of the difficulties now met with in this matter, as well as the advice of some of the most eminent jurists in the State.

In conclusion, your Committee would say, that it is their opinion that if the bill should become a law, many of the difficulties under which parties now labor would be obviated, and a large amount of taxable property added to our annual tax-list, that is now of little or no profit, either to the State or individuals; and we earnestly recommend that the bill, with such amendments as may be deemed proper, may be approved by the House, and become a law.

Although we find that many arguments in favor of the abolition of chain-gangs may be urged, we deem it best to leave this matter under the control of the authorities of the various Cities and Towns of the State. This plan has heretofore been found to operate satisfactorily, and in case chain-gangs are regarded as obnoxious, by the people of any locality, and a change be desired, there is scarcely a doubt that the municipal authorities can be induced to abolish this mode of punishment. We, therefore, recommend the indefinite postponement of the bill.

Resolved, By the Assembly, the Senate concurring, that the Governor be, and he is hereby, requested to return to the Assembly, without his approval, Senate bill No. 82.

REPORTS.

Reports were made as follows :

By Mr. Cope :

MR. SPEAKER :—The Judiciary Committee, to whom was referred Senate bill No. 206, an Act for the relief of William T. Barbour, late Judge of the Tenth Judicial District ;

And Senate bill No. 231, an Act to audit and allow the claim of William T. Barbour, for back salary, as District Judge of the Tenth Judicial District ;

Having had the same under consideration, report them back to the House, and a majority of the Committee recommend their passage.

The majority of the Committee beg leave to submit the following facts and reasons in support of their recommendation :

Judge Barbour was elected Judge of the Tenth Judicial District in the

year one thousand eight hundred and fifty-one—immediately entered upon the discharge of the duties of his office, and continued to discharge such duties for the term of six years thereafter. At the time of his election, his salary was fixed, by law, at seven thousand five hundred dollars per annum. The Constitution, (Article VI, section fifteenth,) provides that “the Justices of the Supreme Court, and Judges of the District Court, shall, severally, at stated times, during their continuation in office, receive, for their services, a compensation, paid out of the treasury, which shall not be increased or diminished during the term for which they shall have been elected.” In the year one thousand eight hundred and fifty-two, the Legislature reduced the salary to six thousand dollars. It is clear that, under the Constitution, this Act would not affect the salary of Judge Barbour, as fixed by law at the time of his election. During the six years for which he was elected, he drew from the public treasury the aggregate sum of thirty-seven thousand eight hundred and fifty-five dollars and fifty-cents. He was entitled, under the law, to the sum of forty-five thousand dollars. These bills provide for the balance due him, and which he has not drawn. The term for which he was elected, in the year one thousand eight hundred and fifty-one, is not now a question. The point has been expressly decided by the Supreme Court in two cases—that of *Brodie v. Weller*, and *Burbank v. Hager*. If, then, when Judge Barbour was elected, in the year one thousand eight hundred and fifty-one, he was elected for the term of six years, he was certainly entitled to the salary secured to him by the law and the Constitution. The majority of the Committee, therefore, regard the claims embraced in these bills as just and legal demands against the State, and can see no objection to their payment.

COPE, Chairman.

By Mr. Lefever :

SPEAKER :—The Yuba delegation, to whom was referred Assembly bill No. 231, an Act to amend an Act entitled "An Act concerning hogs found running at large in the Counties of Marin, Sacramento, San Francisco, Alameda, Stanislaus, Yuba, and Santa Cruz, approved April twenty-first, one thousand eight hundred and fifty-six," beg leave to report the same back to this House, with amendment, and recommend its passage ;

Mr. Hancock verbally reported, and recommended the passage of Senate bill No. 242, an Act to authorize the Common Council of the City of Los Angeles to extend the City limits.

Mr. Cannon made the following report :

MR. SPEAKER :—The undersigned, minority of the Committee on Military Affairs, to whom was referred Assembly bill No. 225, an Act to provide for the payment of troops called out to suppress insurrection in the City of San Francisco, in the year one thousand eight hundred and fifty-six, respectfully dissent from the opinion expressed by the majority, and recommend the indefinite postpone of the bill, for the following reasons :

First—It is a dangerous precedent to establish, to draw on the General Fund of the State for the payment of military companies, (even admitting service to have been performed,) called out for any temporary purpose, because the laws of the State already make ample provision for the payment of such services out of the Military Fund, and therefore no further legislation is demanded.

Second—It does not appear that said claims have ever been submitted

to any Board of Military Auditors, as required by law, nor that the Board of Examiners have ever passed upon said claims.

Third—The said claims, having occurred prior to the first of January, one thousand eight hundred and fifty-seven, should be funded, if allowed at all, and not paid in cash, as any other course would be an unjust discrimination between the creditors of the State at that date.

The undersigned take this occasion to express an earnest desire that all legal and equitable claims against the State should, by every consideration of public faith, be canceled. But, for the reasons expressed above, they regard the policy sought to be inaugurated by the passage of this bill as dangerous in the extreme—a species of profligacy indefensible upon any grounds.

All of which is respectfully submitted.

ANDRES PICO,
F. E. CANNON.

COPE, Chairman.

By Mr. Buck :

MR. SPEAKER :—A minority of the Judiciary Committee, to whom were referred Senate bills Nos. 206 and 271, Acts for the relief of Wm. T. Barbour, submit the following report :

Said Barbour was elected in one thousand eight hundred and fifty-one, to the office of District Judge of the Tenth Judicial District, for an unexpired term, which term expired on the first day of January, one thousand eight hundred and fifty-three, at a salary of seven thousand five hundred dollars per annum. Previous to one thousand eight hundred and fifty-three, the salaries of District Judges were reduced to six thousand dollars per annum. By recent decisions of the Supreme Court, it seems that Judge Barbour was entitled to the office of District Judge, for six years, under his election in one thousand eight hundred and fifty-one, at a salary of seven thousand five hundred dollars per annum. But said Barbour saw fit to waive his right, and go into an election in one thousand eight hundred and fifty-two, and was again elected to a six-years term, to commence on the first day of January, one thousand eight hundred and fifty-three, at a salary of six thousand dollars per annum. He now claims the difference of salary. Believing that he waived his right knowingly, we do not believe that he has any legal claim against the State for back salary. We, therefore, recommend the indefinite postponement of Senate bills Nos. 206 and 271.

BURDICK, Chairman.

By Mr. Street :

To the President of the Senate, and Speaker of the Assembly :

The undersigned, members of the Committee of Free Conference, appointed on behalf of the Senate and Assembly, have had under consideration Senate bill No. 147, “An Act to compensate the Warden of the State-prison,” together with the amendments attached to the same, by the Assembly.

We find, from the statement of the Governor, and Secretary of State, (see note to page five of the Annual Report of the Board of State-prison Directors, for the year one thousand eight hundred and fifty-eight,) that the Hon. Joseph Walkup “*spent his whole time at the Prison*, in discharging the duties of Chief-Warden,” and that there are doubts as to whether the compensation allowed by the tenth section of the Act of April twenty-fourth, one thousand eight hundred and fifty-eight, creating the Board of State-prison Directors, can be legally drawn.

We find that the seventy-five dollars per month, allowed each of the said Directors, “*as a compensation for their expenses*, as such Directors,” has been drawn by each and all of them, and that Lieutenant-Governor Walkup has not received one cent more from the treasury under said Act, for his own proper use.

We find that, from the adjournment of the ninth Legislature, to the first day of January one thousand eight hundred and fifty-nine, there are

two hundred and forty-nine days, and that, if the Hon. Joseph Walkup spent the *whole of his time* in the active duties of Agent-in-Chief at said State-prison, he is at least entitled to compensation for two hundred and twenty-three days, which the bill, before being amended in the Assembly, called for.

The rate of pay, we consider was fixed by the Act aforesaid, at ten dollars per day, and was intended as a compensation for his personal attention to matters at the Prison, whether he was sitting as a member of the Board of Directors, or not, and without regard to the particular title or style of office he might be designated by in the books of said Prison, or the Journal of said Board, whether he was called Director, Warden, Chief-Warden, or what not. As it is neither just nor desirable for the State to have the services of its citizens, without rendering compensation therefor, we return the bill, with the annexed "*proviso*," and recommend that the bill, as it originally passed the Senate, be passed, after adding to section one, the said proviso :

Provided, That the said Joseph Walkup shall not be allowed any further and additional compensation for services rendered during the year one thousand eight hundred and fifty-eight, either for sitting as a member of the Board of Directors of said Prison, or for services at said Prison.

REPORT ON AFFAIRS AT STATE-PRISON.

Mr. Hines, from the Special Committee to examine the affairs of the State-prison, made the following report, which was ordered printed :

The Special Committee, appointed under a resolution of the House, adopted on the sixteenth of March, A. D. one thousand eight hundred and fifty-nine, authorizing a Special Committee "to examine into all matters pertaining to the State-prison, and take an inventory of all property, and, if necessary, to send for persons and papers, etc., etc.," have given the subject their careful consideration and examination, and beg leave to make the following

REPORT :

The Committee proceeded to San Quentin on the seventeenth ult., and spent some two weeks at the Prison, and in San Francisco, in the examination of the affairs of the Prison and in taking the testimony of forty-four witnesses in relation thereto.

We found at the Prison five hundred and ninety-two male and two female prisoners—three of them U. S. convicts. The prisoners, in the main, seem to be in good health, and were generally pretty well clothed, though quite a number were without shoes, and some of them very poorly clad. There were but few in the Hospital—though, from the crowded manner in which they were kept at night, owing to the insufficient accommodations, if it was not that we have a climate unequalled, a pestilence would soon relieve the State from any further charge of them. The average number of pounds to each prisoner and employé, as per annexed exhibit, marked "A," is a small fraction over four. There are two insane convicts who ought to be sent to the Insane Asylum.

The main Prison, in which prisoners are kept, is excellently constructed, and the upper portion well adapted to their accommodation, but is taxed far beyond its capacity, four convicts being confined in each cell, in which, at the most, not exceeding two should be put. There are forty-eight cells in the upper story, and three rooms, (including Hospital,) on the basement-floor, in which a large number of prisoners are crowded together, from three to four high. In this building the more desperate and "long-term" prisoners are kept. The County-Jail (as it is called,) is where the "short-term" and more docile prisoners are kept. It is also over-taxed, and badly adapted to the purpose for which it is used. In this prison the females are kept. They have large and comfortable rooms, (in comparison,) and are well provided for.

Your Committee entirely disapprove of the system of putting so many convicts indiscriminately together—a youth, the victim of some vice, together with the old, utterly and hopelessly lost convict. It is not conducive to discipline, and much rascality and many “breaks” are concocted that would not otherwise happen.

The prisoners are poorly provided with beds and bedding, particularly mattresses, which are not only very filthy, but almost entirely destitute of straw. The shed used for the different workshops is poorly constructed, but sufficiently large for their accommodation for the present. The shops are very poorly provided with tools, etc., even for the moderate wants of the Prison. The stone-cutting, carpenter, and blacksmith departments, might, in the opinion of your Committee, be made a source of much profit to the State, if properly supplied with tools, materials, etc.

In Exhibit “B,” a full description of all personal property of the Prison, both as to quantity, quality, and value, will be found.

Your Committee would recommend the immediate sale of all the live-stock, except such as are actually necessary for the use of the Prison. The dining-room (built by McCauley,)—also used as a chapel—is large, and amply supplied with the necessary furniture. The cooking-department is well supplied with an excellent oven, large boilers, and ample accommodations, (put up by McCauley,) to insure good cooking, and regularity in meals. There have, also, been some improvements made by the Board of Directors.

First—A large store-house, (built off the Prison-grounds,) the basement-story of which is built of blue granite-stone; the second story, of No. 1 brick.

Second—New Prison, (nearly complete,) the basement constructed of blue granite-stone, and first and second stories of No. 1 brick. The basement has fourteen perfectly secure dungeons. The first story is intended to be used as a hospital and work-shops, and the upper story for prisoners’ sleeping-apartments. Much credit is due the Directors for the quality of material used, and especially the builder, (O’Connor,) for the strong, substantial, and workmanlike manner in which they are constructed.

Third—Prison-office—a convenient, well-arranged, two-story-house, built of No. 1 brick; (for further particulars, see Dall’s estimate;) a stone water-wall, curbing, and some paving—of which, more anon—have been made.

BRICK-YARD.

This branch of labor, being the only one from which the State has derived any revenue of importance, (except, perhaps, the quarry,) deserves the special attention of your Committee.

As reported by the Directors, all the clay belonging to the State adapted to making brick, has for a long time been completely exhausted. From that cause a large number of prisoners are now, and have been for a long time idle, at a heavy expense to the State. We would recommend prompt action at your hands.

We find that there has been manufactured at the Prison, during the last year, eight millions six hundred and forty-six thousand eight hundred and eighty, (8,646,880,) merchantable brick—that four thousand eight hundred and fifteen and three-fourth cords of wood were used in burning them.

There has been received, about thirty-three thousand five hundred dollars in cash, and something over eight thousand dollars in debts are still due on account of sales of brick. That there were on hand on the twenty-

sixth of March, one thousand eight hundred and fifty-nine, two millions eight hundred and two thousand nine hundred and eighty bricks, as per Exhibit "C," and further, that there are over seven hundred thousand brick that cannot be satisfactorily accounted for. There were shipped to San Francisco, as per Acting-Warden's report, three millions eight hundred and ninety-two thousand and six hundred brick. Mr. Templeton, the Agent in San Francisco, as per his account of sales, (see his affidavit,) returns three millions four hundred and ninety thousand and one hundred and forty-five, showing a discrepancy of over four hundred thousand brick—which fact, taken in connection that there are, still outstanding, debts due to the State for the sale of brick, of over six month's standing, a portion—if not a *large* portion—of which amount will probably never be realized; also the fact that Chief-Warden Walkup, made, or purported to have made, monthly reports to the Directors, and this brick account running since September last, and showing such a large discrepancy; and further, that this account was not settled, or any steps taken to have it settled, is conclusive evidence to your Committee, of either incompetency, or of gross neglect on the part of the Board of Directors, and especially on that of Chief-Warden Walkup.

These facts are wholly inexplicable to your Committee, unless "short-count" is allowed to intervene, and balance all discrepancies, as per Templeton's affidavit—see his account, marked "*Resumé*." There has not been much stone taken out of the quarry: why not, your Committee are not prepared to say, as there are now, and have been for a long time, a large number of the prisoners idle, and as there is, according to the Joint Committee of last year, "a quarry from which, in our opinion, an inexhaustible supply of a blue granite-stone can be secured, at small expense"—in which opinion your Committee concur—and we think, if the *real* interest of the Institution had been consulted, and not things foreign thereto, by the Board of Directors, there would have been little ground for the necessity of a recommendation for a "Branch-Prison." We, therefore, recommend that an additional stone prison be built on the present Prison-grounds. As the supply of stone is abundant, and very convenient, it can be done at a very trifling expense to the State, and would be beneficial in keeping the prisoners employed, which prison would not only answer the double purpose of relieving the crowded state of those buildings already erected, but would also afford the means of separating the young prisoners from the more hardened in crime, by providing them the means of learning some useful trade for after-life, as recommended by the Governor.

CHARGES.

While at the Prison, specific charges were made to the Committee against Chief-Warden Walkup, and the Managers of the Prison, by Messrs Jas. S. Graham and John F. McCauley.

The correspondence and charges are as follows, viz.:

SAN RAFAEL, March 21, 1859.

To Messrs. Hines, Tully, and Laspeyre, Committee of Assembly to examine the Affairs of the State-prison:

GENTLEMEN:—The undersigned would respectfully represent that they did, in conversation with members of the Legislature, make statements on the authority of others, which, if true, reflect severely upon some of the officers of the Prison.

These statements were based entirely upon representations made by reliable and respectable men, who, as we believe, will not hesitate to reaffirm, under oath, what they then said. We have reason to believe that, to these assertions is, in part, owing the appointment of your Committee.

By this we are placed in a position where we must produce the witnesses from whom we received our information, or subject ourselves to the charge of making unfounded and reckless assertions. For this reason, with the view only of bringing out the facts, and doing justice to ourselves, we would ask to be present at your sittings, with the privilege of propounding questions, provided that the same should be allowed, to those who may be reflected on.

For the purpose of simplifying and facilitating the investigation, we would most respectfully suggest, that it would be better for us to form these conversational statements into distinct and specific charges, and submit them to your Committee in writing. This will give those reflected on, time to produce their rebutting testimony, and have the witnesses present, so that the Committee may proceed with the investigation without delay.

We take this opportunity to assure the Committee that our desire to appear before it is for no other reason than that our names have been so connected with these charges, that we feel it a duty we owe to ourselves, to see that the testimony is produced upon which we based our assertions.

We would respectfully suggest that, inasmuch as many of the witnesses reside in and near San Rafael, that your Committee would, by sitting here one day, save time and expense, and make your investigation MORE THOROUGH and satisfactory.

The Sheriff has authorized us to place at your disposal a comfortable room, free of charge. You can, inasmuch as there are accommodations here for witnesses, continue, at night, your investigations of this particular branch of your instructions, without greatly inconveniencing witnesses. You will oblige us, to reply by the bearer, to the following requests, as embraced in the above:

First—Will you receive and investigate specific charges, made by us, in regard to the State-prison, and conduct of its officers?

Second—Will you permit us to interrogate the witnesses, provided you should extend such privilege to those accused?

Third—Will you hold a session in San Rafael?

Most respectfully,

Yours, etc.,

JAMES S. GRAHAM,
JOHN F. McCAULEY.

STATE-PRISON, POINT SAN QUENTIN, }
March 21, 1859.

Messrs. Graham and McCauley, San Rafael :

GENTLEMEN :—The Committee are in receipt of your letter of this date. In answer thereto—

To question No. 1—We will, in their official capacity.

No. 2—We will.

No. 3—For the accommodation of the witnesses, will be pleased to spend Wednesday next with you.

It would be better for us to go up Tuesday night, if we had a conveyance.

Very respectfully,
BENJ. S. HINES,
 Chairman of the Assembly Committee.

SAN RAFAEL, March 22, 1859.

To Hon. Messrs. Hines, Tully, and Laspeyre, Assembly Committee to investigate State-Prison Matters:

GENTLEMEN:—Your communication, bearing date twenty-first instant, was duly received. In accordance therewith, we herein submit the following charges, for your investigation:

CHARGE FIRST.

That, when the Directors met at the Prison, they, with the most commendable view to save the expenditure of the people's money, determined that they would not go to the expense of employing a Warden, but that the Board would alternate, and that either member of the Board, when so present, should be, *ex officio*, Warden. That Lieutenant-Governor Walkup volunteered to act in this capacity of Warden, stating that he would charge nothing therefor. This was accepted, and a resolution was passed by the Board, in accordance with the understanding of no-pay expressed in the body of the resolution. That afterwards, Lieutenant-Governor Walkup applied to the Legislature for pay for his services as Warden, at the rate of three hundred dollars per month. That the amount claimed by him, for said services, would be as follows: three hundred and seventy-five dollars for Warden, and member of the Board of Directors, with board, lodging, and washing, and a horse to ride, and a boat at his command, to go where he might direct.

We charge this was an attempt to obtain from the State treasury a large sum of money, under such circumstances as are unworthy a high official, and sworn officer of the State, and deserves censure.

CHARGE SECOND.

We charge that while acting as Warden, he violated the rules of the Board; that he ignored the Commissary, who is the accountant, and the only check upon him; that he made purchases himself, or through other persons, whom he selected, when it should have been done by the Commissary, under the order of the Warden; that the check thus removed by a violation of the rules of the Board, placed it in the power of the Warden, if so disposed, to retain in his possession thousands of dollars of the public money without detection.

CHARGE THIRD.

That the Board were in the habit of drawing the money appropriated for the support of the State-prison, in sums from five to ten thousand dollars, and depositing the same in the vault of the Post-office, with C. L. Weller, Esq, so as to be convenient for the purposes of the Prison, and subject to the draft of the Warden, in such small sums as might be required; that Lieutenant-Governor Walkup, Warden of the Prison, did,

on the — day of —, A. D. one thousand eight hundred and fifty-eight, draw one thousand dollars of the money of the State, for which he did give a receipt to C. L. Weller, which was his voucher by which to settle with the Board; that said voucher was sent to Sacramento City, preparatory to general settlement, and was mislaid, and, after a diligent search, supposed to be lost; that C. L. Weller informed Lieutenant-Governor Walkup, Warden, that said voucher was lost; that he had the amount entered in his (Weller's) books, and recollected distinctly its payment, and he supposed he (Walkup) must have made an entry of it. He (Walkup) denied having received the one thousand dollars, up to a few days before the general settlement, when the voucher was found—having by accident gotten into the wrong bundle of papers.

We charge, that if the Lieutenant-Governor Walkup, Warden of State-prison, is so defective in memory as to have forgotten the receipt of one thousand dollars of public money, that there was culpable negligence in keeping the books of the Prison, or they would have shown the receipt of the amount.

CHARGE FOURTH.

That daily issues, reported by the Warden to have been made to the convicts, in beef, coffee, etc., were not actually issued.

CHARGE FIFTH.

That an officer of the Prison gambled off a large sum of money, which he stated to a friend to be money belonging to the State.

CHARGE SIXTH.

That the vouchers on file at the Prison do not represent money actually paid.

CHARGE SEVENTH.

That the price of labor and improvements, claimed in the report of the Warden, is too high, and a portion of the labor claimed to be done by him, (the Warden) was done by McCauley, and a portion of the material used in the buildings, was on the ground, and belonged to McCauley, when the Prison was taken by the State.

CHARGE EIGHTH.

That Lieutenant-Governor Walkup, while Warden of the State-prison, on various occasions, took with him a State prisoner, by name, Jackway, a fiddler, to a grog-shop within a stone's throw of the Prison, and there drank and caroused until four or five o'clock in the morning, participating in the dance with Mrs. Hall, a convict, and with the wife and daughter of the notorious Jack Phillips, one of Tom Bell's gang, and with others of similar character; that this prisoner was permitted by the Warden to get drunk with the rest, and upon one occasion broke up the ball in a row, about four o'clock in the morning, refusing to play any longer. On another occasion, the said Jackway was so much intoxicated that he had to be assisted to the Prison. We have information that there are parties in San Francisco whose testimony, in regard to matters connected with the brick and wood, may be important in your investi-

gation. But not yet having seen the original witnesses, we do not now make the charge, but shall produce the witnesses when the Committee goes to San Francisco.

Most respectfully,

JAMES S. GRAHAM,
JOHN F. McCauley.

Charge First.—The Act creating the Board of Directors fixes the compensation of the members of the Board. It gives them power to appoint a Warden. At a meeting of the Board, on the seventeenth of May, one thousand eight hundred and fifty-eight, as appears from the minutes of their proceedings, an agreement was made that the members of the Board should alternately act as Warden, and thereby save the State the expense of employing a person to act specially in that capacity; Lieutenant-Governor Walkup thereupon offered to act as Warden the whole time, without additional compensation. The offer was accepted. Upon that understanding he assumed the position of Warden, and continued to discharge the duties of that office.

At the present session of the Legislature, a bill was introduced in the Senate allowing him compensation, as Warden, at the rate of ten dollars per day. This bill was passed by the Senate. Whether this bill was introduced at his instance, or upon any special application made by him, your Committee are not advised, but they may safely assume that it was acquiesced in and approved by him, and that, if it had become a law, it was his intention to accept the compensation it provided. As the presiding officer of the Senate, it is to be presumed that he was aware of the introduction of such a bill, and it is equally to be presumed that the bill would not have passed the Senate against his wish, and in spite of that declaration which your Committee think he was bound to make, by every consideration of justice and fair-dealing, that he would not accept the bounty it proposed.

Your Committee can not but regard silence, under such circumstances, not merely as acquiescence, but as a tacit assertion of a rightful claim to compensation. Yet the claim, in the judgment of your Committee, was not only wholly destitute of merit, but was in violation of a positive understanding and contract with the Board of Directors, and with the State.

Charge Second.—From the testimony of Major McKay, Harrison, and others, it appears that, previous to the creation of the Board of Directors, and while the State-prison was under the sole management of Governor Weller, Major McKay was appointed to the office of Accountant and Commissary, and that he opened and kept a regular set of books, showing, in a proper manner, all the transactions of the Prison. As Commissary, he purchased all supplies for the use of the Prison, and the cost of the same was regularly entered in his books. Under Rule Six, adopted by the Board of Directors, the power to purchase supplies was continued in the Accountant and Commissary. In violation of this rule, Lieutenant-Governor Walkup, shortly after he assumed the position of Warden, took upon himself, or devolved upon other persons than Major McKay, who still filled the office of Commissary and Accountant, the duty of making purchases for the use of the Prison, and since that time the cost of supplies appears not to have been entered in the books of the Prison.

Why the simple and efficient plan adopted by Gov. Weller for the management of the Commissary department was not adhered to, your Com-

mittee are not informed. Certainly, it was not only desirable, but essential to the proper management of the Prison, and the right understanding of the state and condition of its business, that the books should exhibit—what they do not now exhibit—a full account of the transactions of each of its departments.

No suggestion has been made that the Accountant and Commissary was deprived of part of the authority vested in him by the rules of the Board, on the ground of the incompetency of that officer; on the contrary, Major McKay is proven to have been thoroughly conversant with the duties of his office, and eminently qualified to fill it.

Besides, had any such personal objection existed, the proper remedy would have been the removal of the officer, not the adoption of a new and improper system.

Charge Third.—From the evidence, it seems to have been the course of business to draw money from the treasury, in considerable sums, for the use of the Prison, and deposit it, until required, with Mr. Charles L. Weller, of San Francisco. It appears, from the testimony of Mr. Weller, that, upon one occasion, Governor Walkup drew from him one thousand dollars; that the receipt for the money was lost, or mislaid, by Mr. Weller; that Governor Walkup, upon being informed thereof, refused to acknowledge the receipt of the one thousand dollars; and that the voucher was afterward found, and admitted, by Governor Walkup, to be correct. While your Committee can see nothing in the transaction to warrant a belief that Governor Walkup was actuated by any motive other than a desire to secure himself and the State from any loss, yet they can not ignore the fact, that had the voucher not been found, the absence of any entry of the payment on any of the Prison-books would, in all probability, have subjected Mr. Weller to serious inconvenience, if not the loss of the amount he had paid. If the affairs of the State-prison had been conducted in anything like a business manner, no difficulty or question could have arisen from such a cause as the loss of a voucher.

Your Committee feel constrained to express the opinion, that the failure to keep the books of the Prison in such a manner as to show all moneys paid, argues gross carelessness and neglect of duty on the part of those having the management of the institution, and the conduct of its business.

Charge Fourth.—Upon reference to tabular statement of issues accompanying this report, it will be seen that the average daily issue of provisions was two thousand four hundred and fifty-six pounds, while the Board of Directors claimed to have issued daily two thousand six hundred and twenty-two pounds, ten ounces. The daily issue was therefore one hundred and sixty-six pounds ten ounces, less than claimed.

The aggregate issue, from the first of May, one thousand eight hundred and fifty-eight, to thirty-first December, one thousand eight hundred and fifty-eight, is stated in the report of the Board to have been four hundred and eighty-five thousand two hundred and sixty-six pounds, while your Committee find, from the books, that the actual aggregate issue for the same period was six hundred and one thousand seven hundred and twenty-three pounds.

Charge Fifth.—It appears that the Chief-Warden, Governor Walkup, has for some months been in the habit of employing a Mr. Harrison in the purchasing department, and also in the capacity of a disbursing agent

in various branches of the institution. Mr. Harrison was, consequently, intrusted with large amounts of money belonging to the State.

It will be seen, by reference to the testimony of Chas. L. Weller, that he informed Governor Weller that it was rumored about the City of San Francisco that Mr. Harrison was gambling off the money of the State.

This information was communicated by Governor Weller to Governor Walkup, and the latter went to San Francisco and investigated the matter, and ascertained, as he said, to his satisfaction, that, though Mr. Harrison had been gambling, it was not with the money of the State. It appears that these rumors again becoming rife, were a second time communicated to Governors Weller and Walkup, and some steps were taken towards an investigation, but were suspended upon the appointment of your Committee.

It will also be seen, on reference to the testimony of J. G. Sheppard, that, on one occasion at least, Mr. Harrison did, according to his own confession, gamble off a large sum of money belonging to the State, and declared that if he did not win it back, he was a ruined man. Your Committee can not say that the State has sustained any pecuniary loss through the indulgence of Mr. Harrison in this most dangerous and pernicious vice, for there is no tangible evidence of any deficiency that would lead to that belief. Yet it would seem clear that he did gamble off money belonging to the State. Whether the money was "*won back or not*," was replaced by him from his own resources, or in what other manner, your Committee are not prepared to say, but it appears that some means were found to make good the loss.

Apprised, as they were, of the charge made against Mr. Harrison, it was, in the judgment of your Committee, the duty of Gov. Weller and Gov. Walkup, to take immediate and effectual measures to ascertain the truth or falsity of the charge. How diligent an inquiry was made does not appear. It would seem that it was not sufficient to ascertain the whole truth, but the little that was ascertained, was sufficient, in the opinion of your Committee, not only to justify, but imperatively to demand, at their hands, the prompt dismissal of Mr. Harrison from his office. No one addicted to gambling can be deemed a safe depository of the public money.

Charge Sixth.—By reference to the testimony of Murphy, Larkin, Angenot, McKay, and others, it will be seen that Mr. Harrison did, on several occasions, when he made purchases for the Prison, retain some of the money in his hands, and give his individual note for the same, and that several vouchers were thus obtained for so much cash which was not in fact paid. Also, that vouchers were obtained from other parties in San Francisco, representing cash disbursements, but for which bricks were to be furnished, and that the bricks are still undelivered. Your Committee are of the opinion that the cash represented by many of those vouchers, particularly the smaller ones, was actually advanced by Gov. Walkup to Harrison—that the latter, on his own responsibility, retained the amounts, giving his individual notes in lieu of the money, and that Gov. Walkup was not aware, at the time it was done, that his agent was keeping any money back. This dealing on the part of Mr. Harrison, your Committee think, should have led to his dismissal so soon as the Board of Directors were apprised of it. Such a result has not followed the very grave faults committed by this employé of the Prison—he is still in the service of the State.

Charge Seventh.—The testimony of O'Connor, Clay, and Gordon, shows that a quantity of the material used in the construction of the store-house belonged to Mr. McCauley, as, also, a quantity of brick used in the construction and repair of *brick-kilns*.

As regards the charges for work done upon the State-prison property, as stated in the report of the Board of Directors, your Committee are convinced that many of them are too high. The charges for excavating and for opening South Cannon Road, and for filling-in *Lower Wharf*, are excessive. This wharf, as it is called, is a mere embankment, made of the bats and refuse stone and rubbish taken from the stone-quarry, and from excavations made, and charged to the State, separately.

All this refuse material of the brick-yard and quarry had to be removed, and the most convenient place of deposit for it was where this embankment is made.

The prices charged for building brick walls and pavements are also too high. The same work, for which the State is charged sixty cents per cubic foot, can be done by competent builders for forty cents. Brick walls, charged at twenty-two dollars per thousand, can be erected for eighteen dollars per thousand. And the pavements, which are estimated at eighteen dollars per thousand, can be made, with good brick, for seventeen dollars per thousand. Most of the pavements at the Prison are made with *bats*, which are credited to the Prison as loss from breakage. The same kind of pavement can be laid for twelve dollars per thousand, including cost of bats.

The price charged for stone, (one dollar and fifty cents per cubic foot for rough ashler,) is too high. Granite of the best quality is worth, in the same state, at the quarry, only one dollar per cubic foot.

Charge Eighth.—It will be seen, from the testimony of Dr. Taliaferro, Messrs. Colister, Kelly, Putnam, and others, that Lieutenant-Governor Walkup, whilst acting as Chief-Warden of the Prison, did, on several occasions, participate in dances at the house of one *Robinson*, and also at the house of one Mr. Parker, near the State-prison; that on these occasions a convict named "Jackway" was the fiddler; that "Jackway," who was what is denominated a *full trusty*, attended, with the consent of Governor Walkup, got drunk on several occasions, and once broke up the dance by refusing to play the fiddle any longer.

JOHN F. McCAULEY.

As this gentleman has figured considerably in the concerns of this Institution, your Committee have taken the responsibility, under the general nature of their instructions, to investigate some of the general charges that have been alleged against him.

In the first place, we deem it but an act of justice to him to say, that there is every evidence that whilst he was in charge of the Prison, every exertion was made, on his part, to place the Prison in such a condition as would not only secure the safe-keeping of the convicts, and conduce to their general comfort, but every effort was made to place the Prison in such a condition as would enable those having charge of convicts to use them to the best possible advantage. With a view to this, buildings, of a very substantial and costly character, were erected, particularly in the kitchen and eating departments; also, large and commodious workshops,

and a fine suit of outside buildings, for officers, and sleeping-apartments for the employes of the Prison. Those buildings are all constructed of good material, and in a good, substantial, and convenient manner. From all the evidence in the case, it appears, to the satisfaction of your Committee, that the present plan and arrangements of the Prison are all based upon plans and suggestions made or commenced by McCauley. As to the treatment of the prisoners, whilst under McCauley, there seems to have been but little difference between his management and that of his successors.

Upon examination, it will appear, to the satisfaction of every candid and impartial mind, that most of the charges alleged against Mr. McCauley had no foundation in truth or justice, and had their origin in prejudice alone—as the evidences are indisputable that he spent many thousands of dollars in erecting buildings, etc., at the Prison, which are at present extant, and of great service to the State.

In conclusion, your Committee feel it due, not only to themselves, but to the public, to say that in the discharge of their duty, it has been necessary to enter into the investigation of charges of a serious nature, reflecting on the conduct of the Board of Directors, and those in their employ. In doing this, they have lost sight of all personal consideration or individual preferences. In doing this, it will be seen that forty-four persons were examined, whose affidavits are herewith appended, and to which we would respectfully call your attention.

From the nature of the evidence, and the information obtained from other sources, your Committee can not ignore the fact that there has been, in the management of the affairs of the Prison, a great want of system, and there has, as an inevitable consequence, arisen a great deal of confusion. This, your Committee are more disposed to attribute to the incompetency of those immediately connected therewith, than a desire on their part to wrong the State.

Amongst those employed at the institution are some that are wholly incompetent to discharge the duties entailed upon them. The present Acting-Warden, John C. Gordon, Esq., is not a suitable person for the position that he occupies, as may be seen by reference to the deposition of Captain Simpton, and others; his capacity is totally inadequate to the proper discharge of the duties of the position.

There are, also, other officers whose habits of intemperence render them unfit to have charge of the convicts.

Your Committee would further add, that whilst they feel it their imperative duty to recommend a thorough re-organization of the State-prison Directory, yet they do not feel it incumbent upon them to recommend any particular plan, but would leave that matter entirely to the discretion of your honorable body, from the data herewith furnished.

Your Committee would further say, that as regards the sale of brick, reported by the Directors, it is very satisfactorily shown that a large portion were sold at prices not only ruinously low, but that, with a proper effort, and judicious management, sales far more remunerative to the State might have been effected.

Your Committee are satisfied that brick can not be sold and delivered by the Prison for seven dollars per thousand, with any profit to the State, as they cost between four and five dollars per thousand, at the Prison-

yard, and it costs two dollars per thousand to deliver them, and fifty cents commission for selling the same.

The amount of forty-two thousand dollars, charged by the Directors to the State for wood and material used in burning brick, your Committee can not understand, (as may be seen from the testimony of Mr. Clay, a practical brick-burner, and one employed at the Prison.) It would seem that not over forty-five cords of wood were used to burn one hundred thousand brick. There are, on an average, four hundred and eighty thousand brick to the kiln, and there were nineteen kilns burnt at the Prison, containing nine million eight hundred and twenty thousand brick, for which four thousand eight hundred and fifteen cords of wood were used. This, at an average of five dollars per cord, gives twenty-four thousand dollars and seventy-five cents, for wood; which, deducted from forty-one thousand three hundred and one dollars, would leave an item of seventeen thousand two hundred and twenty-six dollars for "*other materials.*"

All of which is most respectfully submitted.

BENJ. S. HINES,
Chairman of Committee.

E. C. TULLY,
LASPEYRE.

Attest: EDWARD F. CONWAY, Clerk of the Committee.

‡For excavating Road east of Prison.....	1,715 00	
Total value.....		\$28,869 22

REMARKS.

* The 5,312 cubic yards of filling-in wharves, as charged, per Directors' Report, at \$2,706, the Committee can not allow, for it was only the refuse of the stone-quarry, and broken and worthless brick, that were thrown in, as a more convenient way of getting rid of it.

† The 58,900 bricks charged in Directors' Report, as used in paving, not allowed, as they form part of the twelve per cent. broken brick lost in burning and handling.

‡ The 1,715 cubic yards filling-in, charged in Directors' Report, not allowed, as it was the most convenient place to remove the material, and the Committee think the price allowed for excavating ample for both. The filling-in is also off the Prison-grounds.

|| The items of Quarry, Long-room, Carpenters' work, Stock added, and Painting done, as enumerated in the Directors' Report, are not enumerated by the Committee, as credit has not only been given for them, but also for all personal property taken possession of by the State, on the first day of March, one thousand eight hundred and fifty-eight, in Schedule B, amounting to nineteen thousand three hundred and twenty-three dollars, and forty-five cents.

ESTIMATE BY MR. JOHN H. DALL.

To Messrs. Hines, Laspeyre, and Tully, Committee of the Assembly on State-prison:

GENTLEMEN:—By your request, I have measured and valued the buildings erected for the use of the State-prison, at San Quentin.

* These three items I could not get at, as they were all covered up. I therefore allow the price as charged in their Report.

In regard to the paving, thirty-six brick will lay a square yard.

† The stone work I could not measure, on account of there being a large portion of it under ground. I therefore take the measurement as given to me by Mr. O'Connor, the mason in charge of the work: the above estimate is for the building, so far as it was completed, on the day I made the measurement, March twenty-second, one thousand eight hundred and fifty-nine.

REMARKS.—*Excess of Expenditures over Receipts.*—This amount is what has been expended at the Prison for purchase of material for improvements, purchase of supplies, pay of employees, and all expenditures in conducting and carrying on the institution from the first of March, A. D. 1858, to the twenty-sixth, March, 1859, inclusive, over and above the amount of money received from the State, and profits on products of Prison-labor. This item also includes the difference between the valuation placed upon the property when taken by the State, and the valuation placed upon what was found on hand by your Committee, as well as the ordinary wear and tear of tools, etc. Also the amount of brick due Mr. McCauley, less his brick on hand.

The above Synopsis has been compiled from such data as was furnished your Committee by the officers of the Prison, and such information as could be gathered from the few books kept by them, but owing to the absence of anything like system in those transactions, your Committee do not feel warranted in vouching for their correctness, yet they believe that it will be found, in the main, sufficiently correct to give a general idea of what the transactions of the establishment have been during the period above mentioned.

* There are several large stacks of bats (or clinkers,) in the Prison-yard, that are included in the twelve per cent. that are claimed by J. C. Gordon, the Acting-Warden. They were burnt by the State, and we are informed that, for certain purposes, are fully as valuable as the best hard-burnt brick, per weight.

† This includes a large number of "bats" which are allowed in the twelve per cent., and should be deducted, but your Committee can not get the exact number of "bats" sold.

‡ Mr. Dall makes in the Store-house two thousand six hundred and fifty brick less than the Directors report; in Prison-office, five thousand five hundred less than the Directors' report.

§ The Directors report fifty-eight thousand nine hundred brick, as used in paving Prison-yard, which are not allowed by your Committee, as they are "bats," and allowed in the twelve per cent. above-mentioned.

|| This item of one per cent. is allowed by your Committee on the number of brick received, on hand, and sold, by Mr. Templeton, the agent, though we think it a liberal estimate.

TESTIMONY.

DEPOSITION OF JOSÉ GARCIA.]

SAN QUENTIN, STATE-PRISON, March 22d, 1859.

José Garcia, upon first being duly sworn, deposes and says:

I am a resident of Marin county, and have lived here for eighteen years; I have sold cattle to the Prison; I have sold sixty-two large head and one small head; I delivered them in two lots; the first lot I delivered in November, one thousand eight hundred and fifty-eight, and the second lot I delivered either about the last of December, one thousand eight hundred and fifty-eight, or the beginning of January, one thousand eight hundred and fifty-nine; there were twenty-nine head in the first lot; I received for them twenty-three dollars and seventy-five cents per head; the second lot, I sold part of them by the head and part by the pound; I got five cents per pound; that is all that I have sold to the State-prison; the cattle that I sold, I don't know the average weight; some of the cattle brought me eighteen dollars—some more and some less.

Cross-questioned by Governor Walkup.—The contract was that those which weighed over four hundred and eighty pounds I was to receive twenty-four dollars per head for; under that weight I was to receive five cents per pound; those that were killed and sold by weight, I saw them weighed; I don't know the exact amount of money I received for cattle, but have received over one thousand three hundred dollars; I received payment in full for all cattle sold to the Prison, according to contract; I have never paid, either directly or indirectly, any money for commissions.

Question by the Committee.—I did not make the trade myself, but know so through my brother, who is my partner.

JOSÉ GARCIA.

Sworn and subscribed to before me, this twenty-second day of March, A. D. one thousand eight hundred and fifty-nine.

BENJ. S. HINES,
Chairman of the Committee.

Attest: EDWARD F. CONWAY, Clerk of Committee.

DEPOSITION OF IGNACIO PACHECO.

STATE-PRISON, March 22, 1859.

Ignacio Pacheco, upon first being duly sworn, deposes and says :

I am a resident of Marin County, and have resided here since the year one thousand eight hundred and twenty-six; have sold cattle to the State-prison, at different times; have sold cattle at different prices; I sold, on the nineteenth May, one thousand eight hundred and fifty-eight, twenty-four head, at twenty-five dollars per head; June ninth, one thousand eight hundred and fifty-eight, twenty-five head, at twenty-five dollars per head; July first, one thousand eight hundred and fifty-eight, twenty-five head, at twenty-five dollars per head; on the second of March, one thousand eight hundred and fifty-nine, ten head, at thirty dollars per head; also, July twenty-second, one thousand eight hundred and fifty-eight, twenty-eight head, at twenty-five dollars per head. I have been paid in full for the same. I never paid any commission to any person whatever, for selling cattle to the State-prison.

Cross-question by Governor Walkup.—Neither Major McKay nor any other person, has ever spoken to me relative to what evidence I should give before this Committee. In selling to the Prison, I have rodeoed my cattle, and the agents of the Prison have been to my place, and picked out the best cattle.

IGN'O PACHECO.

Sworn and subscribed to before me, this twenty-second day of March, A. D. one thousand eight hundred and fifty-nine.

BENJ. S. HINES,

Chairman of Legislative Committee.

Attest: EDWARD F. CONWAY, Clerk of Committee.

DEPOSITION OF WM. J. MILLER.

SAN QUENTIN, STATE-PRISON, March 22, 1859.

William J. Miller, upon first being duly sworn, deposes and says :

Am a resident of this County; have resided here, off and on, since one thousand eight hundred and forty-four; have sold two cattle to the Prison; I sold them by the head; have received sixty dollars for the two head; they were Spanish cattle; both cattle would weigh about nine hundred pounds; don't know the exact time I sold the cattle, but think it was five or six weeks ago; signed vouchers for money received; I signed for ninety dollars, and received that amount; the other thirty was for one head, sold to the Prison by my father; have been engaged in buying, selling, and raising stock, since one thousand eight hundred and forty-four; am familiar with the cattle owned by Messrs. Pacheco & Black; would consider twenty-eight and thirty dollars per head a fair average for their beef cattle; in my opinion, consider myself a good judge of cattle, and their weights; from what I know of cattle that I have seen here, would average about four hundred and fifty pounds net; think that I could pick out of Messrs. Pacheco & Black's cattle, cattle that would weigh, or average, five hundred pounds weight. Know of one case where the agent of the Prison had the privilege of selecting from Pacheco's rodeo a lot of cattle. The prices within the last eight months, for Spanish beef cattle, have ranged twenty-five, twenty-eight, thirty, thirty-five, and

thirty-eight dollars per head. Have never known or heard of any person giving a commission to any officer of the Prison, for buying any cattle from them.

WM. J. MILLER.

Sworn and subscribed to before me, this twenty-second day of March, A. D., one thousand eight hundred and fifty-nine.

BENJ. S. HINES, Chairman of Committee.

Attest: EDWARD F. CONWAY, Clerk of Committee.

STATE OF CALIFORNIA, *County of Marin*.—Legislative Committee in session at San Rafael, in the County above named, called to order, at ten, A. M., this twenty-third of March, A. D. one thousand eight hundred and fifty-nine.

Lieutenant-Governor Walkup objected to the Committee meeting in San Rafael, as the resolution called for them to meet at the State-prison.

Objection overruled, unanimously, by the Committee.

DEPOSITION OF EGBERT VAN ALLEN.

SAN RAFAEL, Marin County, March 23, 1859.

Egbert Van Allen, upon first being duly sworn, deposes and says :

I am a resident of Marin County, and have resided here about six or seven years ; I have sold wood to the State-prison within the last year ; I can't say how much I have sold ; I have received prices for my wood, ranging from four dollars and seventy-five cents, to five dollars, or perhaps five dollars and twenty-five cents ; I have been paid in full for all wood sold to the Prison ; and have never paid any commission to any person ; I received payment for all the wood delivered at the time I signed vouchers ; nothing was owing to me from the Prison at the thirty-first day of December, one thousand eight hundred and fifty-eight.

Signed,

EGBERT VAN ALLEN.

T. LASPEYRE, for the Committee.

DEPOSITION OF MATTHEW MCGEE.

SAN RAFAEL, Marin County, March 23, 1859.

Matthew McGee, upon first being duly sworn, deposes and says :

That I am a resident of Marin county, and have resided here about four years ; I have sold wood to the State-prison within the last year ; I don't recollect the exact amount of wood sold ; I received five dollars and twenty-five cents per cord ; it was oak wood ; I have been paid in full for all wood sold ; the last wood I sold to the Prison was in August, one thousand eight hundred and fifty-eight ; never received any notes ; was paid in cash at the time I signed the vouchers ; I never paid any commission to any person whatever for the privilege of selling wood to the Prison.

DEPOSITION OF JOHN COLISTER.

SAN RAFAEL, Marin County, March 23, 1859.

John Colister, being first duly sworn, deposes and says :

That he is a resident of Marin County, and has resided here, off and on, for six years; I was at Robinson's, at a dance, one night, and saw a man there known as Jackaway; I have seen Jackaway around the State-prison—I have seen him driving cattle, and have seen him at the stable of the Prison; he (Jackaway) was playing a fiddle at the ball, all the time that we were dancing; there were five ladies at the dance, I think.

Question by Governor Walkup.—Neither Mrs. Hall, nor Mrs. Philips, was there, at the ball; Governor Walkup was there, and Robinson, an attaché of the Prison; Governor Walkup was dancing; I danced in the same set with him myself; I did not see Jackaway drinking; Jackaway did not break up the dance; while I was there, he did not refuse to play; there was no trouble, and I was there all the time the dance was going on, and until it closed; I took the ladies home in my stage; Governor Walkup was outside the door when I left; he helped the ladies in the stage, and I bid him good night; I should think it was about two or three o'clock when I left, perhaps later.

By the Committee.—This happened since last August; some time in the winter, when Governor Walkup was Warden of the Prison.

Cross-examined by Governor Walkup.—Neither Mr. Skidmore or his wife was at the party; Governor Walkup conducted himself as a gentleman, as did the rest of the persons present.

By Major McKay.—Robinson's house is a hotel; there is a bar in it.

By the Committee.—I am running a stage from this place to the Point; I have been running it for about eight months.

By Mr. Harrison.—I have sold wood to the State-prison; I sold about two hundred cords to General Harrison, as the agent of the Prison; I sold it some time between the first of May and first of August; I received five dollars and twenty-five cents per cord for it; it was oak and ash wood; I was paid in full; I was paid for the first one hundred cords before it left the bank; I never paid any commission to any person for getting me the contract for supplying the State-prison with wood; I told Mr. Harrison that I would have to be paid in advance for my wood, as I heard that the State owed for wood already; I mean when the State had it,—in one thousand eight hundred and fifty-five, and one thousand eight hundred and fifty-six,—when the K. N.'s had it; I had one hundred cords on the bank, and Mr. Harrison was to pay me \$525 for the wood, and while he was counting me out the money, he asked me if it would do if he would pay me for fifty cords, as he wanted to buy some more wood from a Frenchman, but I stopped him right there, and told him that I wanted five hundred and twenty-five dollars, in full, and if I didn't get it, he couldn't have a single stick—and he paid me five hundred and twenty-five dollars for the same; I signed vouchers for all moneys received by me from the agent of the Prison, and signed for no more money than I received.

JOHN COLISTER.

Sworn and subscribed to before me, this twenty-third day of March, A. D. one thousand eight hundred fifty-nine.

BENJ. S. HINES, Chairman of Committee.

Attest: EDWARD F. CONWAY, Clerk of Committee.

DEPOSITION OF J. C. ANGOUNET.

SAN RAFAEL, Marin County, March 23, 1859.

Francisco Angounet, upon being first duly sworn, deposes and says:

That he is a resident of Marin county, and has resided here for five years; I have sold one hundred and fifteen cords wood to Gen. Harrison, as agent of the Prison; I sold it about the twentieth of September; I sold it for four dollars and seventy-five cents per cord; it was redwood, and I have received payment in full; Gen. Harrison paid me one hundred dollars when the contract was made, and two hundred and forty-three dollars and seventy-five cents he paid me in San Francisco; about a week after the time he paid me one hundred dollars, he paid me the balance; Gen. Harrison gave me his own note for one hundred and thirty-one dollars and seventy-five cents at the time I signed a voucher, and I paid the note to Mr. Reed, for stumpage—I owed him ninety dollars, and Mr. Reed paid me the balance on the note, which was forty-one dollars and seventy-five cents; about fifteen or twenty days after I delivered the wood at the Prison, I paid Mr. Reed, with Gen. Harrison's note, for stumpage; I never asked Gen. Harrison for the money on the note.

F. C. ANGOUNET.

Sworn and subscribed to before me, this twenty-third day of March, A. D. one thousand eight hundred and fifty-nine.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF LEWIS SMITH.

SAN RAFAEL, March 23, 1859.

Lewis Smith, upon first being duly sworn, deposes and says:

That he is a resident of Marin County, and has resided here about five years; have sold, at different times, wood to the State-prison; I sold wood to General Harrison and Governor Walkup, as agents of the Prison; I received all the money from Governor Walkup for wood sold to him for the Prison; I did not receive the whole amount from General Harrison for wood sold to him, as agent of the Prison; I am five or six dollars short, at least; General Harrison offered me the full amount for wood sold, but I could not make the change; I asked General Harrison for the money that is owing to me since, but he made some excuse; he had money at the time; I have never been paid the balance; I never informed Governor Walkup that money was due me; think I sold seventy or eighty cords of wood to the Prison, and have signed vouchers for the whole amount of wood delivered, (more or less;) I can neither read or write English; I am satisfied that the vouchers presented to me were correct, as there was a man with me who read some of the receipts; the man who was with me is named George Latzinhiter.

Witness returned, and further testified, that he cut three laurel poles, for ox-cart tongues, for which he charges five dollars; I delivered them on board the Pike County, and have since demanded my pay from General Harrison, but have never received it; I have never signed any vouchers for said poles, but am willing to do so, when I get my money; I never asked any person but General Harrison for the money; never mentioned the circumstances to Governor Walkup; I delivered said poles some time in July or August, one thousand eight hundred and fifty-eight.

DEPOSITION OF R. S. BROWN.

SAN RAFAEL, Marin County, March 23, 1859.

R. S. Brown, upon being duly sworn, deposes and says:

That he is a resident of Marin county, and has resided here over six years; I have sold wood to the State-prison; I sold wood to Governor Walkup and General Harrison; I sold for five dollars per cord; I don't know how many cords I have sold; I have been paid in full for all wood sold to the Prison; at the last settlement with General Harrison I gave my voucher for the wood I delivered to the State-prison, amounting to about one hundred and fifty-five dollars; General Harrison paid me one hundred dollars in cash, and gave me his individual note for fifty-five dollars; the transaction occurred some time before Christmas, at the time of giving the one before the last voucher; the fifty-five dollar note was paid to me within the last twenty-four hours; I think the fifty-five dollar note covered everything up to the first of January, one thousand eight hundred and fifty-nine; as far as the fifty-five dollar note is or was concerned, it was a friendly arrangement between General Harrison and myself, and I signed the vouchers releasing the State, knowingly.

Question by Governor Walkup.—I never paid any commission; never to my knowledge has the State's credit been injured; I have always found Governor Walkup a strict business man, and honest in all his transactions with me.

R. S. BROWN.

John Murphy, first upon being duly sworn, deposes and says:

I am a resident of Marin County; and have resided here nearly two

years ; I have sold wood to the State-prison ; I sold about one hundred and twenty cords of wood to General Harrison, for the State-prison ; I sold it at five dollars per cord ; I have been paid in full ; I think I sold the wood to the Prison before the first of January, one thousand eight hundred and fifty-nine ; I received the balance of the bill, eighty-two dollars and fifty cents, on the seventeenth day of March ; I can read and write ; the first payment I received from Governor Walkup, and it was in full for all wood I had delivered, up to that time ; on the thirty-first day of December, I had been paid in full for all wood delivered to the the Prison, and signed vouchers for the same ; I signed vouchers for no more money than I received ; about the twenty-sixth of January I sold wood to General Harrison, as agent of the Prison ; I sold thirty-four and one-half cords, at five dollars per cord, and received in cash all but one hundred and twenty-two dollars and fifty cents, and I signed a voucher for the full amount, but General Harrison gave me his individual note for one hundred and twenty-two dollars and fifty cents ; General Harrison's note has been paid, to my satisfaction ; I took one barrel Golden Gate brand flour in part payment for the note ; I got the flour in San Francisco, but don't know what part of the City I got the flour in ; I got the flour on the seventeenth of March ; the balance of the note was paid on the same day, in cash, or its equivalent ; I also received two hundred pounds of barley, in part payment of the note ; I received it on the seventeenth of March, at the store of Tully & Durkin ; I also got one hundred pounds of sugar from the store of J. H. Coghill & Co.; likewise, twenty-five pounds of coffee at the same store ; I considered the above things as cash ; asked General Harrison for the note, and he asked me if I would not take a portion of it in goods ; I chose the goods myself, in the different houses ; the goods I received amounted to twenty-five dollars, more or less ; the balance of the note was paid to me in cash, with the exception of a dollar or two, which I received afterward ; I took General Harrison's note because he had not the money ; when I signed a voucher to the Prison, I knowingly released the State ; I called at the Prison to see General Harrison, to get my money, several times, but he was always absent ; I told parties that I held a note against General Harrison, and could not get my money ; when I went to the Prison for my money, I saw Major McKay, and he took me to his quarters and spoke to me relative to the note, and I showed it to him ; Mr. Simms spoke to me, relative to the matter, within the last three days, at Mr. Brown's house.

JOHN MURPHY.

Sworn and subscribed to before me, this twenty-third day of March, one thousand eight hundred and fifty-nine.

DEPOSITION OF JUAN GARCIA.

SAN RAFAEL, Marin County, March 23, 1859.

Juan Garcia, upon first being duly sworn, deposes and says :

I am a resident of this county ; have resided here for sixteen or eighteen years ; have sold cattle to the State-prison—one time twenty-nine head, and at another time I sold thirty-two large head and one small head ; the first twenty-nine head I sold for twenty-three dollars and seventy-five cents, and the next lot, all that weighed over four hundred

and eighty pounds, I was paid twenty-four dollars per head for, more or less, the balance, per weight, at five cents per pound; I saw the beef weighed; I mean all that were killed while I was there at the Prison, and the cattle that were slaughtered were killed for the purpose of making an average of the balance.

Cross-questioned by Governor Walkup.—According to my contract with the State, the agents of the Prison have fulfilled their agreement, and I have been paid in full for all cattle delivered; the State paid me in full, upon final settlement, for those that I did not see killed, according to the average that I saw killed and weighed; I never paid any commission to any person for the privilege of selling cattle to the Prison; the cattle I sold to the Prison were brought from Punta Reyes Ranch.

Question by the Committee.—I don't know how many different kinds of cattle I delivered to the Prison; they consisted of stags—some were steers, some were bulls, and cows and calf, and they were entirely wild; some of them were poor, and some of them in good order; not any of them were very poor, nor any of them very fat; I don't think any of them were sick, as they apparently seemed to be stout; I am in company with my brother, José García.

JUAN GARCIA.

DEPOSITION OF JAMES BLACK.

SAN RAFAEL, Marin County, March 23, 1859.

James Black, upon first being duly sworn, deposes and says:

I am a resident of Marin County; have resided here since one thousand eight hundred and thirty-four; am a ranchero; have sold cattle to the State-prison; I sold them three or four lots of cattle, and was always paid on the delivery of the cattle; I never paid any commission to any person for getting the contract to supply the State-prison with the cattle; the last two bands I sold for thirty dollars per head; those I sold before, I got twenty-five dollars per head for; the two last lots I sold to the Prison, I was offered eight cents per pound for them, dressed, by a butcher; the last two bands I sold to the Prison were fine steers, with the exception of two bulls; the first lots I sold to the Prison consisted of stags and steers, principally stags; I signed vouchers for all money received from the State-prison; when I sold cattle, the agent of the Prison had the privilege of choosing them from the rodeo, out of a band of fifteen hundred cattle.

JAMES BLACK.

Sworn and subscribed to before me, this twenty-second day of March, A. D. one thousand eight hundred and fifty-nine.

DEPOSITION OF W. R. ISAACS McKAY.

SAN QUENTIN, STATE PRISON, March 24, 1859.

W. R. Isaacs McKay, upon first being duly sworn, deposes and says: I am an employé of the State-prison; I am Commissary and Quarter-

master; have been engaged in that capacity since the first of last March; I have kept a record of the affairs of the Prison part of the time, and part of the time I have not; on my appointment, by Governor Weller, to the position of Commissary and Quartermaster of the State-prison, on the first of March, I received positive orders from him to open a set of books, conforming, as near as possible, to the Quartermaster Regulations of the Army, it being his wish that they should be a permanent record; I have done so, and now exhibit the Commissary-book, showing daily issues, from the first of March, one thousand eight hundred and fifty-eight, to the first of March, one thousand eight hundred and fifty-nine; this book shows the daily issues to the prisoners, and the employés, separate and distinct, of the different articles that have been issued, as also materials and clothing purchased; the wood, and other articles purchased for the manufacture of brick, and the quarrying of stone; there are also the commissary supplies purchased for the Prison; the amount paid, from whom purchased; as, also, a specification of articles purchased.

Question.—Were six hundred and fifty-five pounds nine ounces of meat issued daily to the prisoners and employés of the Prison?

Answer.—There were eleven thousand five hundred and twenty-eight pounds of fresh beef issued to the Prison proper; one thousand five hundred and ten pounds of salt-beef to the prisoners, and three thousand four hundred and sixty-eight pounds of codfish; to the boats, one thousand one hundred and seventy pounds of fresh beef, and fifty pounds of codfish; to the employés, two thousand eight hundred and sixty-one pounds of beef; there were four hundred and seven pounds of coffee, in all the departments, boats included.

The above supplies were issued for the month of May, inclusive.

At one time I purchased articles for the State-prison; during the months of March, April, and a portion of May, I done so; I purchased them as Quartermaster and Commissary; I did not continue to purchase for the Prison, as Gov. Walkup gave that his personal attention; all the expenditures of the Prison have been entered in my books, up to the thirty-first of December; the articles purchased, as entered upon my books, have been received at the Prison; since the thirty-first of December, I have not entered any goods purchased for the Prison; my reason for not entering the purchases were, that Gov. Walkup did not himself make purchases since the thirty-first day of December, to my knowledge; I had every confidence in Gov. Walkup's integrity and honesty in making purchases for the Prison, from the month of May, and knew that his purchases were below the market-price; I knew what he intended to purchase, and what he had purchased, I was therefore safe in entering those purchases on the books, and, by doing so, to assume any and all responsibility, but now, (I mean since the thirty-first day of December,)

the case is otherwise—Gen. Harrison purchases; from various rumors and a few facts that have come to my knowledge, I have not that confidence in Gen. Harrison's integrity to warrant me to enter upon my books accounts that he has contracted; I found out that complaints were made by Brown, Murphy, and one other man, that I don't recollect his name, that they had receipted vouchers, at the request of Gen. Harrison, for wood, under the assurance from Gen. Harrison that it was to enable Gov. Walkup to close up his monthly accounts, that he would then draw money, and pay these accounts.

I knew this was false; I also knew, perfectly well, that no account had ever been entered upon Gov. Walkup's cash-account but such as had been paid; I knew that he gave to Gen. Harrison the money to pay these very men; Gen. Harrison got them to receipt the vouchers, and gave them his individual due-bill; I knew, a week ago, that a portion of these due-bills remained unpaid; the parties were at the Prison complaining of the hard usage they had suffered from Gen. Harrison; I reported to Mr. Gordon, the present Acting-Warden, early in January, that I had received conclusive evidence, and from undoubted authority, that Gen. Harrison was gambling largely; I considered it also my duty to mention that report to Gen. Harrison himself, and I did so; I told him that if the report was incorrect that it was his duty to disprove the charge of those reports; I was suspended from duty late in January, and the commissary purchases and issues I found entered upon the books when I returned to the Prison; I have adopted, as near as I could, the army regulations in the manner of keeping my books; if the books had been properly kept, it would appear from them, all the purchases made, issues, and all the work done and performed in the Prison; I opened a book as an Inventory-book, which I intended should contain a full record of all stores and supplies at the Prison, but the duties of the Prison were so subdivided, and I saw that there was an inclination to keep each little department separate, and that information which I thought I ought to have received from the different officers was withheld, I discontinued the book; for instance, I know nothing of the sale of bricks, shipment of bricks, and in fine, I am altogether ignorant of the transactions and affairs of the Prison; if this book had been kept properly I would have known, monthly, what property was sold, and what articles were manufactured at the Prison, and I would have had an inventory of all property at the Prison, and the manufactures of the same, at the end of each month; I was suspended by Governor Walkup; I had claimed from the first of January to discharge personally the duties of Commissary and Quartermaster, as specified by the Regulations, which would give me, under the control of the Warden and Board of Directors, the superintendence of the money transactions of the Prison; I declined, after Governor Walkup retired from the Prison, to assume in any manner the apparent responsibility of the money transactions; which responsibility I was willing to assume under Governor Walkup, but under no other; I do not mean that Governor Walkup is the only man that I would trust; but I have every confidence in his accounts; I did not speak to Governor Walkup at any time relative to the accounts for which General Harrison's notes-of-hand were out; I did not know anything about these transactions prior to the thirty-first of December, one thousand eight hundred and fifty-eight, when Governor Walkup left for Sacramento; I knew that Murphy's wood-bill had not been paid on the twenty-ninth of December, one thousand eight hundred and fifty-eight, for the reason, that he (Murphy) called at the Prison in January, one thousand eight hundred and fifty-nine, for his money, and

showed me General Harrison's note-of-hand, which was for one hundred and twenty-two dollars and fifty cents; I exhibited to Mr. Murphy his receipt in full for one hundred and twenty-two dollars and fifty cents, that being his receipt in full to date; and he stated that General Harrison's note was given to him for one hundred and twenty-two dollars and fifty cents for the wood that the voucher was receipted for; I saw the note a second time, and saw a credit on it for forty dollars—which forty dollars both he and Rickerstaff told me had been paid to Rickerstaff in San Francisco, by General Harrison; I also know that he (Murphy,) went down to San Francisco, with General Harrison, about a week ago, and was paid the balance of the note—part in money, and part in provisions. There were one hundred barrels of flour delivered on the eighteenth of March, one thousand eight hundred and fifty-nine; I do not know when Governor Walkup resigned as Chief-Warden of the Prison; he left here on the first of January, one thousand eight hundred and fifty-nine.

Question.—Had Governor Walkup his board, washing, lodging, and horses, free, while he was Warden?

Answer.—Yes; the same as the other officers.

Question by Major Graham.—Do your books show a daily issue of six hundred and fifty-five pounds of meat?

Answer.—No sir, they do not.

Question.—Did you consider that Governor Walkup violated the rules, by purchasing for the Prison, and not through the Commissary himself?

Answer.—I did.

I was not present at the meeting of the Board of Directors when Governor Walkup was appointed Chief-Warden.

Cross-questioned by Governor Walkup.—I never received orders from the Board of Directors to open a set of books, conforming, as near as possible, to the Quartermaster's Regulations of the Army, or any other books. I know of no rule, or regulation, of the Board of Directors, requiring me to keep such books, from the first day of May to the thirty-first day of December, one thousand eight hundred and fifty-eight, or requiring the Chief-Warden to have such books kept.

Question by Governor Walkup.—Do you know, of your own knowledge, that the issues set down in the Commissary's books are those that have actually been made?

I do not know it of my own knowledge, not having made the issues myself; the Commissary-clerk made, by far, the greater part of the issues himself, noting down, at the time, each issue; the issues correspond with the purchases, and the balance on hand, of each month, was compared with the stock on hand. Gen. Harrison was the Clerk in the month of May, but he was absent most of the time, buying wood and cattle; when I was appointed Commissary, under the administration of Gov. Weller, I found two prisoners (Backus and Peterson) acting as clerks, and I retained them; the Chief-Warden never attempted to control me in making issues; the reports of the issues were brought me by the parties above referred to; I frequently went myself, and compared them; the writing on page eleven of the Commissary's-book is not my handwriting, it is Peterson's, (a prisoner.) I will furnish, on to-morrow morning, a list of all meats issued, as appears on the Commissary's-book, and an estimate of all that is not carried up on the Commissary's books. Governor Walkup and myself were together in San Francisco, and I made purchases there for the Prison, during the months of May and June; Gov. Walkup always charged me to pay in full for all articles purchased for the Prison, and he handed me the money to make the payments, I taking the vouchers, and

receipting to him for sums of money turned over to me, from July to the thirty-first of December; Gov. Walkup attended to the purchasing, himself, in person; I have said to Gov. Walkup, on several occasions, that he was a better purchaser than I was, and a closer bargainer, and that statement is true; undoubtedly, Gov. Walkup would not permit any bills to be signed in full, for goods purchased for the Prison, and not paid for.

Question by Governor Walkup.—In whom did you see an inclination to keep information from you?

Answer.—I saw it in several of the officers, every officer having his own department.

Question by Governor Walkup.—Did you ever ask Gov. Walkup, or any officer, through him, for any information, that was denied you?

Answer.—I never did.

Question.—Do you not know that it is the duty of the Superintendent of Labor to make a monthly report of all the work done, improvements made, and articles manufactured?

Answer.—I know it is his duty to do so.

Question.—Was there an inventory of all property taken on the first day of May?

Answer.—No sir.

Question.—Did I suspend you until after you said to me that you would have no further conversation with me relative to the matter—I mean our difference of the construction of the Rules of the Prison?

Answer.—You did not. The State-prison Directors knew that Governor Walkup was making purchases for the Prison.

Question by Harrison.—What was the date of the Murphy note previously referred to?

Answer.—I don't recollect, but I swear positively, that Mr. Murphy told me it was for wood furnished to the Prison.

Question.—Did you go to San Francisco in the month of January last, and purchase provisions for the State-prison.

Answer.—Yes, sir, I bought about two hundred dollars' worth, to test whether I was to purchase, or General Harrison; the flour that I had brought up had been already purchased by General Harrison, in exchange for brick, from Alton, Welch & Co.; the other articles were from Coghill & Co.

Had you an order from the Warden, or Assistant-Warden, to make such purchases?

Answer.—If by Chief-Warden is meant Governor Walkup, he was not at the Prison at the time to give such order; I reported to J. C. Gordon, the Acting-Warden, that there was but one day's supply of flour on hand, and that I would proceed to San Francisco, and purchase the flour; Mr. Gordon stated he would rather I would not—that General Harrison was to do it.

Question.—What would the average issue of meat per day be, as shown by exhibit marked "A," No. 1?

Answer.—It would go over six hundred and sixty pounds per day.

Question.—Is that voucher of John Murphy, of the twenty-ninth of December, one thousand eight hundred and fifty-eight, in your hand-writing, and was Mr. Murphy paid in your office in cash on that day?

Answer.—The voucher is in my hand-writing; I have no recollection of the money being paid in my office, or his signing the said voucher there; all I know of the transaction between General Harrison and Mr. Murphy as stated in his deposition, was what I have heard from said Murphy, his brothers-in-law, Rickerstaff, and Brown, and having twice seen General

Harrison's note to Murphy; the first time I saw it was some time in the months of January and February, and the last time in March; it was for the exact amount of one hundred and twenty-two dollars and fifty cents, corresponding with the aforesaid voucher, dated twenty-ninth December, one thousand eight hundred and fifty-eight.

DEPOSITION OF ELIJAH PUTNAM.

SAN QUENTIN, Marin County, March 24, 1859.

E. Putnam, upon first being duly sworn, deposes and says:

I am a resident of Marin County, and have resided here for three years; I was at Robinson's, whose house is about one-quarter of a mile from the Prison; I was at a dance there, and there was a man playing the fiddle by the name of Jackaway, who was said to be a prisoner.

Cross-questioned by Gov. Walkup.—I don't recollect the time the dance was at Robinson's, but think that it was some time in last November.

Question by the Committee.—I heard that Gov. Walkup was Warden of the Prison at the time.

I saw Gov. Walkup at the dance, and saw him dance several times; I don't recollect just now who all were present at the dance; some of the guards of the Prison were there; young Gordon and Charles Simpton were there; they danced, also; I don't know Mrs. Hall, and don't think that she was there, (at the dance;) I don't know Mrs. Phillips; Robinson's house is a story-and-a-half high; it is a tolerable sized house; I don't know how many bed-rooms are in the house; the dance was held in the dining-room; I saw Jackaway take two drinks while I was there, but he might have drank more; Jackaway did not appear to be tight; I left the ball at three, A. M., and it was about broke up at that time; I heard Jackaway say that he would not play the fiddle any longer; I can't say that he broke up the ball; I then left; we were all at the bar taking a drink, and I heard Jackaway say that he would not play any longer, for he was tired; afterwards, some person asked him to play, and he replied that he was tired, and that he would be damned if he would play; I don't recollect who asked Jackaway to play—it might have been an officer, and it might have been somebody else; I saw Gov. Walkup at the ball about a quarter or half an hour before the ball broke up; don't recollect seeing him when the ball broke up.

Cross-questioned by Mr. Walkup.—There was no row at the dance while I was there, everything was quiet.

By the Committee.—I never was at Parker's at a party; this is the only party I ever attended down here.

Cross-examined by Gov. Walkup.—As far as I saw, Governor Walkup conducted himself as a gentleman while I was at the ball; I have seen Jackaway at San Rafael once or twice; I think it was about six or eight months ago; I don't know Mrs. Phillips, and don't think that she was at the ball.

STATE-PRISON, POINT SAN QUENTIN, March 25, 1859.

W. R. ISAACS McKAY.

DEPOSITION OF G. H. HARRISON.

SAN QUENTIN, Marin County, March 24, 1859.

G. H. Harrison, first having been duly sworn, deposes and says :

I am an employé of the State-prison, and have been employed here since May last; during May and June, and perhaps a part of July, my duties were the purchase of cattle and wood alone; I was instructed to purchase for cash; I contracted for cattle, and they were paid for on delivery at the Prison; I also bought wood from a number of persons, and paid for it in cash, as per voucher; I received money to pay for wood from Governor Walkup in every instance where a voucher was brought in, up to December thirty-first, one thousand eight hundred and fifty-eight; I received a notice from the agent of the estate of Reed, that he would enjoin or prevent the delivery of wood, which had been cut upon said ranch, unless the stumpage was guarantied by the officers of the Prison, and the amount received by said officers in making payment to parties selling it; I reserved money for the purpose of paying stumpage, and holding myself harmless, after receiving such notice, for the purpose of keeping my word good with the agent of the Reed estate; at one time Dr. Carpenter was the agent, but the one I have particular reference to, is W. F. Larkin; I gave my individual note to John Murphy, in the latter part of January, for wood purchased in January, 1859; I did not give John Murphy my note for wood purchased previous to the thirty-first of December, one thousand eight hundred and fifty-eight, nor did I owe him one dollar on that day, he having been paid in cash for all wood delivered to that date; I gave my individual note for the amounts of money I received for stumpage; I knew that I was making myself individually responsible for the amount of those notes, but wished to protect my promise to the agent of the Reed estate; I have paid the notes, with the exception of a small amount; I paid a portion of the money to Mr. Larkin, agent of the Reed estate; Mr. John Murphy was not authorized to collect stumpage; I paid Mr. Murphy the amount of one of those notes, with the exception of forty dollars I paid to Mr. Bickerstaff; Mr. Bickerstaff was not an agent of the parties authorized to collect stumpage; don't think I ever gave my note to Angounet for wood furnished the Prison; may have given him a memorandum of change due; Mr. Murphy and Mr. Bickerstaff both live on the Reed ranch, and have cut wood on the same; I have reserved stumpage from Mr. Bickerstaff and paid it to Mr. Larkin; I have reserved stumpage from Saml. Brown, who also lives on the same ranch, and paid to said Larkin, agent of the estate, at least two hundred dollars—and a note of fifty-five dollars, given to S. Brown, was a balance of money reserved for the above stumpage; neither Mr. Angounet, nor Mr. Brown, are agents of the Reed estate; the notice that I had from the agent of the ranch was, to hold money from the parties selling wood; the agent, Mr. Larkin, authorized me to collect stumpage; I keep no books; everything was purchased by order, and the voucher was turned over to the Warden; I have no written notice from the agent of the ranch to withhold stumpage; it was a verbal notice given to Governor Walkup and myself; both myself and Governor Walkup have paid stumpage to said agent; I have been acting as special agent, in purchasing under the orders of the Warden and Directory; I have never received orders from Governor Walkup as Chief-Warden, since the thirty-first of December, one thousand eight hundred and fifty-eight, to the best of my recollection; I never informed Governor Walkup that I gave any notes

for Prison purchases ; I may have given Mr Clingan a memorandum for a small amount, when change could not be made, but never bought wood on credit ; I may owe small amounts, where change could not be made, to parties who have received vouchers.

G. H. HARRISON.

Subscribed and sworn to before me, this twenty-fifth day of March, one thousand eight hundred and fifty-nine.

E. C. TULLY, for the Committee.

DEPOSITION OF J. BICKERSTAFF.

SAN QUENTIN, Marin County, March 24, 1859.

J. Bickerstaff, upon being duly sworn, deposes and says :

I am a resident of this County, and have been, off and on, here, since the year one thousand eight hundred and fifty-three ; I have sold wood to the State-prison ; I don't exactly know the amount of wood I have sold, but think that it is something over four hundred cords ; I sold some hard-wood in April, last year, for six dollars per cord ; I sold Major McKay the wood ; I sold redwood for five dollars per cord ; I sold eighty cords of redwood for four dollars per cord ; I have been paid in full for all wood sold to the Prison, and have never paid any commission whatever, to any person ; Major McKay gave me a written agreement that he would take the wood at a certain price, and pay me on delivery ; I never held a note from Major McKay, to pay me after wood was delivered ; Gen. Harrison has never asked me to sell him wood on credit.

J. BICKERSTAFF.

Sworn and subscribed to before me, this twenty-fourth day of March, one thousand eight hundred and fifty-nine.

LASPEYRE, for the Committee.

DEPOSITION OF JOHN DAVIS.

SAN QUENTIN, Marin County, March 24, 1859.

John Davis, upon first being duly sworn, deposes and says, that he is an attaché of the Prison, has resided in this County for about twenty-one months :

I know Jackaway ; he was a prisoner since my residence at the Prison ; he served his time out ; I think it is about two months since his discharge ; I saw him playing the violin at Robinson's, while he was a prisoner ; he was playing there after night ; I saw Governor Walkup there, and to the best of my knowledge he was Warden of the Prison at the time ; Robinson's house is situated about three hundred or four hundred yards from the Prison ; there was dancing going on at Robinson's at the time I have reference to.

Question by Governor Walkup.—I was at Robinson's at two different times, and saw nothing out of the way going on there—nothing more than at any other ball ; Jackaway was playing the fiddle the second time I was at Robinson's ; I can't tell what time the dances took place, exactly, but think it is some four or five months ago ; it is more than two

months ago; I saw Governor Walkup at the ball on two different occasions; I know Mrs. Hall, who was a convict; I never saw her at Robinson's.

Question by the Committee.—Governor Walkup was dancing at Robinson's; there were several persons from the Prison at the dance; I saw there Mr. Morton, Lieutenant of the Guard, young Gordon, and Charles Simpton; there were more there, but I can't just now recollect their names; the balls generally broke up from twelve to three o'clock; I was there one morning, myself, until three o'clock.

Examined by Governor Walkup.—So far as I knew, the dances were respectable; I don't think that Jack Phillips' wife was there; she never was there while I was at Robinson's, to my knowledge.

Question by the Committee.—I have been to Parker's; Parker's house is about one-half mile from the Prison; it is in the Prison limits; I was at a dance there; Governor Walkup was there; Jackaway was there at the same time, and played the fiddle; the dance broke up at Parker's early—about eleven o'clock, p. m.; I have seen Jackaway drink, and slightly intoxicated, but not drunk; Governor Walkup was there at the time; I can't say that Jackaway ever got mad, or ever broke a party up; he never did so to my knowledge; I never knew Jackaway to be brought home drunk; about the same attachés of the Prison were at Parker's as were at Robinson's, with the exception of young Gordon.

Cross-Examined by Governor Walkup.—I was here about the first of March, one thousand eight hundred and fifty-eight; I was informed Jackaway was up at Hicks' Ranch at that time; I can't say that Hicks' Ranch is in this County, but it is about twenty-five miles from here; Jackaway returned to the Prison after the State took it; he was sent for by Mr. Watson, and Mr. Watson brought him in; Jackaway has always had his liberty; he was what is called a full trusty; I know that Jackaway always slept outside; he came in and out when he pleased; I can't say that Jackaway was pardoned by Governor Weller for his good behavior; I never saw his pardon; I never saw Governor Walkup take Jackaway to any of the parties, or bring him away; Governor Walkup always conducted himself as a gentleman, as far as I have seen; I never knew Mrs. Hall to be outside of the Prison-grounds at any time while she was a convict, to the best of my knowledge; the officers of the Prison that were at the ball are all good officers, and well-behaved men, and conducted themselves as gentlemen while there; I never saw Jackaway misbehave himself at any of those parties where he played the violin.

Questioned by the Committee.—I know that a man (an attaché of the Prison,) struck a convict with a stick; at the time that he struck him he was excited, and there had been a break among the prisoners a few minutes before; the officer who struck the convict was Mr. Lee; he has been away from here for five or six months; I know of no other instance where a convict was struck by an officer.

DEPOSITION OF JOHN SPILL.

SAN QUENTIN, Marin County, March 25, 1859.

John Spill, having been first duly sworn, deposes and says:

I am a resident of this county, and have resided here for about four years; I am an attaché of the Prison; I am Gate-keeper; I have acted in that capacity since the State has had the Prison; I have seen Jackaway, a prisoner, playing the fiddle at Parker's, at a dance; I have also seen Gilman, a prisoner, there; Governor Walkup was there, at supper; Gilman's wife and daughter were there at the same time; I didn't see Governor Walkup dancing; saw Governor Walkup in the ball-room; did not see Gilman in the ball-room; saw him in the bar-room; I don't think I saw Governor Walkup in the bar-room; I never saw Governor Walkup there but once; Governor Walkup was acting as Warden of the Prison at the time I have referred to; I have seen Jackaway, a prisoner, at Robinson's, playing the violin; Governor Walkup was there at the same time; also, Charley Robinson, Burr Gordon, and I was there myself.

Cross-examined by Governor Walkup.—They all behaved themselves as gentlemen and officers should; Jackaway was a full trusty; he had the privilege of coming and going when he wished, provided he did a certain amount of work that was allotted to him; Gilman, whom I spoke of previously, was a full trusty, and occasionally went to visit his family; he was a trusty before the State took the Prison, and all the time that Governor Weller was in charge, and continued as such until he was pardoned by the Governor; he always stayed with his family when not engaged in burning brick; I never saw Gilman or Jackaway drunk, or misbehave themselves.

Examined by the Committee.—At the dances above referred to, I have seen Jackaway drinking too much; I have seen him a little tight, but not drunk; I have never seen him drunk, or break up a ball by refusing to play the fiddle.

JOHN SPILL.

Sworn and subscribed to before me, this twenty-fourth day of March, A. D. one thousand eight hundred and fifty-nine.

E. C. TULLY, for the Committee.

DEPOSITION OF CHARLES W. ROBINSON.

SAN QUENTIN, Marin County, March 25, 1859.

Chas. W. Robinson, upon first being duly sworn, deposes and says:

I am an employé of the Prison, and have been here since the first of May last; I am Assistant Superintendent of Labor; there never was any brick shipped from the Prison, unless under the supervision of Captain Gordon, Burr Gordon, and myself, since the first of June last, up to the present time, and returns made of the same to the office, showing the quantity and quality shipped, the name of the boat, and the party to whom shipped; it could not be possible for any brick to be shipped by the Chief-Warden without the knowledge of one or all of us; I never have noticed in the Chief-Warden any disposition to conceal any transaction from any of the officers about the Prison; Captain Gordon has always been very industrious; I don't recollect of ever loading a boat that he was not down; and was very careful that as few bricks as possible

were broken, and that the proper returns of brick were made to the office; as far as I know, the accounts of brick are as accurately entered by Cryder, (a prisoner,) as they could be by a free man; there has not been any stock sold, or disposed of, since the State took possession of the Prison up to this time, except the colt of a mare that was working in the mill, which was taken by Captain Gordon, and raised by hand.

Cross-examined.—*Question.*—How do you know the exact amount of brick shipped?

Answer.—We had a tally-man there all the time.

Question.—Who was the tally-man from the first of June, up to the present time?

Answer.—A man named Taylor was tally-man for a good part of the time, and at other times when we had not a tally-man, either myself or young Mr. Gordon tallied, ourselves; I don't recollect that we had any other; we had a man named Smith, two or three days, tallying; Hope is tally-man now.

Question.—Was Taylor a prisoner, or a free man?

Answer.—He was a prisoner.

Question.—Was Smith a free man, or a prisoner?

Answer.—He was a prisoner. Hope is a prisoner, too.

Question.—Did you count all the brick that the above prisoners, Taylor, Hope, and Smith, tallied?

Answer.—Of course, I didn't count every single brick, but one of us either stood on the boat, or on the wharf, all the time, and saw the barrows loaded in.

Question.—Did you, or some other employé, count every barrow of brick that was put on board the boats?

Answer.—No, I did not; nobody could do it?

Question.—What officer was the quantity of brick returned to?

Answer.—It was turned over to Major McKay, part of the time, and the rest of the time it was turned over to the inside officer, where Cryder, (a prisoner,) is Clerk. I know that, in the shipment, No. 1 brick generally overrun some, while No. 2 generally fall short. I don't think that the breakage of brick, in taking from the kiln to the boat, would be over ten per cent. When we shipped bricks to the Fort, we didn't ship bats, unless per contract.

CHARLES W. ROBINSON.

Sworn and subscribed to before me, this twenty-fifth day of March, one thousand eight hundred and fifty-nine.

E. C. TULLY, for the Committee.

DEPOSITION OF JOSEPH O'CONNOR.

STATE OF CALIFORNIA, County of Marin, ss.

Joseph O'Connor, upon first being duly sworn, deposes and says:

I am a resident of Marin County; have resided here for four years; I am employed as architect and builder, at the State-prison; I have been employed at the State-prison over four years; I measured the stone-work and mason-work of the store-house, and consider the estimate of the material and labor, mentioned in Directors' Report, correct, and the valuation of Mr. Webb and ——— is correct; I consider it cheap, as I would not put the building up in San Francisco for the price mentioned in the Report; part of the cut-rock in the store-house was quarried out and cut

under the administration of Mr. McCauley; the pressed brick used in the construction of the store-house, was at the Prison previous to the time the Governor took possession of the Prison; don't know who the pressed brick belonged so; I don't think there were over five thousand pressed brick used in the construction of the store-house; there were twenty-three thousand four hundred and fifty brick purchased from McCauley, prior to the nineteenth of March, one thousand eight hundred and fifty-eight; said brick were used in improvements; I don't know of any brick used in the erection of buildings, except those made by the State, since the first day of May last, except the pressed brick that I have previously mentioned; I have no means of knowing whether the brick used in the erection of buildings belonged to the State or other parties, but I believe they belonged to the State; don't recollect the day the first kiln of brick was burned by the State; I believe the brick used in the repairing of some of the brick-kilns was on the State-prison grounds prior to the first of May, one thousand eight hundred and fifty-eight; I opened and worked the stone-quarry, under the administration of Mr. McCauley; it is not worth five thousand dollars to open it; to lay brick in a wall, it is worth twenty-two dollars per thousand (all material included;) to lay them in pavement, it is worth a third less; I am not aware of any difference in price for brick-work now and the time Mr. McCauley had the Prison; I know the upper wharf, made by Governor Walkup, and would not value it at six thousand two hundred and ten dollars; I never told any one that it was a very extravagant price for the wharf; I was instructed, by Mr. Gordon, to measure the work generally, as to quantity, and not to valuation; he did not state that other parties were to value it; I think that, in some instances, the stone estimated in the buildings had been previously estimated at the quarry; I mean as to quantity, in all cases, and not to value; I could not have made the measurement and estimate of all the work and improvements done in three times the quantity of time that Messrs. Webb and Quinton did it in; I have seen the prisoners fed, one week out of every four, during the last four or five months; the prisoners' ration of beef was small, very small indeed; they had a large ration of beans and bread; the beef was served to the prisoners without bone; some of the prisoners complained to me on account of the smallness of the rations, but I did not report it to Mr. Gordon; Mr. Gordon is, and was, General Superintendent of Labor; I never reported to Governor Walkup, or was I instructed to do so, that I used stone that had been dressed at the Prison previous to the State taking possession of it; all the twenty-three thousand four hundred and fifty brick previously referred to, were used for improvements prior to the month of April; I think, that to lay a pavement with sound brick, and furnish free labor, and pay for all material, it would be worth sixteen dollars per thousand; the brick walls that have been erected since the State has taken possession of the Prison, are built no better than walls that were built during Mr. McCauley's administration, so far as workmanship is concerned; there has been harder brick used by the State in the erection of buildings, than were used by Mr. McCauley, as a general thing; there has only been one wharf built since the State took possession of the Prison; a cubic yard of stone water-wall, such as laid at the upper wharf, is cheap at six dollars per cubic yard; if I had a previous measurement before me, I could not have estimated the improvements, done, in the time Messrs. Webb and Quinton did it in; some prisoners complain, no matter how they are fed; the prisoners are more regularly fed under the present administration, than they were under Mr. McCauley's administration, but I

can't say that they get more to eat than they did formerly ; I don't think the convicts ever got enough to eat, under any administration, with the exception of the time that Major Love was Warden of the Prison—but they get enough for the work they perform.

Cross-examined by Governor Walkup.—Had the State not made and burned brick of her own prior to the commencement of laying brick-work in the new store-house, on the east side of the Prison wall?

Answer.—Yes.

Question.—Had you seen a kiln open, and examined the quality of the brick to be used in the construction of the above building?

Answer.—I have seen the kiln opened, and used the brick as they were sent to me; the kiln I referred to was the first one burned by the State that season; the kiln was fired on the twenty-ninth of May last.

Question.—Is the building, which was constructed by John F. McCauley, at the east gate of the Prison wall, of as good material as the new store-house constructed some time in June or July last?

Answer.—The brick in the new store-house is better and harder than the brick used in the construction of the building that is situated at the east gate of the Prison, but the workmanship is no better.

Question.—Was the upper wharf, spoken of in your direct examination, worth three thousand five hundred and four dollars for its construction?

Answer.—It is not only worth that, but cheap, according to the number of cubic yards mentioned in the report, but I don't know the number of cubic yards in it.

Question.—Do you believe that there were at the stone-quarry, on the thirty-first day of December last, one thousand eight hundred tons of quarried stone, and eight hundred and thirty cubic feet of rough ashler?

Answer.—I can't say.

Direct Examination.—I valued the store-house as it stands, without any reference as to where the rock came from, or who it belonged to; a pavement laid with all brick-bats, would be worth about twelve dollars per thousand.

JOSEPH O'CONNOR.

Sworn and subscribed to before me, this twenty-fifth day of May, one thousand eight hundred and fifty-nine.

BENJ. S. HINES, Chairman of Committee.

DEPOSITION OF JOHN C. GORDON.

SAN QUENTIN, Marin County, March 25th, 1859.

John C. Gordon, first upon duly being sworn, deposes and says:

I am an attaché of the Prison; I am Acting-Warden; I have acted in that capacity since the first of last January; prior to that time I was acting as Superintendent of Labor; since I have been acting as Warden I have not kept a set of Commissary's-books; I have kept a book where is entered all articles purchased and money received for the Prison; I do not keep a book containing all the manufactures of the Prison; I keep a small minute-book, but no regular set of books; I keep, upon a board, an account of all bricks put on board the vessels, and when the vessels are loaded I bring the account up and have it entered on a book called a brick-book; I don't know of any book which shows the amount of brick manufactured here, but there is a report made monthly to the Board of Directors, which report is taken from memorandums kept in the different departments, from the estimates, measurements, etc., of work done monthly;

I think that there ought to be a set of books kept showing the transactions of the Prison; I don't know of any set of books kept here that show the management of the Prison, but I believe that books are kept here that will show the whole transactions of the institution; the brick-yard, stone-quarry, building-department, live-stock, hospital, Commissary-department, and ship-yard, are under the supervision of free men, and all the other laboring departments are presided over by myself; I have always had a general control over the laboring department; while the Chief-Warden was in charge I was subject to his orders; I think that the surplus live-stock here ought to be disposed of; I frequently heard Governor Walkup say that the stock ought to be disposed of, but he had no power to sell it, under the rules of the Board of Directors; I have been connected with the Penitentiary in Missouri for near thirteen years, and, taking climate into consideration, I think that the prisoners here are as well fed and clothed as in any other Penitentiary.

Cross-examined by Governor Walkup.—I have always had control of the shipment of brick, and Governor Walkup has taken my returns as correct; I know that all the brick, with the exception of the pressed, used in the construction of the store-house, was manufactured by the State.

Question by Governor Walkup.—Was not all the labor done, and improvements made, and live-stock and wagon added, at the State-prison, as appears by the Directors' report under the signature of Henry Webb and John B. Quinton, done between the first day of May, and the thirty-first day of December, one thousand eight hundred and fifty-eight, and was not the same measured under your direction, and valued by said Webb and Quinton?

Answer.—Yes sir.

Question.—Did not Governor Walkup charge you particularly to have all the work done, and improvements made, under the above head, accurately measured?

Answer.—He did, and in addition to that, all the stock purchased by the State.

Question.—Were you here when Messrs. Webb and Quinton examined the measurement, and estimated the value of the improvements?

Answer.—I was.

Question.—Did you tell Messrs. Webb and Quinton to place a fair and accurate valuation on the improvements made?

Answer.—I did that; the object was not to make a big bill, but to place things at a fair value.

Question.—Have you not always been satisfied that Governor Walkup was endeavoring to, and did, keep an accurate account of all the receipts and expenditures of the State-prison?

Answer.—I was; if I had not have thought so, I would not have acted under him.

Question.—Did you ever see Governor Walkup strike or ill-use a prisoner?

Answer.—I never did.

Question.—Have you kept a book of all moneys received, on what account, and from whom received?

Answer.—I have, from the first day of January last.

Question.—Who enters the brick that you have an account kept of, on a board, into the brick-book?

Answer.—Cryder, (a prisoner.)

Question.—What reasons have you for thinking that there are books kept here that will show you the whole transactions of the Prison?

Answer.—I see books kept by Major McKay, and Governor Walkup keeps books, and by applying to them for information, I have always received it.

Question.—Has any stock been disposed of since the State has taken possession of the Prison, from the first day of May, one thousand eight hundred and fifty-eight, to the thirty-first day of December, of the same year?

Answer.—None, with the exception of a sucking-colt, that I asked the Board of Directors for when it was a foal; I kept it here until it was weaned, and then gave it away; I don't know of any others, either before that time, or since.

Question.—Do you know, of your own knowledge, that the number of bricks you reported shipped, were shipped?

Answer.—I did not count the brick myself, but I firmly believe that all that were reported shipped, were shipped.

Question.—Do you know that Messrs. Webb and Quinton have made their estimate from a correct measurement?

Answer.—I think so. I don't know how many trustees there were when I came here, but there are only three now; there are prisoners that were on the boats, but they are always guarded; the management of the Prison has been much the same from the first day of May, one thousand eight hundred and fifty-eight, to the present time, as it was from the first of March, up to that time.

Question.—Will you state whether you have complained of the quality and quantity of beef that has been served to the prisoners?

Answer. Well, I don't know whether I have complained or not; I don't recollect of ever having mentioned it to Governor Walkup; I may have stated that there was not beef enough; no doubt but I have done so, but they had plenty of other food.

Question.—Have the prisoners had sufficient of meat, daily, since you have been at the Prison?

Answer.—Well, I will state to the Committee, that it is not my business to go to the kitchen, nor do I issue the provisions for the prisoners; when I go to the kitchen, I go voluntarily.

JOHN C. GORDON.

Sworn and subscribed to before me, this twenty-fifth day of March, one thousand eight hundred and fifty-nine.

LASPEYRE, for the Committee.

Mr. Gordon was re-called, and said:

I showed the Committee a book, over at the Prison, but I can't say exactly when it was commenced; I keep my accounts on pieces of paper, stitched together, and from them I enter into the book previously referred to; said book was turned over to me, by Governor Walkup, on the first day of January, 1859; I think that was the time it was turned over to me, but can't say exactly; the State has no ground, as I understand the lines, fit to make brick; the building known as the store-house is not situated on the State-prison grounds, as I understand the lines of the State property; the shingles that are used on the stable and boat-shed were on the State-prison grounds when the State took possession of the Prison, in March, 1858, and they were, at the time that Mr. McCauley took possession of the Prison; I never looked upon brick used in flatting and casing as very valuable.

Question by Governor Walkup.—What do you consider the value of the brick and material used in casing and flatting, this season, which did not belong to the State?

Answer.—The casing was just worth about the same as raw brick in the yard—about one dollar per thousand; the flatting is worth more; I would suppose they were worth—I don't know what they are worth, as I never sold any.

JOHN C. GORDON.

Sworn and subscribed to before me, this twenty-eighth day of March, one thousand eight hundred and fifty-nine.

LASPEYRE, for the Committee.

DEPOSITION OF DAVID CLINGAN.

SAN QUENTIN, Marin County, March 25, 1859.

David Clingan, first having been duly sworn, deposes and says:

I am a resident of this County, and have resided here for about ten years; I have sold wood to the State-prison, since the State has had possession of the Prison; I have sold between three hundred and four hundred cords of wood, and received five dollars, and four dollars seventy-five cents, and I think I sold a few cords of hard-wood at five dollars and twenty-five cents; I don't think I sold over ten cords at that price; I have been paid for all wood sold to the Prison, and have never paid any commission to any person; I sold wood to Major McKay, and some to General Harrison, and Governor Walkup, and gave vouchers to them as the agents of the Prison; when I say in full, I mean that I have signed vouchers, and don't consider that the State owes me anything, but there are a few dollars—six or eight, I think—that are owing to me by General Harrison, where change could not be made; I never stated to any person in San Rafael, yesterday, that General Harrison had given me his note for wood purchased for the Prison.

D. CLINGAN.

Sworn and subscribed to before me, this twenty-fifth day of March, one thousand eight hundred and fifty-nine.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF JOHN C. MORTON.

SAN QUENTIN, Marin County, March 25, 1859.

John C. Morton, first having been duly sworn, deposes and says:

I am a resident of this County, and have been here some time; I am an attaché of the Prison; I am Lieutenant of the Guard, and have acted in that capacity for seven or eight months; there are twenty-three Guards employed here—six guard inside the wall at night; they stay there until daylight; so far as keeping the prisoners, I have charge of them; there are seventeen Guards on the outside and on the boats, inclusive.

Examined by Governor Walkup.—I have never seen the management of the Prison so good as it has been for the last year, or the prisoners so well clothed and fed; I have seen the prisoners beaten, but not unnecessarily; I never saw a mark on a convict from a blow, except by regular punishment; I have been about the Prison since one thousand eight hun-

dred and fifty-five; I was at the Prison under Mr. McCauley; I was only under him two or three months; there was a prisoner here of the name of Jackaway, who played the fiddle.

Examined by Governor Walkup.—I never saw Gilman or his wife at Robinson's, in my life, with Governor Walkup; I have seen Gilman and family at Parker's, but don't know that Governor Walkup was there.

Examined by the Committee.—Gilman was a convict at the time I have referred to.

Examined by Governor Walkup.—I was here on guard on the first day of March, one thousand eight hundred and fifty-eight, and Jackaway was at Hicks' ranch at that time, as I understood, and I saw him come back along with another prisoner in charge of a Guard named Watson; Jackaway was a full trusty at the time Governor Walkup took the Prison, and he had full liberty to go and come when he pleased; he had only a certain amount of work to do, and said work was mostly outside of the Prison-grounds; Governor Walkup never took Jackaway to play the violin at a party, to my knowledge; Jackaway was at the stable, under my control, and I was responsible to the Board, through the Warden, for his (Jackaway,) conduct; it is not the duty, or the custom of the Chief-Warden to interfere with the convicts, only through the other officers of the Prison; Jackaway always conducted himself well while at parties.

Examined by the Committee.—I took Jackaway myself to a dance, and ordered him there, (to dances,) at several times.

JOHN C. MORTON.

Sworn and subscribed to before me, this twenty-fifth day of March, one thousand eight hundred and fifty-nine.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF A. W. TALIAFERRO.

SAN QUENTIN, Marin County, March 25th, 1859.

Alfred W. Taliaferro, upon first having been duly sworn, deposes and says:

I am Resident-Physician of the State-prison; have been here since last May; the general health of the prisoners has been good; the accommodations for the sick are as good as they could be under the circumstances; I think that the cells are entirely too crowded to be very healthy; I have been with Governor Walkup to a dance at Robinson's house; we went there together; I have also been with the Governor to several other little parties, in different parts of the County.

Examined by Governor Walkup.—I have never seen Governor Walkup's conduct, on those occasions, anything but gentlemanly; I have never seen him associate with low associates; believe that the Governor simply visited these places for a love of dancing, as a recreation, after the performance of his official duties; it was not considered, by the officers and those around the vicinity of the Prison, improper for a full trusty to occasionally play the violin at Robinson's, or Parker's, owing to the fact that there was no other person who could play for a little social dance; Governor Walkup's standing in the first classes of this County, is as high as that of any other person I have ever seen in it; I have been invariably furnished, by Governor Walkup, with the medicines, and other accommodations, etc., when, for the convenience and comfort of the prisoners I have thought it necessary to call upon him for them; Governor Walkup

has been closer, more industrious, and more attentive to his duties, as a public officer, than any other official I have met with in public life.

Examined by the Committee.—I have been with Governor Walkup, three or four times, to Robinson's, at a dance; Jackaway, a prisoner, played the violin; the Governor and myself danced.

Examined by Governor Walkup.—I never saw Jackaway drunk, at a party, or break up a ball; I never saw him take a drink at Robinson's, but he might have drank and I not see him; I have come away and usually left Jackaway at the ball, with the exception of once, Jackaway left before I did, and I think that I generally left in company with Governor Walkup; Robinson is agent for Freeman & Co.'s Express, and I have been informed by Mr. Charles Weller that he has been appointed Postmaster lately; I have heard of Postmasters robbing the mail, and have heard of Expressmen robbing the expresses.

ALFRED W. TALIAFERRO.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF THOMAS F. KELLEY.

SAN QUENTIN, Marin County, March 25, 1859.

T. F. Kelley, first having been duly sworn, deposes and says:

That he is a resident of this county, and has resided here for nearly a year; I am an attaché of the Prison—an overseer of the quarry, and have been employed here since the second of May last; I have never seen any maltreatment of the prisoners by the officers of the Prison; I was down at Robinson's one night; Captain Morton, of the Guard, and Governor Walkup came in, and the Captain of the Guard inquired if the fiddler was there or not; he didn't find him there, and therefore he sent for him; Governor Walkup and Captain Morton were together, but I don't know which of them sent for the fiddler; I came up to the Prison, and saw Jackaway and told him to go down to Robinson's, that the Captain of the Guard wanted him.

Examined by Governor Walkup.—I never saw Jackaway tight at the parties, but I have seen him there playing the fiddle; I never saw any misconduct at any of the parties; I have always found Governor Walkup attentive, faithful, and efficient, in the discharge of his duties as Warden of the Prison.

THOS. KELLEY.

Sworn and subscribed to before me, this twenty-fourth day of March, A. D. one thousand eight hundred and fifty-nine.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF G. B. GORDON.

SAN QUENTIN, March 26, 1859.

G. B. Gordon, first having been duly sworn, deposes and says:

I reside here; have lived here since the sixteenth or seventeenth of last April; I am an attaché of the Prison; I am Overseer; all the brick shipped from the State-prison is shipped under the supervision of Mr.

Robinson, my father, or myself; I know of no other brick that has been shipped from here; I don't think it possible for brick to be shipped from here without the knowledge of one of the three.

Question.—Have you not assorted most of the brick of the kilns?

Answer.—I have assorted them all.

Question.—What do you think would be the average breakage on brick, from the time of placing them in the kiln, to the time of putting them on board the boats?

Answer.—I don't think that loss the would fall short of eighteen per cent.

G. B. GORDON.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF CHARLES L. WELLER.

SAN FRANCISCO, March 28th, 1859.

Charles L. Weller, first having been duly sworn, deposes and says :

I am Postmaster, resident of this city, and have resided here about five years; I am acquainted with Lieutenant-Governor Walkup, and know him to be Warden of the State-prison; early in January a rumor reached me that Mr. Harrison, an employé of the State-prison, had been gambling, and had lost money, and probably that the money belonged to the State; I immediately wrote to Governor Weller what I had heard, and suggested to him an immediate investigation; in pursuance to that, Governor Walkup came down the next day, with whom I conversed about the matter, giving him the rumor as I had heard it; I believe he was here two or three days, and before returning to Sacramento he informed me that he had investigated the matter, and satisfied himself there was no truth in the rumor, so far as the money of the State was concerned; that if Mr. Harrison had been gambling, he had not done so on the State's money; subsequently, Governor Weller informed me that Mr. Walkup made report to him of the result of his investigation precisely as Walkup had stated to me; I heard nothing more of said rumors until about two weeks since, when I again heard them, in a more tangible form; the next day after hearing them again I visited Sacramento, and informed Governor Weller that these rumors were again becoming rife; the Governor requested me to investigate the matter, and report to him what I could ascertain; my action in the matter was delayed for about five or six days, in consequence of being detained at Court in Marin County; upon my return from there I proceeded, with Mr. Gordon, Acting-Warden, to investigate into the facts of the aforesaid rumors; before concluding the investigation, and without eliciting anything to sustain directly the charges against Harrison, I heard of the appointment of this Committee by the Assembly; being told that they would investigate these rumors, as well as other charges, I suspended my investigations.

Cross-examined by General Harrison.—I believe that General Harrison was acting as agent for the sale of brick manufactured at the State-prison, and I recollect, upon two different occasions, of him bringing me checks on the Treasurer of the Mint from the Commanding-officer at Fort Point, which I understood were in payment for brick sold by him to the

Government of the United States; the amount of said checks was drawn from me by Governor Walkup.

Question by Harrison.—I do not know whether the full amount of money received for the sale of brick to the United States Government was brought to me; the money drawn from the State Treasury by the Board of Directors from time to time was deposited with me, subject to the draft of the Warden, Governor Walkup, and no money was ever drawn from me by General Harrison without a written order from the Chief-Warden, or Acting-Warden, Mr. Gordon.

By the Committee.—In my settlement in January, one thousand eight hundred and fifty-nine, with the Board, there appeared a discrepancy in the account of Governor Walkup and my own account as to the amount of money drawn by Governor Walkup from me, which was an item of one thousand dollars, drawn by Walkup on the twenty-sixth of June, one thousand eight hundred and fifty-eight; Mr. Walkup stated that he could not recollect that thousand dollars, and that, having no entry of it in his account, he was inclined to the opinion that I was mistaken; his receipt for it to me had been mislaid in the Governor's office, and could not be found for several days; the receipt was finally found, and upon my showing it to him, he admitted at once the correctness of my account, and acknowledged the receipt of that money. I heard, some months since—at least four months ago—of a case where General Harrison, in purchasing wood for the Prison, and making payment therefor, borrowed a portion of the money from the vendor of the wood, and gave his note for it; all of which, soon after, I brought to the notice of Governor Walkup, while he was Warden of the Prison, as I regarded it, at the time, an improper proceeding; Governor Walkup, a few days afterwards, informed me that he required General Harrison to settle the matter, and it had been so settled, satisfactory to the parties; previous to which, General Harrison told me, that he had the money, and was ready to pay it; whilst at San Rafael, nearly, or about two weeks ago, a Mr. Brown approached me, and showed me two notes, given by General Harrison—one to the said Brown for fifty-five dollars, the other to a Mr. Murphy for one hundred and twenty-two dollars and fifty cents, with a credit thereon for forty dollars; the date of Brown's note was January twenty-sixth, one thousand eight hundred and fifty-nine, and the one to Murphy, January twenty-ninth, one thousand eight hundred and fifty-nine; I am not so positive as to the dates as to the other circumstances, only because I have been told by Major McKay, who was present at the time, that I was mistaken in the date of the notes, but I took a memorandum of the notes, and the dates, while they were before me; Mr. Brown informed me that these notes were given by General Harrison, either in part payment for wood purchased for the Prison, or for a loan to him (Harrison) of a portion of the money paid to said parties at the time, by Harrison, for wood for the Prison, but I don't recollect which; Mr. Brown showed me these notes with a view of getting me to intercede for him for their payment, and requested me to speak to the Prison authorities to that end; and Mr. Brown told me, at the time, that the money owed him by Harrison was for wood sold to the Prison, and considered that the State was bound to him for the amount; Mr. Brown never said to me that the amount owed to me was kept back either for stumpage or want of cash to make change; I told Mr. Brown, at the time, that he could not hold the State responsible for the amount owed to him by Harrison; that he had taken Harrison's note, and had given vouchers, receipted in full, for the wood he had furnished to the Prison, but that I would endeavor to have the payment of

the notes secured, by getting the officers of the Prison to hold back Harrison's pay.

Cross-examined by Governor Walkup.—All money drawn since the first of January was drawn by Mr. Gordon, the Acting-Warden; Mr. Walkup stated that, in his settlement with the Treasurer of the Board, it would be necessary for him to produce all his receipts given to me for money drawn, and, therefore, he must have this receipt for the thousand dollars in question, in order to get an allowance for it, otherwise the receipt referred to might be brought against him at some subsequent day; I did not inform Governor Walkup of the notes shown to me at San Rafael, or of the conversation I had with Mr. Brown.

C. L. WELLER.

Sworn and subscribed before me, this twenty-eighth day of March, A. D. one thousand eight hundred and fifty-nine.

DEPOSITION OF J. P. CLAY.

SAN FRANCISCO, March 28, 1859.

J. P. Clay, first having been duly sworn, deposes and says:

I am a resident of this city, and have resided here for about six years; I have worked at the State-prison, and have worked there in the capacity of brick-burner since May, one thousand eight hundred and fifty-eight; I burned nineteen kilns of brick, I think, since the twenty-ninth day of May, up to the eleventh day of December, last; the kilns would average near 480,000 brick each; it would take about forty-five cords of wood to the 100,000 brick; I suppose, from the time of the taking brick from the kiln, to the time of putting them on board a vessel, the loss would be about eight per cent., and from the time of placing them in the kiln to the time of placing them on board a vessel, I consider the loss would not be over twelve per cent.; this per centage includes all brick in the kiln; it did not take any more wood to burn the brick in one thousand eight hundred and fifty-eight, than it did in one thousand eight hundred and fifty-seven; it would take about thirty-three thousand four hundred brick to the kiln for casing and flatting, and I think there were three kilns burnt by the State that season, before we used the brick burnt by the State for casing and flatting; the brick used in the casing of kilns, are generally most of them not saleable, but the brick used in flatting are saleable, but not at such a high figure as good brick; there are about three classes of brick, and the brick used in flatting are about a third-quality brick; I would be willing to pay four dollars per thousand for salmon brick at the Prison-yard; the loss on brick that I burn here, is not over one per cent.; I do not consider the twelve per cent., previously referred to, a total loss, and I include "bats," in my estimate of twelve per cent., it not being usual to sell brick-bats alone; the above is my opinion, from my knowledge of facts, as a practical brick-burner.

BENJ. S. HINES, Chairman of Committee.

DEPOSITION OF G. SIMPTON.

SAN FRANCISCO, March 28, 1859.

Captain George Simpton, first having been duly sworn, deposes and says:

I am an employé at the State-prison, and am Commander of Boats; I have been employed in that capacity since the second of March, one thousand eight hundred and fifty-eight; during the time that Governor Weller had charge of the Prison, in my opinion, everything was managed well.

Examined by Governor Walkup.—During the time that Governor Walkup had control of the Penitentiary, I think he did very well.

Examined by the Committee.—I have often had reason to complain of the Acting-Warden, Captain Gordon, as I consider that he has, on different occasions laid obstacles in the way of other officers of the Prison, thwarting them in carrying out designs that would be beneficial to the Prison; Captain Gordon is not a proper man to manage the Prison, or any portion of it—I mean that he is not qualified; Captain Gordon, in my opinion, is not a fit man to hold his present position at the Prison, and I don't think that he is qualified or competent to measure the work, or make the calculating, as lately erected at the prison; I don't think that John C. Morton is a competent man to have charge of the convicts of the Prison, for the reason that he drinks too much, nor yet do I think that any man who drinks too much should have charge of the guard; I do not know of any other officer who is not qualified to fill the duties of his office, with the exception of those I have previously mentioned.

G. SIMPTON.

Sworn and subscribed to before me this twenty-ninth of March, one thousand eight hundred and fifty-nine.

TULLY, for the Committee.

DEPOSITION OF PHILIP RAY.

SAN FRANCISCO, November 28, 1859.

Philip Ray, first having been duly sworn, deposes and says:

I am a resident of Marin County; have resided there off and on, since one thousand eight hundred and forty-nine; I have sold wood to the State-prison; have sold about four hundred and forty-four cords since the first day of March, one thousand eight hundred and fifty-eight; I received four dollars and seventy-five cents for redwood—hard-wood, five dollars and twenty-five cents; I sold the wood to General Harrison; I signed vouchers in full for all wood sold to the Prison, but there is a small balance still due, amounting to twelve dollars and twenty-five cents; eight dollars and twenty-five cents is a due-bill, and four dollars that I have no due-bill for; the reason I was not paid in full, was that General Harrison told me that he had so much money with him, and he had to pay some to other parties, and consequently, could not pay me in full; Mr. Harrison and Mr. Larkin came to my house; at that time there was some dispute about the boundary-line of the Reed estate, and Larkin wanted me to pay him the stumpage, and forbid me to pay Dr. Carpenter, with whom I made the bargain; Dr. Carpenter was the guardian of the Reed estate up to the sixteenth day of June, one thousand eight hundred and fifty-

eight; this matter occurred since that time; there was a compromise made between the parties that the stumpage should remain in my hands until it was settled; this was before the due-bill was given to me by General Harrison.

Cross-examined by Governor Walkup.—I thought that when took I Harrison's due-bill, that the State would secure me in the amount owed for wood, and did not consider that I released the State at the time, by taking the due-bill; I have never paid any commission to any parties for the privilege of selling wood, nor have I ever signed vouchers for more wood than I delivered; I never told any of the State-prison authorities that there was a balance due me for wood.

PHILIP RAY.

DEPOSITION OF J. S. LOVE.

SAN FRANCISCO, March 28th, 1859.

J. S. Love, first having been duly sworn, deposes and says:

I am a resident of this city, and have resided here for about five years; I have been Warden of the State-prison, in 1855; I made a contract with James Smiley to build the Prison-wall, at forty cents per cubic foot for the stone-work, he furnishing the lime, cement, sand and scaffolding, and everything else, with the exception of the stone and labor; the contract for the brick-work in the wall I contracted for at fifteen dollars per thousand, he furnishing everything, with the exception of the common laborers and the brick; he furnished the mechanical labor for both stone and brick-work, there being no mechanics of that kind in the Prison at the time, who worked on the wall.

DEPOSITION OF CHARLES SIMPTON.

SAN FRANCISCO, March 28th, 1859.

Charles Simpton, first having been duly sworn, deposes and says:

I am an employé of the State-prison, and I have acted in that capacity since the third day of March, one thousand eight hundred and fifty-nine; I know a prisoner named Jackaway, and have seen him playing the fiddle at balls, while Governor Walkup was there; I have seen Jackaway drunk, more than once, at the aforesaid balls, while Governor Walkup was there.

DEPOSITION OF JOHN B. QUINTON.

SAN FRANCISCO, March 28th, 1859.

John B. Quinton, first having been duly sworn, deposes and says:

I am a resident of this city, and have resided here since the Spring of one thousand eight hundred and fifty-one; I am a carpenter and builder by trade; I was employed to go over to the State-prison last winter, to measure and value the work done, as per State-prison Directors' Report; I did said work, and recognize in said Report the prices fixed and the quality of the work, as valued and estimated by me; I did not measure every piece of timber at the Prison, but measured enough to satisfy myself to make a fair estimate and value.

JOHN B. QUINTON.

BENJ. S. HINES, Chairman of the Committee.

DEPOSITION OF J. G. SHEPARD.

SAN FRANCISCO, March 28, 1859.

J. G. Shepard, first having been duly sworn, deposes and says:

I am a resident of this City and County, and have resided here off and on for seven or eight years; I have known General G. H. Harrison about twenty years; on one occasion I was hunting for Mr. Harrison, and I found him gambling; I think this was some time in last October, or November; I am sure it was after the eighteenth of September; after I found him in the house gambling, I went with him to a house on Kearny street, and the General played some more, there; I saw that the General had quite a large sum of money with him at the time, but I can't say how much he had, and I suppose, from the appearance of a money-sack that he carried his money in, that he had eight hundred or one thousand dollars with him; I don't know that I saw the General lose any large amount of money, with the exception of that night, and I suppose that he lost money to the amount of six hundred or eight hundred dollars; and when we went to the house on Kearny street, that I have previously referred to, the General told me that if he did not recover the amount that he had lost, he would be a ruined man; Mr. Harrison admitted to me that the money he was gambling was not his, but that it belonged to the State.

DEPOSITION OF HENRY WEBB.

SAN FRANCISCO, March 28, 1859.

Henry Webb, first being duly sworn, deposes and says:

I am a resident of this City, and have resided here about eight years: by trade, I am a mason; I am of the firm of Webb & Kincaid; I was employed to go over to the State-prison and value property, about the latter part of last December; I was employed by Mr. Harrison; I valued the brick and stone work at the State-prison; I know Mr. Gordon, Acting-Warden of the Prison, and he told me that he wanted me to make an accurate and true valuation; that he would rather I would value it too low than too high; and after examining the character and quality of the work, I fixed upon what I considered a true figure, and valued it the same as if I was going to put buildings of the same kind up at San Rafael; I am a contractor, in this City, for all kinds of brick and stone work; I examined the pavements laid at the Penitentiary, and took notice of the pavement that was laid with bricks and bats, and consider that eighteen dollars per thousand is a fair price for the work and material; I examined the quality of the stone and rough-ashler, and fixed the prices of the same, and I consider that the prices are fair, as per State-prison Directors' Report; I recognize the prices in said Report, and consider them all fixed at a fair value; I don't think that any builder could correctly value the work previously referred to, without examining the same; I did not measure the brick and mason work at the State-prison; I would, in this City, build the same buildings as are at the State-prison for a less price than is fixed for the same, as per Directors' Report; I think the same work could be done in San Francisco, for cash, at ten per cent. less than is stated in the State-prison Directors' Report; I am the same Webb whose name is signed in the Directors' Report.

HENRY WEBB.

Sworn and subscribed to before me, this twenty-eighth day of March, one thousand eight hundred and fifty-nine.

DEPOSITION OF CHARLES S. WOOD.

SAN FRANCISCO, March 29, 1859.

Charles S. Wood, first having been duly sworn, deposes and says:

I am a resident of this City, and have resided here for about — years; I am one of the firm of Taaffe, McCahill & Co.; we have sold goods to the Prison since March, one thousand eight hundred and fifty-eight, and have not been paid in full for all goods sold to the Prison; some of the bills have been paid in full, and some have been paid in part; bills from March nineteenth, one thousand eight hundred and fifty-eight, to May fifteenth, inclusive, have been paid in part; the bills, amounting to eight hundred and thirty-seven dollars, have a credit against them of three hundred and ninety-nine dollars and nineteen cents; the above, according to our books, are correct; all bills made since May fifteenth to March fourth, one thousand eight hundred and fifty-nine, have been paid, with one exception, and that exception is a bill of June twenty-second, one thousand eight hundred and fifty-eight, amounting to eighty-six dollars and eight cents; I can't say, positively, but think that the bill amounting to eighty-six dollars and eight cents is the last bill purchased by Major McKay at our

house ; we have never, to my knowledge, paid anything to any person for the privilege of selling goods to the Prison ; we never presented any bills to the agents of the Prison for payment.

DEPOSITION OF WILLIAM F. LARKIN.

SAN FRANCISCO, March 29th, 1859.

William F. Larkin, first having been duly sworn, deposes and says :

I am a resident of this County, and have resided here since the seventeenth of this month ; I was agent of the Reed estate for nine months prior to the fifteenth of this month ; I requested General Harrison and Governor Walkup to reserve stumpage for me, and they reserved it, and paid me stumpage for Messrs. Bickerstaff and Brown ; General Harrison paid me two hundred dollars for Mr. Brown, and General Harrison guaranteed to me the payment of stumpage for wood cut by Phil. Ray, if I would allow Ray permission to cut wood ; General Harrison paid me two hundred dollars, for stumpage for Mr. Brown—said two hundred dollars was paid in cash ; he first gave me a note, but afterwards paid me in cash ; the note was written in Brown's room, and the reason General Harrison gave me the note was, because I wouldn't trust Brown ; Francisco Angounet owed me money, for stumpage, and in payment for said stumpage he gave me a note on General Harrison, and I accepted it ; John Murphy cuts wood on the Reed Ranch ; Mr. Angounet was personally responsible to me for stumpage prior to the time I received General Harrison's note from him ; Governor Walkup purchased cattle from me, and I received payment in full, in cash, according to contract ; the cattle that I sold to the Prison, I think, were ten bulls and two steers ; the cattle were in good condition ; have sold wood to the State-prison, and have received pay from General Harrison in full, cash, and I never paid any commission to any person whatever, for the privilege of selling wood or cattle to the State-prison.

W. F. LARKIN.

first of March, for one hundred and forty-eight dollars and fifty cents; and, on the fifth of March, a bill for five hundred and seventy dollars, all of which are still due. On the sixteenth of March we delivered, to the Prison, one hundred barrels of flour, amounting to seven hundred and seven dollars and fifty-cents, including cartage, for which we signed a voucher, taking an order from Stout & Salmon, in payment of the voucher. We have never paid any commission to any person for the privilege of selling goods to the Prison.

DEPOSITION OF WILLIAM PANHORST.

SAN FRANCISCO, March 29, 1859.

William Panhorst, first having been duly sworn, deposes and says :

I am a resident of this City and have made it my home for the past six years; I have freighted brick from the State-prison to this City and Oakland, and I have freighted one load of broken stone, forty-nine and one-half tons, from the Prison to Fort Point; I have not been paid in full for work done, and the State owes me between one thousand eight hundred and two thousand dollars, for freightage from San Quentin to the above-named places; the State has owed me for freightage since the middle of last October; the State has made three payments to me, and I have received, in all, from the Prison authorities, three hundred and ninety dollars, since the fifteenth of last October; I have asked Governor Walkup once, about ten days ago, and Mr. Gordon four or five times for my pay, in freighting brick from the Prison; I have lost from one to five hundred bricks in wastage, etc., and my average cargo was about twenty-seven thousand, the average wastage was about three hundred bricks per cargo, which I threw overboard when I got out in the Bay; I always delivered all the brick, wherever they were consigned to.

I am a resident of this City, and have resided here for about seven years; I am of the firm of J. H. Coghill & Co., and have sold goods to the Prison since the first of March, one thousand eight hundred and fifty-eight; we have been paid in full for all goods sold to the Prison, with the exception of an accepted order, drawn by Stout & Salmon, and accepted by G. H. Harrison, as agent of the Prison, for one hundred thousand brick, and when we receive the brick, we will owe the State twenty-five dollars; the brick were sold to us at the rate of nine dollars and fifty cents per thousand, to be landed on the wharf, in this City; and I consider, that if we do not receive the brick, the State will be liable to us

for the amount owed to us; at the request of Gen. Harrison, when the State-prison received the goods from us, I signed a voucher, receipted in full, for the purpose of allowing him to settle up his accounts; I made the above arrangement for brick about the sixteenth of this month; we never paid any commission to any person for the privilege of selling goods to the Prison.

DEPOSITION OF W. F. TEMPLETON.

SAN FRANCISCO, March 29, 1859.

W. F. Templeton, first having been duly sworn, deposes and says:

I am a resident of this City, and have resided here for four years; I have acted as agent for the sale of brick manufactured at the Penitentiary, and have acted in that capacity since the twenty-seventh of September, one thousand eight hundred and fifty-eight; the annexed exhibit, marked "A," is a true and correct account of transactions between myself and the agent of the Prison.

Examined by Governor Walkup.—I have always been instructed by the Prison authorities to make safe sales, and no other, and I did the best I could with the brick, the same as though they had been my own; I have always paid the full amount I received for the sale of brick to the Prison authorities, and have never paid any money to any person, whatever, without getting a written order or receipt from the Chief or Acting-Warden; all the broken brick that were left after cleaning up the wharf, after the teams, were thrown overboard, next to the shore, and the brick so thrown overboard can be seen, what is not covered up with mud, at low tide; sometimes a load of brick would come over, that there was a great deal of wastage in, and have told them on board to take the broken brick and throw them overboard when they got out in the stream.

Examined by the Committee.—I never received such a lot of broken brick from the Prison, as I received one time from Mr. McCauley, and I sold it at various prices; I sold some of McCauley's for four dollars per thousand, and some at three dollars per thousand, and for whatever price I could get for it; McCauley's was a large lot of broken stuff.

 IN ASSEMBLY.

TUESDAY, April 12, 1859.

The House met, pursuant to adjournment.

The Speaker in the Chair.

A quorum being present, the Journal of yesterday was read and approved.

Mr. Ensworth had indefinite leave of absence.

PROTEST.

Mr. Street offered the following protest:

The undersigned protests against the act of the House in passing Assembly Concurrent-Resolution No. 41, asking of the Congress of the United States the passage of a law to prevent Chinese from landing in this State. He protests, for the following reasons:

Under the Common Law, every man's house is his castle, and no man has a right to break down the barriers and enter against his will; and the right of resistance against such intrusion is founded in that of self-preservation.

The people, in their collective capacity as a political sovereignty, possess the same right against the intrusion of obnoxious persons, against their will, co-extensive with the domain over which their sovereignty extends. This power to exclude obnoxious persons is, therefore, an essen-

tial element of State sovereignty. The General Government possesses no powers other than those delegated to it by the Constitution. There is nothing in the Constitution surrendering this power to the General Government; it therefore remains with the States. Chief Justice Taney says, in his dissenting opinion in the case of *Norris vs. City of Boston*:

"I can, therefore, see no ground for the exercise of this power, [to prohibit the landing of obnoxious persons,] by the Government of the United States, or any of its tribunals. In my opinion, the clear, and established, and safe rule, is, that it is reserved to the several States, to be exercised by them according to their sound discretion, and according to their own views of what their interest and safety require; it is a power of self-preservation, and never was intended to be surrendered."

"Neither can this be a concurrent power—and whether it belongs to the General or the State Government, the sovereignty which possesses the right must, in its exercise, be altogether independent of the other. If the United States have the power, then any legislation by the State, in conflict with a treaty, or Act of Congress, would be void. And if the States possess it, then any Act on the subject, by the General Government, in conflict with the State law, would be void."

"If the State has the right to exclude from its borders any person or persons whom it may regard as dangerous to the safety of its citizens, it must necessarily have the right to decide when and to whom this power is to be exercised, and it must therefore rest with the State to determine whether any particular class or description of persons are likely to produce discontents or insurrections in its territory, or to taint the morals of its citizens, or to bring among them contagious diseases, or the evils and burdens of a numerous pauper population. In the case decided in this Court, and herein before referred to, the power of determining who is, and who is not, dangerous to the interests and well-being of the people of the State, has been uniformly admitted to reside in the State."

Though the Supreme Court of the United States has decided against the validity of a passenger-tax, it has never decided against the right of a State to entirely exclude obnoxious persons by virtue of its police-power. Notwithstanding the power of the General Government to regulate commerce, a State can prevent the landing of infected goods—that right is necessary for her self-protection; the right to exclude obnoxious persons is equally necessary for her self-protection.

Though the Supreme Court of this State has decided against the constitutionality of the law prohibiting the landing of Chinese in this State, I protest against the legislative department lending its sanction to such a doctrine, by asking Congress to legislate for her.

Other States have passed laws excluding obnoxious persons. Such laws are now in force, and in no case has their validity been questioned by the Supreme Court of the United States.

I therefore protest against this act of the Assembly, as a virtual surrender of one of the essential elements of State-sovereignty, and, in the language of Chief Justice Taney, pronounce such a surrender "dangerous, and full of peril to the State."

First—That at a meeting of the Board of State-prison Directors, when the office of Chief-Warden was created, a resolution was adopted declaring that no compensation whatever should be attached to it.

Second—That, in a measure, it was a self-imposed task, and any claim for such service should have been brought before the Board of Examiners; and, further, there have been charges made before this body that said Joseph Walkup was guilty of mal-administration in office, and this body appointed a Special Committee, investing them with power to send for persons and papers, etc., for the purpose of establishing the truth or falsity of said charges; and inasmuch as said Committee have not reported, I consider that this Assembly would be unjustifiable in taking further action, until they have the report from said Committee.

MR. SPEAKER:—The undersigned, to whom was referred Assembly bill No. 320, "An Act supplementary to an Act to authorize the Board of Supervisors of Sutter County to construct a bridge across Feather River, and levy a special tax therefor, approved April ———, one thousand eight hundred and fifty-nine," respectfully report the following substitute therefor, and recommend the adoption and passage of the same :

While the majority of the people of Sutter County are in favor of a free bridge across the Feather River, at the point named in said Act, to be constructed without cost or liability to the County, I am well assured that they are unwilling to be placed in a position where they may be forced into expensive litigation, which may be protracted for years, and be compelled to defray the entire cost of the same, and at the same time be rendered liable for all damages that may be awarded against them in the event of defeat.

The substitute provides that the Bridge Fund provided in the Act, shall be liable for the expenses of the litigation, and further, that the bridge

shall not be constructed until the Courts have passed upon the constitutionality of the Act, and at the same time provides a manner for testing the same. By the passage of this substitute no injury is done to the original Act, and at the same time Sutter County, and her citizens, are protected.

The undersigned, therefore, most respectfully and earnestly requests speedy and favorable action on his report and substitute.

REPORT OF COMMITTEE OF CONFERENCE ON STATE-PRISON AFFAIRS.

Mr. Whitman made the following report, which (with the accompanying documents) was ordered printed :

MR. SPEAKER:—The undersigned, a Joint Committee, appointed (under resolutions passed April second, one thousand eight hundred and fifty-nine,) to confer with Messrs. Estill and McCauley, in relation to the settlement of their claims against the State, and the surrender of the State-prison and grounds by them, to the State, beg leave to report, that they have received a proposition, jointly, from Messrs. Estill and McCauley, agreeing to surrender their claims to the State-prison property and grounds, to cancel the contract of April twenty-sixth, one thousand eight hundred and fifty-six, and to release the judgment obtained by John F. McCauley against Governor John B. Weller, in consideration of the sum of one hundred and twenty thousand dollars, to be paid them by the State.

They have also received a communication from John F. McCauley, setting forth the items of different claims held by him against the State, amounting, in the aggregate, to ninety-six thousand and eighty-seven dollars and thirty-eight cents, which amount is to be guarantied him before the final release, above mentioned, is signed by him, jointly with James M. Estill.

Your Committee, owing to the limited time allowed them by the approaching adjournment of the Legislature, were unable to agree to a report recommending either the acceptance or the rejection of the proposition submitted by the lessees of the State-prison; and, therefore, submit the accompanying documents, received from them, and ask to be relieved from further consideration of the subject.

COMMUNICATION OF J. F. M'CAULEY.

SACRAMENTO, April 9, 1859.

GENTLEMEN:—Accompanying this is a statement showing the value of permanent improvements made upon the State-prison property, as appears from the Journals of the Senate, and also showing the amount of claims against the State released, as part consideration of the contract of the twenty-sixth March, one thousand eight hundred and fifty-six.

From the statement, it appears that the State received, for entering

into the contract, the sum of seventy thousand dollars; and, during the time that we were in possession of the State-prison property, the State has been benefited by the expenditure of our means upon the property to the amount of one hundred and forty-six thousand three hundred and ninety-seven dollars and six cents.

Upon the surrender of the property, it would certainly be but just that the State should refund what it received for entering into it, and should repay at least a large portion of the cost of the improvements made by us.

As, however, the principle upon which we have declared our willingness to settle with the State is one of mere indemnity, we do not demand the payment of the whole of those sums; not even of such portions of them as we might claim as a matter of right. We ask only to be paid such sum as will place us in the same position as if we had never been connected with the contract. The payment of the sum of one hundred and twenty thousand dollars will place us in that position, and, upon the payment of that sum, and the individual claim of John F. McCauley, we are prepared to surrender the contract, and release the State and its officers from all claims and demands of every nature arising out of our connection with the State-prison management. This proposition is, in effect, to discharge all claims against the State for something less than one hundred thousand dollars, inasmuch as there is in existence a judgment in favor of the undersigned, John F. McCauley, against John B. Weller, on which the defendant is liable for about twenty-three thousand dollars—and for the greater part of the judgment ample security has been given.

It is to be understood that this proposition is made by way of compromise, and shall in no manner affect our rights or claims, nor be used in evidence against us, should it not be accepted. For the sake of an immediate adjustment we are prepared to surrender much that we justly claim; but in offering to make such surrender, it is to be understood that we do not preclude ourselves from asserting our rights hereafter to their fullest extent, should it become necessary for us to do so.

Respectfully, your obedient servants,

JOHN F. MCCAULEY,
JAMES M. ESTILL.

SACRAMENTO, April 9, 1859.

GENTLEMEN:—I hand you, herewith, a statement of my individual claims against the State, amounting, in the aggregate, to ninety-six thousand and eighty-nine dollars and thirty-eight cents.

These claims are independent of the contract between the State and General Estill, and would have to be paid whether there be any settlement of the contract or not. I stand, in relation to these claims, in the same position as any other person who has furnished property to the State, or whose property has been taken and applied to the use of the State. For some of this property, suit has been brought, and is now pending, in the State Courts, against John B. Weller and others, and I am advised by my counsel, and I presume there can be no doubt, that there will be a judgment in my favor. The claims are duly authenticated, and are unquestionable. Not a cent is asked to which, according to every principle which governs contracts or controversies of individual litigants, I am not entitled. Whatever may be the pretensions in regard to the contract, or its validity no just man, or lawyer, I presume, will dispute that until the Legislature interposed to set aside the contract, I was entitled to payment for keeping the Prison.

This matter, then, being distinct from the questions connected with the arrangement and settlement of the controversy in regard to the future management of the State-prison, might well be settled through a separate bill, leaving the latter question to be adjusted by a separate consideration and contract.

But, of course, in any arrangement made, it is desirable, and expected, that the whole thing will be understood and cleared up, so as to leave nothing for further trouble or controversy.

Respectfully, your obedient servant,

JOHN F. McCauley.

To the Joint Committee of Senate and Assembly.

REPORTS.

Reports were made as follows:
By Mr. Rodgers, for Mr. Pico:

MR. SPEAKER :—Your Committee on Military Affairs, to whom was referred the Governor's Message, transmitting the report and accompanying documents of General Kibbe, relative to the campaign against the Indians in the north-west portion of the State, beg leave to report:

That they have examined the same, and find, from the correspondence contained therein, that the section of county referred to, was infested by bands of depredating Indians; that a number of our citizens had been killed by them, and others driven from their homes, and their property destroyed; the trails over which the U. S. mails were carried, and large quantities of merchandise transported to the interior, were closed to travel; that, in fact, these Indians had entire possession of the country; that the people took the matter in hand, and attempted, by sending out a small party of men, to quiet them and stop their depredations; that this small force was repulsed, two of their number killed, and were finally compelled to leave the field; that the citizens petitioned the Federal authorities for aid, without success, and, as a last resort, called upon the Governor of this State to afford them protection; that the Governor thereupon made application to General Clarke, commanding this Department, for troops, and was informed "that they could not be furnished," upon the receipt of which information, the Governor dispatched General Kibbe to the infested district, with a view of obtaining all the facts in relation to the number of hostile Indians, and their probable intention; and that, in the meantime, the Indians continued their depredations, murdering our citizens, pillaging and burning their houses; that the citizens again petitioned the Governor for aid, sent a special messenger to bear the same, and make a full representation of their grievances; that renewed application was made for Federal troops, by the Governor, and responded to by saying, that "not the smallest guard could be furnished;" whereupon, directions were given for raising a company of volunteers, and ordered General Kibbe into the field with this company; that the company took the field on the fifteenth of October, one thousand eight hundred and fifty-eight, and were continued in service until the thirty-first day of March, one thousand eight hundred and fifty-nine, by which time, above one hundred Indians had been killed, and three hundred and fifty taken prisoners, and shipped off to a Federal Reservation; that the section referred to has been entirely rid of hostile Indians; that numerous communications have been made during the period, by the Governor and General Kibbe, to the commanding officers of the United States Army, asking for troops, to take the place of the State troops, and answered that there were none ready to take the field.

Your Committee are, therefore, of the opinion that there was imperative necessity for calling these troops into service, and that their disbandment was ordered as soon as the safety of the country would permit—that the expedition has been entirely successful, and, according to the evidence before us, economical beyond precedent on this coast—and your Committee unite with the Governor in recommending an increase of pay to the men. By reference to the bills for subsistence, the Committee find that the cost for subsisting the command has been a fraction less than forty cents per day, each.

The pay established by law is about twelve dollars and ten cents

per month, and an allowance of two dollars and seventy-five cents for clothing, and we are assured by General Kibbe that this amount will scarcely pay the bills for clothing actually worn out in the service. The total cost of the expedition, consisting of ninety-four officers and men, for five and one-half months, as represented to us by General Kibbe, allowing the pay established by law, is thirty-two thousand eight hundred and thirty-four dollars and eighty-six cents, including the purchase of camp-equipage.

The Committee herewith report a bill, and recommend that it be considered and passed.

The undersigned, of Committee of Military Affairs, to whom was submitted Senate bill No. 284, providing for the payment of expenses incurred in suppression of Indian disturbances in Klamath and Humboldt Counties, begs leave to report, that they have examined the accounts presented by the officers in charge of the expedition, and concur with the report of Senate Committee, and recommend the passage, by the Assembly, of the Senate bill submitted to them.

MAJORITY REPORT.

The majority of your Committee on Mines and Mining Interests, to whom was referred Assembly bill No. 115, an Act to prohibit Chinese or Mongolians from working the gold-mines in the State of California, have considered the same, and recommend its indefinite postponement.

WATKINS,

MINORITY REPORT.

The undersigned, a member of the Committee on Mines and Mining Interests, in considering Assembly bill No. 115, "An Act to prohibit Chinese or Mongolians from working the gold-mines in this State," dissents from the opinion of a majority of the Committee, and recommends the passage of the bill.

The gold-mines of California were acquired by the common blood, and treasure, of the people of the United States, and should be reserved as a heritage for themselves, and their children. Such has been the uniform policy of every country, with reference to their mines of precious metals—they have been held by the sovereign power of the State, for the benefit of its citizens.

Though the State has departed from this policy, in permitting foreigners, of the European races, to work her gold-mines, the reasons for such a policy do not hold good, as applied to persons of the Chinese or Mongolian races, because of the immense numbers of those races who already occupy the mines, and the still more alarming numbers that (now that all barriers are thrown down against their immigration,) threaten to swarm in upon us.

They have no design, or desire, to assimilate themselves to our laws, customs, and institutions, and become permanent residents, and, like Eu-

ropeans, become valuable acquisitions to the population of the State; but they still retain all the barbarous and disgusting habits of their own country, and remain banded together, as a distinct people, protecting each other in crime—and, by reason of their cunning and deceit, and combined efforts, effectually screening themselves from the penalties of violated law.

They came to this State, not for the purpose of making it their future home, and adding to the permanent stock of the labor, and capital, of the State, but for the sole purpose of taking gold from our mines, and carrying it away to their own native country, for their own benefit, and the impoverishment of our mines.

They can never attain to citizenship, or become blended with American nationality, but must ever remain a distinct people, and will, in accordance with the teachings of all past times, as the inferior race, become the slaves of the superior; and their existence here, in such vastordes, is a subject that excites the most anxious solicitude, and fearful apprehension, for the future peace and welfare of the State—a policy that, in time, may be found as pregnant with evil as the introduction of the African races into the American Union.

The great body of the Chinese population, who inhabit the mines, are slaves to the wealthy mandarins of their own country, and to permit them to work the mines is to foster, in our own midst, and sustain by law, a system of slavery, not for the benefit of Americans, but for the sole benefit of Chinese capitalists. If this policy is to prevail, it would be far better to initiate a general system of slavery, that would enure equally to the benefit of American capitalists.

The direct question at issue is between the American laborer on one side, and the Chinese laborer and capitalist on the other. Our laborers wish to keep up the value of their toil to a fair standard of compensation among themselves, but you allow a capitalist to import Chinese labor upon them, and the equilibrium is disturbed—capital is triumphant, and the laboring poor of America must submit to the unholy sacrifice. The whole key to the question of Chinese immigration is the gold-mines. They come here to dig our mines. Shut down the door of prohibition on them, as provided in this bill, and no more will come here, and gradually those who are here will leave. The revenue derived from them for the support of Government is much smaller than is generally supposed.

They are addicted to theft and other crimes. Their testimony is worth nothing in a Court of Justice, and the anomalous position they hold makes criminal prosecutions against them exceedingly expensive—so much so, that in many of the mining Counties they entail on the County Government more expense than the amount of tax received from them. They crowd our County-jails, and, in an undue proportion, our State-prison. The conflagrations occasioned by their residence in the mining Towns has annually swept away property far exceeding in value all the tax derived from them, while the moral contamination resulting from their residence in those Towns can not be estimated in dollars and cents. They are digging out, covering up, and destroying the best placer-mines in the country—so that while they put in the pocket of the State a trifling amount of gold as a revenue, they put their hands in the other pocket and rob it of millions, and transport it to another country, to enrich their masters, who sent them here.

When the American people are unable to sustain the expenses of a Government without calling in and keeping among them an obnoxious

population, for the sole purpose of obtaining a tax from them to support the Government, then that Government is an engine of oppression.

In the language of a Committee appointed by the Legislature of California in one thousand eight hundred and fifty-five, to consider the same subject, "When American citizens become unable and incapable of supporting and upholding the Government and laws of their own making, then it will be time for us, and not until then, to import Chinese, Malays, and Negroes, to do that for us, which we have not the virtue and patriotism to do for ourselves."

The right of the Legislature to exclude Chinese from the mines will hardly be called in question, as the principle contended for is established by numerous judicial decisions, and forms an essential element of State sovereignty. Upon this question, the Supreme Court is clear and explicit, in the case of the City of New York against Miln, (11 Peters, 108.) The Court holds the following language:

"A State has the same undeniable right and unlimited jurisdiction over all persons and things within its territorial limits, as any foreign nation, when that jurisdiction is not surrendered or restrained by the Constitution of the United States."

"All those powers which relate to merely municipal legislation, or which may more properly be called internal police, are *not surrendered* or *restrained*, and, consequently, in relation to these, the authority of the State is *complete, unqualified, and conclusive*."

"It is not only right, but the bounden and solemn duty of a State to advance the safety, happiness, and prosperity of its people, and to provide for its general welfare, by any, and every act of legislation, which it may deem to be conclusive to these ends."

The right to grant the privilege, or restrain from working the gold-mines, dependent on the payment of a monthly tax, as under the present law, assumes the right to prohibit altogether. It is therefore, not a question of law, but of policy.

The undersigned believes the passage of this bill the only effectual mode of arresting the immense influx of Asiatic population, that now threatens to overrun this State, and save us from the great social and political evils resulting from the existence of Chinese and Mongolians in California. He therefore earnestly recommends the passage of the bill.

GEORGE H. CRENSHAW,

Chairman Committee on Mines and Mining Interests.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, April 14, 1859. }

To the Assembly of the State of California:

I hereby inform your honorable body that I have, this day, approved an Act "appropriating money for the payment of certain claims."

If it were not for the fact that the State has, upon several occasions, rewarded its citizens for services rendered in capturing murderers and robbers, I should have been compelled to withhold my approval, in consequence of the appropriation made to Mr. Potter, of one thousand dollars.

That the services of Mr. Potter were rendered at great risk, and were of immense value, no one familiar with the facts can doubt. If rewards could always be confined to claims as meritorious as this, there would be no difficulty, but I fear the doors of the treasury will be opened to others,

who have rendered services of a similar, but less important character. I yield, however, my convictions to the judgment of the Legislature.

I have, also, approved an Act "to appropriate money to pay Francis Crussell."

REPORTS.

Reports were made as follows :

By Mr. Street, from majority of Committee on Ways and Means :

MR. SPEAKER :—The Committee on Ways and Means, to whom was referred Senate bill No. 211, "An Act appropriating moneys for the benefit of certain Orphan Asylums in this State," having had the same under consideration, now report back the same, a majority of the Committee recommending its indefinite postponement.

C. R. STREET, Chairman.

By Mr. Cherry, from minority of same Committee :

MR. SPEAKER :—The undersigned, a minority of the Committee on Ways and Means, to whom was referred Senate bill No. 211, an Act appropriating money for the relief of the Orphan Asylums of San Francisco and Los Angeles, respectfully dissent from the recommendation of the majority of said Committee, and recommend the passage of the bill, for the following reasons :

It is well known that these asylums have been in existence for a number of years. They have been supported by the voluntary contributions of citizens of the Counties in which they are located. Commodious buildings have been erected, and every means have been used to provide for the comfort of the unfortunate children who have been thrown upon the cold charity of the world by the death of their parents. They have been considered rather as State than local institutions, and hundreds of orphans have been sent from various interior Counties to those places, where, by means of the physical, moral, and educational training adopted, they have grown up useful members of society. This has been done for years. Citizens have cheerfully contributed their means for this object, and have never before asked the State for assistance. They now find it necessary, for a variety of reasons, to do so, and the undersigned, believing the request to be an eminently proper one, and the pro-

posed relief absolutely necessary, recommend that the bill be passed, without amendment.

Mr. Holman made the following report :

MR. SPEAKER :—The undersigned, members of the Committee on Commerce and Navigation, have had under consideration Senate bill No. 234,

"An Act authorizing the construction of wharves at the foot of certain streets in the City and County of San Francisco," and beg leave to report:

The two wharves in question are to be built on property belonging to the State, in which the City of San Francisco has no interest whatever. As to the necessity of these wharves, it appears from evidence introduced before the Committee, that there are now but fourteen berths for ships drawing eighteen feet of water, and there are some twelve or fourteen ships in the harbor now waiting for berths, which, from evidence, is often the case.

As to the power of the Legislature to make the grant in question, the State is the owner in fee-simple, absolute, of the property where they are to be built, and this franchise she has never granted away.

By the Consolidation Bill of one thousand eight hundred and fifty-six, seventy-fourth section, in granting powers, she intrusted some twenty-six different wharves to the City, as a matter of police regulation, but not a proprietary interest in any of them, and these limit her to making any lease for more than five years, which is too short a time to justify the necessary investment of capital for the construction of wharves under it; hence the necessity of the Legislature acting in the premises.

The above is the evidence submitted to the Committee, but the shortness of time allowed is too limited for the full investigation of the matter which its importance seems to demand, and we therefore submit the bill, without recommendation.

HOLMAN,
JACKSON,
W. R. ARMSTRONG.

I agree with the Committee in returning the bill back to the House, without recommendation of any kind. As to the other points set out in the report, not having had time to make an examination, I neither assent or dissent.

A. S. ENSWORTH, one of the Committee.

Mr. Shepard verbally reported, dissenting from both, and recommending the indefinite postponement.

Mr. Lies moved that the rules be suspended, for the purpose of considering the bill at this time.

Upon which, Messrs. Banks, Pixley, and Hill, demanded the ayes and noes, and the House refused, by the following vote:

Mr. Murray offered the following report, and resolution, which was adopted :

REPORT OF THE COMMITTEE ON JOURNALIZING.

MR. SPEAKER :—Your Committee on Journalizing beg leave to report, that they have examined the Journal, and find the same to be correctly written, up to Monday, April eleventh, inclusive.

In this connection, your Committee deem it to be their duty to make known to the House the conclusions at which they have arrived, based upon their experience during the session, as Journalizing Committee. It will be remembered that, previous to this session, it has been the custom for the Clerk of the House to read daily the minutes from manuscript rolls, which rolls have been copied off into the Journal, without any subsequent supervision, other than that of the Journal-Clerk. In this manner the copying into the Journals last year got so far behindhand that Messrs. Scobey and Bingay, the Chief and Assistant Clerks, were allowed thirty days' time, each, at ten dollars per day, after the close of the session, during which to write up the Journals. This time was allowed upon the plea that it was impossible to keep the record closely written up. Your Committee would respectfully call attention to the fact that the entire practicability of making the Journal keep even pace with the proceedings of the House, has been fully and successfully demonstrated by the experience of this session, in accordance with the resolution on the subject of journalizing, under which your Committee was appointed.

Your Committee would also report that the work of transcribing the minutes of each day into a Journal, between the hours of adjournment of the House, and its re-assembling, the succeeding day, is but a light task for a skillful amanuensis. Furthermore, a good Minute-Clerk, (and, for an example, we need go no further than the present one, Col. Wood,) can, and does, during a great part of the session, bring up his minutes, even, hour by hour, with the action of the House. It is, therefore, perfectly practicable for the Journal-Clerk, sitting at a desk near the Speaker, to receive the minutes slip by slip from the Minute-Clerk, as he makes them up, and to enter the same in the Journal *instantly*, so that even without any night-work, or with but little, the Chief-Clerk may be enabled to read the minutes each morning from the Journal itself.

This end we deem to be not only desirable, not only practicable, but, indeed, most imperatively necessary. All Courts of Justice follow this plan. The minutes of the proceedings of each day are read from the record every succeeding morning, and signed, then and there, by the Judge. If corrections are deemed necessary, they are noted, under the order of the Judge, in the succeeding day's proceedings, without the necessity of erasure or interlineation. Your Committee can not think that the authenticity of the proceedings of a legislative body is less worthy of preservation than that of those of a Court of Justice, whether supreme or subordinate.

The only time during the session that, in the opinion of your Committee, it might become impossible to write up the minutes in the Journal, ready for reading the next morning, would be the day in which the Governor's Message is received. All the other long documents have been copied into an appendix this session, and may be so hereafter. We question whether the Governor's Message might not also be so disposed of. In any event, this is only a temporary obstacle.

Your Committee would call the attention of the House to the fact that, as it at present stands, the House Journal bears upon it no signature or stamp of authenticity whatsoever. It is signed by no officer. It is a

mere copy of that which is read in the House; that again receiving no sanction in the shape of a signature. The Clerk of the House never supervises the Journal after it is written up, and if it were not for the preservation of the original minutes, which have been read in the House, there would exist no documentary proof of the authenticity of each day's proceedings. Under the present system, we deem, therefore, that the entry in the Journal might be dispensed with altogether.

In view of the above conclusions, your Committee beg leave respectfully to recommend to this House the adoption of the accompanying resolution.

A. S. ENSWORTH,
T. B. SHANNON,
WALTER MURRAY,
J. S. TIPTON.

Resolved, That this House most earnestly recommends, to its successors, that they insist upon the reading of the minutes of each day's proceedings from the Journal itself, and upon the signature thereof by the Speaker, in the Journal, attested by the Clerk, immediately upon the approval thereof by the House.

Adopted.

Mr. Young moved to take from the table Senate bill No. 246, an Act to condemn, and appropriate to the use of the State of California, the interest of certain parties in and to the State-prison grounds, buildings, etc., situate on Point San Quentin, in the County of Marin, and to appropriate money for the payment of such interests.

The gentleman who has been looking after the interests of the Pilots, this session, on the eighteenth of last month wrote a letter to one of his associates at San Francisco, which has been shown to me, in which the following language is used in reference to this bill :

"My promises are all distributed in the right places, and I feel more like success to-day than I have any day since I have been up here." * * * * * "I suppose, when this bill gets to rolling, that all the click will be up here, and unless they have got over \$5000 dollars to offer, I think that they will go down with their fingers in their mouths."

The genuineness of this letter has been admitted to me by the author. I can not approve a bill passed under such circumstances.

Resolved, That a Committee of three be appointed to wait on Speaker Stratton, and conduct him to the Chair.

The Speaker was conducted to the Chair, and at twelve o'clock, M., adjourned the House *sine die*, with the following

REMARKS.

GENTLEMEN:—My duties as your presiding officer are now being brought to a close. At the commencement of the session I assumed the responsibilities of the position with a distrust of my ability to please each and every one, but with a determination to exercise my authority with impartiality, relying upon my own judgment, regardless of the opinions of others. I doubt not that I have incurred the displeasure of many; but I am happy to say that I have usually received the support of a large majority, which has certainly not often been swayed by political feeling, or party bias.

Gentlemen, from the day we assembled to the present, our action has been looked upon with interest by our several constituencies, and every measure proposed or adopted has been fully discussed, and is probably as well understood by the people as ourselves. They are the jurors; the record is before them, and we will soon receive the verdict. What that will be, we can only judge from the nature of the evidence submitted. Many matters of interest have been before us, and I am prepared to say, without fear of contradiction, that this Assembly has been governed in its action by a desire to advance the best interests of the State, and secure the welfare of the people. That there has been a conflict of opinion is true, and such must necessarily have been the case, in consequence of the variety of interests represented. The miner is no less jealous of his rights than the agriculturist, the settler than the grant-holder, the debtor than the creditor, and it will be remembered that all these classes bear relations to each other unknown to any State but California. Hence the difficulty—almost impossibility—of our Legislature following any well-known precedent. The effect of legislation being felt, not for a day only, but for years to come, time alone can determine whether ours has been wise and just.

I trust that I may be indulged in saying that my legislative experience, and the position I have occupied this session, having given me opportunities of judging of the usefulness of members, have fully convinced me that a great mistake is made by electing new men to the Assembly every year. No ability or brilliancy of talent will answer for experience. A knowledge of the mere machinery of legislation can not be acquired in less time than one session; and when members receive this knowledge they are too often superseded by those who must again be taught at the expense of the State—themselves to be superseded by others; and each year the House is composed of almost an entirely new set of men, unacquainted with the manner of legislation, and consequently incompetent to enter at once upon the business of the State.

Gentlemen, you are about returning to your constituents, and I trust they will receive and reward you as you deserve. For myself, I have to thank you for the courtesy you have extended towards me; and I assure you I shall, in the future, look back with pleasure upon the manner in which you have been pleased to sustain me, in the discharge of my duties. To the Clerks, and other officers of the House, I also return thanks for their aid and assistance, which has at all times been promptly and cheer-

fully given. Nor can I close without referring to the fact that the Reporters, who have occupied seats upon this floor, have appeared to be guided by no political feelings, but rather a desire to justly and fairly represent my action as Speaker of this Assembly.

Gentlemen, you, one and all, have my best wishes for your welfare, and future prospects, and I now declare this Assembly adjourned *sine die*.

W. C. STRATTON, Speaker.

C. GILMAN, Clerk of Assembly.
